## SELECTION AND RATE CONTRACTING OF MEDICAL EQUIPMENT, MEDICAL FURNITURE, INSTRUMENT AND OTHER HOSPITAL SUPPLIES FOR THE FINANCIAL YEAR 2023-24

FINAL REVISED AFTER PRE-BED MEETINGSDATED 26-28 DEC 2023

December 2023

**Procurement Cell** 

Directorate General Health Services, Khyber Pakhtunkhwa, Peshawar

**Health Department** 

Government of Khyber Pakhtunkhwa

#### Preface

This specific bid solicitation documents are prepared for Selection and Rate Contracting of Medical Equipment, Medical Furniture, Instrument and other hospital supplies for the financial year 2023-24 under the Government of Khyber Pakhtunkhwa District Government rules of business 2015 and Framework Agreement covered under KPPRA rules and Act.

Following the standard bidding document Format, this document contains two parts. Part one which is Fixed and is having two sections i.e., Section 1, 2 (ITB instruction to bidders, GCC general conditions of Contract) are duplicated here while part II has six sections, i.e.

- i. Invitation for Bids (IFB)
- ii. Bid Data Sheet (BDS)
- iii. Special Conditions of Contract (SCC)
- iv. Schedule of Requirements
- v. Technical Specifications
- vi. Sample Forms

To ensure maximum utilization of the supplied equipment, training of technical personals and end users is an essential part of the bid. To go further, second stage handing taking over of the supplied equipment after the expiry of standard warranty is hereby included in this specific bid. The bidders are also expected to take into consideration the feasibility for their Quoted equipment. As for as the standard warranty is concerned, in case of unnecessary breakdown / Prolonged Breakdown, for their warranty will be considered freeze until the equipment is functionalized.

Efforts are made here to make the document flawless, however in case of any errors or mistake and quarries, the bidders are expected to highlight it in the pre bid meeting for rectification alignment of the document. Furthermore, the manufacturer /suppliers can share the literature for advance Technological development in medical equipment as a futuristic activity in order to enhance the specifications accordingly. Proper submission of the bid is highly appreciated.

## Part One - Section I

### **Instructions to Bidders**

#### Notes on the Instructions to Bidders

This section of the bidding documents provides the information necessary for bidders to prepare responsive bids, in accordance with the requirements of the Procuring agency. It also provides information on bid submission, opening, and evaluation, and on the award of contract.

Part One Section I contains provisions that are to be used unchanged. Part Two Section II (Bid Data Sheet) consists of provisions that supplement, amend, or specify in detail information or requirements included in Part One Section I and which are specific to that procurement.

Matters governing the performance of the Supplier, payments under the contract, or matters affecting the risks, rights, and obligations of the parties under the contract are not normally included in this section, but rather under Part one Section II, General Conditions of Contract, and/or Part Two Section III, Special Conditions of Contract. If duplication of a subject is inevitable in the other sections of the document prepared by the Procuring agency, care must be exercised to avoid contradictions between clauses dealing with the same matter.

#### A. Introduction

1. Source of Funds

2. Eligible Bidders

- 1.1 The Procuring agency has received/applied for loan / grant / federal / provincial / local government funds from the source(s) indicated in the bidding data in various currencies towards the cost of the project /schemes specified in the bidding data and it is intended that part of the proceeds of this loan/grant/funds/ will be applied to eligible payments under the contract for which these bidding documents are issued.
  - 1.2 The funds referred to above in addition shall be -Public Fundl which according to 2 (l) of KPP Rules 2014 means (i) Provincial Consolidated Fund; (ii) foreign assistance; (iii) all moneys standing in the Public Account; and (iv) Funds of enterprises wholly or partly owned or managed or controlled by Government.
  - 1.3 Payment by the Fund will be made only at the request of the Procuring agency and upon approval by the Government of Khyber Pakhtunkhwa., and in case of a project will be subject in all respect to the terms and conditions of the agreement. The Project Agreement prohibits a withdrawal from the allocated fund account for the purpose of any payment to persons or entities, or for any import of goods, if such payment or import, to the knowledge of the Federal Government/ Khyber Pakhtunkhwa Government, is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations. No party other than the Procuring agency shall derive any rights from the Project Agreement or have any claim to the allocated fund proceeds.
  - 2.1 This Invitation for Bids is open to all suppliers from eligible source as defined in the KPP Rules, 2014 and its Bidding Documents except as provided hereinafter.
  - 2.2 Bidders should not be associated, or have been associated in the past, directly or indirectly, with a firm or any of its affiliates which have been engaged by the Procuring agency to provide consulting services for the preparation of the design, specifications, and other documents to be used for the procurement of the goods to be purchased under this Invitation for Bids.
  - 2.3 Government-owned enterprises in the Province of Khyber Pakhtunkhwa may participate only if they are legally and financially autonomous, if they operate under commercial law, and if they are not a dependent agency of the Government of Khyber Pakhtunkhwa.
  - 2.4 Bidders shall not be eligible to bid if they are under a declaration of ineligibility for corrupt and fraudulent practices issued by any government organization in accordance with the Section 44(1) KPP Rules 2014.

- 3.1 All goods and related services to be supplied under the contract shall have their origin in eligible source countries of the world with whom the Islamic Republic of Pakistan has commercial relations and its Bidding Documents and all expenditures made under the contract will be limited to such goods and services.
- 3.2 For purposes of this clause, –origin∥ means the place where the goods are mined, grown, or produced, or the place from which the related services are supplied. Goods are produced when, through manufacturing, processing, or substantial and major assembly of components, a commercially-recognized product results that is substantially different in basic characteristics or in purpose or utility from its components.
- 3.3 The origin of goods and services is distinct from the nationality of the Bidder.
- 4.1 The Bidder shall bear all costs associated with the preparation and submission of its bid, and the Procuring agency named in the Bid Data Sheet, hereinafter referred to as —the Procuring agency, will in no case be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

#### **B.** The Bidding Documents

- 5.1 The bidding documents include:
  - a) Instructions to Bidders (ITB)
  - b) Bid Data Sheet
  - c) General Conditions of Contract (GCC)
  - d) Special Conditions of Contract (SCC)
  - e) Schedule of Requirements
  - f) Technical Specifications
  - g) Bid Form and Price Schedules
  - h) Bid Security Form
  - i) Contract Form
  - j) Performance Security Form
  - k) Manufacturer's Authorization Form
- 5.2 The Bidder is expected to examine all instructions, forms, terms, and specifications in the bidding documents. Failure to furnish all information required by the bidding documents or to submit a bid not substantially responsive to the bidding documents in every respect will be at the Bidder's risk and may result in the rejection of its bid.

5. Content of Bidding Documents

4. Cost of Bidding

3. Eligible Goods and

Services

6. Clarification of Bidding Documents	6.1	An interested Bidder requiring any clarification of the bidding documents may notify the Procuring agency in writing. The Bidding Procuring agency will respond in writing to any request for Documents clarification of the bidding documents which it receives no later than three working days prior to the deadline for the submission of bids prescribed in the Bid Data Sheet. Written copies of the Procuring agency's response (including an explanation of the query but without identifying the source of inquiry) will be sent to all interested bidders that have received the bidding documents.
7. Amendment of Bidding Documents	7.1	At any time prior to the deadline for submission of bids, the Procuring agency, for any reason, whether at its own initiative or in response to a clarification requested by an interested Bidder, may modify the bidding documents by amendment.
	7.2	All interested bidders that have received the bidding documents will be notified of the amendment in writing, and will be binding on them.
	7.3	In order to allow interested bidders reasonable time in which to take the amendment into account in preparing their bids, the Procuring agency, at its discretion, may extend the deadline for the submission of bids.
		C. Preparation of Bids
8. Language of Bid	8.1	The bid prepared by the Bidder, as well as all correspondence and documents relating to the bid exchanged by the Bidder and the Procuring agency shall be written in the language specified in the Bid Data Sheet. Supporting documents and printed literature furnished by the Bidder may be in another language provided they are accompanied by an accurate translation of the relevant passages in the language specified in the Bid Data Sheet, in which case, for purposes of interpretation of the Bid, the translation shall govern.
9. Documents Comprising the Bid	9.1	<ul> <li>The bid prepared by the Bidder shall comprise the following components:</li> <li>a) a Bid Form and a Price Schedule completed in accordance with ITB Clauses 10, 11, and 12</li> <li>b) documentary evidence established in accordance with ITB Clause 13 that the Bidder is eligible to bid and is qualified to perform the contract if its bid is accepted;</li> <li>c) documentary evidence established in accordance with ITB Clause 14 that the goods and ancillary services to be supplied by the Bidder are eligible goods and services and conform to the bidding documents; and</li> <li>d) bid security furnished in accordance with ITB Clause 15.</li> </ul>
10. Bid Form	10.1	The Bidder shall complete the Bid Form and the appropriate Price Schedule furnished in the bidding documents, indicating the goods to be supplied, a brief description of the goods, their country of origin, quantity, and prices.
11. Bid Prices	11.1	The Bidder shall indicate on the appropriate Price Schedule the unit prices (where applicable) and total bid price of the goods it proposes to supply under the contract.

### Page | 4

- 11.2 Prices indicated on the Price Schedule shall be delivered duty paid (DDP) prices. The price of other (incidental) services, if any, listed in the Bid Data Sheet will be entered separately.
- 11.3 The Bidder's separation of price components in accordance with ITB Clause 11.2 above will be solely for the purpose of facilitating the comparison of bids by the Procuring agency and will not in any way limit the Procuring agency's right to contract on any of the terms offered.
- 11.4 Prices quoted by the Bidder shall be fixed during the Bidder's performance of the contract and not subject to variation on any account, unless otherwise specified in the Bid Data Sheet. A bid submitted with an adjustable price quotation will be treated as nonresponsive and will be rejected, pursuant to ITB Clause 24. If, however, in accordance with the Bid Data Sheet, prices quoted by the Bidder shall be subject to adjustment during the performance of the contract, a bid submitted with a fixed price quotation will not be rejected, but the price adjustment would be treated as zero.
- 12.1 Prices shall be quoted in Pak Rupees unless otherwise specified in the Bid Data Sheet.
- 13.1 Pursuant to ITB Clause 9, the Bidder shall furnish, as part of its bid, documents establishing the Bidder's eligibility to bid and its qualifications to perform the contract if its bid is accepted.
- 13.2 The documentary evidence of the Bidder's eligibility to bid shall establish to the Procuring agency's satisfaction that the Bidder, at the time of submission of its bid, is from an eligible country as defined under ITB Clause 3.
- 13.3 The documentary evidence of the Bidder's qualifications to perform the contract if its bid is accepted shall establish to the Procuring agency's satisfaction:
  - a) that, in the case of a Bidder offering to supply goods under the contract which the Bidder did not manufacture or otherwise produce, the Bidder has been duly authorized by the goods' Manufacturer or producer to supply the goods in the Procuring agency's country;
  - b) that the Bidder has the financial, technical, and production capability necessary to perform the contract;
  - c) that, in the case of a Bidder not doing business within the Procuring agency's country, the Bidder is or will be (if awarded the contract) represented by an Agent in that country equipped, and able to carry out the Supplier's maintenance, repair, and spare parts-stocking obligations prescribed in the Conditions of Contract and/or Technical Specifications; and

13. Documents Establishing Bidder's Eligibility and Qualification

**12. Bid Currencies** 

- d) that the Bidder meets the qualification criteria listed in the Bid Data Sheet.
- 14.1 Pursuant to ITB Clause 9, the Bidder shall furnish, as part of its bid, documents establishing the eligibility and conformity to the bidding documents of all goods and services which the Bidder proposes to supply under the contract.
- 14.2 The documentary evidence of the eligibility of the goods and services shall consist of a statement in the Price Schedule of the country of origin of the goods and services offered which shall be confirmed by a certificate of origin issued at the time of shipment.
- 14.3 The documentary evidence of conformity of the goods and services to the bidding documents may be in the form of literature, drawings, and data, and shall consist of:
  - a) a detailed description of the essential technical and performance characteristics of the goods;
  - a list giving full particulars, including available sources and current prices of spare parts, special tools, etc., necessary for the proper and continuing functioning of the goods for a period to be specified in the Bid Data Sheet, following commencement of the use of the goods by the Procuring agency; and
  - c) an item-by-item commentary on the Procuring agency's Technical Specifications demonstrating substantial responsiveness of the goods and services to those specifications, or a statement of deviations and exceptions to the provisions of the Technical Specifications.
- 14.4 For purposes of the commentary to be furnished pursuant to ITB Clause 14.3(c) above, the Bidder shall note that standards for workmanship, material, and equipment, as well as references to brand names or catalogue numbers designated by the Procuring agency in its Technical Specifications, are intended to be descriptive only and not restrictive. The Bidder may substitute alternative standards, brand names, and/or catalogue numbers in its bid, provided that it demonstrates to the Procuring agency's satisfaction that the substitutions ensure substantial equivalence to those designated in the Technical Specifications.
- 15.1 Pursuant to ITB Clause 9, the Bidder shall furnish, as part of its bid, a bid security in the amount specified in the Bid Data Sheet. [The bid security shall be submitted from the account of the firm/bidder/contractor who submits the bid]<sup>1</sup>
- 15.2 The bid security is required to protect the Procuring agency against the risk of Bidder's conduct which would warrant the security's forfeiture, pursuant to ITB Clause 15.7.

14. Documents Establishing Goods' Eligibility and Conformity to Bidding Documents

**15. Bid Security** 

<sup>&</sup>lt;sup>1</sup> Inserted by KPPRA Notification No. KPPRA/M&E/Estt:/1-12/2017-18 dated April 05, 2018.

- 15.3 The bid security shall be in Pak. Rupees and shall be in one of the following forms:
  - a) a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the Procuring agency's country, in the form provided in the bidding documents or another form acceptable to the Procuring agency and valid for thirty (30) days beyond the validity of the bid; or
  - b) irrevocable encashable on-demand Bank call-deposit.
- 15.4 Any bid not secured in accordance with ITB Clauses 15.1 and 15.3 will be rejected by the Procuring agency as non-responsive, pursuant to ITB Clause 24.
- 15.5 Unsuccessful bidders' bid security will be discharged or returned as promptly as possible but not later than thirty (30) days after the expiration of the period of bid validity prescribed by the Procuring agency pursuant to ITB Clause 16.
- 15.6 The successful Bidder's bid security will be discharged upon the Bidder signing the contract, pursuant to ITB Clause 32, and furnishing the performance security, pursuant to ITB Clause 33.
- 15.7 The bid security may be forfeited:
  - a) if a Bidder withdraws its bid during the period of bid validity specified by the Bidder on the Bid Form; or
  - b) in the case of a successful Bidder, if the Bidder fails:
    - i. to sign the contract in accordance with ITB Clause 32;
    - or
    - ii. to furnish performance security in accordance with ITB Clause 33.
- 16.1 Bids shall remain valid for the period specified in the Bid Data Sheet after the date of bid opening prescribed by the Procuring agency, pursuant to ITB Clause 19. A bid valid for a shorter period shall be rejected by the Procuring agency as non-responsive.
  - 16.2 In exceptional circumstances, the Procuring agency may solicit the Bidder's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing. The bid security provided under ITB Clause 15 shall also be suitably extended. A Bidder may refuse the request without forfeiting its bid security. A Bidder granting the request will not be required nor permitted to modify its bid, except as provided in the bidding document.
- 17.1 The Bidder shall prepare an original and the number of copies of the bid indicated in the Bid Data Sheet, clearly marking each
  -ORIGINAL BID and -COPY OF BID, as appropriate. In the event of any discrepancy between them, the original shall govern.
- 17.2 The original and the copy or copies of the bid shall be typed or written in indelible ink and shall be signed by the Bidder or a person or persons duly authorized to bind the Bidder to the contract. All pages of the bid, except for un-amended printed literature, shall be initialed by the person or persons signing the bid.

16. Period of Validity of Bids

17. Format and Signing of Bid

	17.3	Any interlineations, erasures, or overwriting shall be valid only if they are initialed by the person or persons signing the bid.
	17.4	The Bidder shall furnish information as described in the Form of Bid on commissions or gratuities, if any, paid or to be paid to agents relating to this Bid, and to contract execution if the Bidder is awarded the contract.
19 Casling and	18.1	<b>D. Submission of Bids</b> The Bidder shall seal the original and each copy of the bid in separate envelopes, duly marking the envelopes as -ORIGINAL and -COPY.
18. Sealing and Marking of Bids		The envelopes shall then be sealed in an outer envelope.
	18.2	The inner and outer envelopes shall:
		a. be addressed to the Procuring agency at the address given in the Bid Data Sheet; and
		b. bear the Project name indicated in the Bid Data Sheet, the Invitation for Bids (IFB) title and number indicated in the Bid Data Sheet, and a statement: -DO NOT OPEN BEFORE, I to be completed with the time and the date specified in the Bid Data Sheet, pursuant to ITB Clause 2.2.
	18.3	The inner envelopes shall also indicate the name and address of the Bidder to enable the bid to be returned unopened in case it is declared $- ate  $ .
	18.4	If the outer envelope is not sealed and marked as required by ITB Clause 18.2, the Procuring agency will assume no responsibility for the bid's misplacement or premature opening.
19. Deadline for Submission of Bids	19.1	Bids must be received by the Procuring agency at the address specified under ITB Clause 18.2 no later than the time and date specified in the Bid Data Sheet.
	9.2	The Procuring agency may, at its discretion, extend this deadline for the submission of bids by amending the bidding documents in accordance with ITB Clause 7, in which case all rights and obligations of the Procuring agency and bidders previously subject to the deadline will thereafter be subject to the deadline as extended.
20. Late Bids	20.1	Any bid received by the Procuring agency after the deadline for submission of bids prescribed by the Procuring agency pursuant to ITB Clause 19 will be rejected and returned unopened to the Bidder.
21. Modification and Withdrawal of Bids	21.1	The Bidder may modify or withdraw its bid after the bid's submission, provided that written notice of the modification, including substitution or withdrawal of the bids, is received by the Procuring agency prior to the deadline prescribed for submission of bids.
	21.2	The Bidder's modification or withdrawal notice shall be prepared, sealed, marked, and dispatched in accordance with the provisions of ITB Clause 18. by a signed confirmation copy, postmarked not later

than the deadline for submission of bids.

- 21.3 No bid may be modified after the deadline for submission of bids.
- 21.4 No bid may be withdrawn in the interval between the deadline for submission of bids and the expiration of the period of bid validity specified by the Bidder on the Bid Form. Withdrawal of a bid during this interval may result in the Bidder's forfeiture of its bid security, pursuant to the ITB Clause 15.7.

#### **E.** Opening and Evaluation of Bids

- 22.1 The Procuring agency will open all bids in the presence of bidders' representatives who choose to attend, at the time, on the date, and at the place specified in the Bid Data Sheet. The bidders' representatives who are present shall sign a register evidencing their attendance.
  - 22.2 The bidders' names, bid modifications or withdrawals, bid prices, discounts, and the presence or absence of requisite bid security and such other details as the Procuring agency, at its discretion, may consider appropriate, will be announced at the opening. No bid shall be rejected at bid opening, except for late bids, which shall be returned unopened to the Bidder pursuant to ITB Clause 20.
  - 22.3 Bids (and modifications sent pursuant to ITB Clause 21.2) that are not opened and read out at bid opening shall not be considered further for evaluation, irrespective of the circumstances. Withdrawn bids will be returned unopened to the bidders.
  - 22.4 The Procuring agency will prepare minutes of the bid opening.
- 23.1 During evaluation of the bids, the Procuring agency may, at its discretion, ask the Bidder for a clarification of its bid. The Bids request for clarification and the response shall be in writing, and no change in the prices or substance of the bid shall be sought, offered, or permitted.
- 24.1 The Procuring agency will examine the bids to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed, and whether the bids are generally in order.
- 24.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the Supplier does not accept the correction of the errors, its bid will be rejected, and its bid security may be forfeited. If there is a discrepancy between words and figures, the amount in words will prevail.
- 24.3 The Procuring agency may waive any minor informality, nonconformity, or irregularity in a bid which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of any Bidder.
- 24.4 Prior to the detailed evaluation, pursuant to ITB Clause 25 the Procuring agency will determine the substantial responsiveness of each bid to the bidding documents. For purposes of these Clauses, a

22. Opening of Bids by the Procuring agency

23. Clarification of

24. Preliminary

Examination

Bids

substantially responsive bid is one which conforms to all the terms and conditions of the bidding documents without material deviations. Deviations from, or objections or reservations to critical provisions, such as those concerning Bid Security (ITB Clause 15), Applicable Law (GCC Clause 30), and Taxes and Duties (GCC Clause 32), will be deemed to be a material deviation. The Procuring agency's determination of a bid's responsiveness is to be based on the contents of the bid itself without recourse to extrinsic evidence.

- 24.5 If a bid is not substantially responsive, it will be rejected by the Procuring agency and may not subsequently be made responsive by the Bidder by correction of the nonconformity.
- 25.1 The Procuring agency will evaluate and compare the bids which have been determined to be substantially responsive, pursuant to ITB Clause 24.
- 25.2 The Procuring agency's evaluation of a bid will be on delivered duty paid (DDP) price inclusive of prevailing duties and will exclude any allowance for price adjustment during the period of execution of the contract, if provided in the bid.
- 25.3 The Procuring agency's evaluation of a bid will take into account, in addition to the bid price quoted in accordance with ITB Clause 11.2, one or more of the following factors as specified in the Bid Data Sheet, and quantified in ITB Clause 25.4:
  - a. incidental costs
  - b. delivery schedule offered in the bid;
  - c. deviations in payment schedule from that specified in the Special Conditions of Contract;
  - d. the cost of components, mandatory spare parts, and service;
  - e. the availability Procuring agency of spare parts and after-sales services for the equipment offered in the bid;
  - f. the projected operating and maintenance costs during the life of the equipment; the performance and productivity of the equipment offered; and/or
  - g. other specific criteria indicated in the Bid Data Sheet and/or
  - h. in the Technical Specifications.
- 25.4 For factors retained in the Bid Data Sheet pursuant to ITB 25.3, one or more of the following quantification methods will be applied, as detailed in the Bid Data Sheet:
  - a. Incidental costs provided by the bidder will be added by Procuring agency to the delivered duty paid (DDP) price at the final destination.
  - b. Delivery schedule.

i.

The Procuring agency requires that the goods under the Invitation for Bids shall be delivered at the time specified in the Schedule of Requirements which will be treated as the base, a delivery —adjustment will be calculated for bids by applying a percentage, specified in the Bid Data Sheet, of the DDP price for each week of delay beyond the base, and this will be added to the bid price for evaluation. No credit shall be given to early

### 25. Evaluation and Comparison of Bids

- delivery.
- or ii

The goods covered under this invitation are required to be delivered (shipped) within an acceptable range of weeks specified in the Schedule of Requirement. No credit will be given to earlier deliveries, and bids offering delivery beyond this range will be treated as nonresponsive. Within this acceptable range, an adjustment per week, as specified in the Bid Data Sheet, will be added for evaluation to the bid price of bids offering deliveries later than the earliest delivery period specified in the Schedule of Requirements.

or iii.

The goods covered under this invitation are required to be delivered in partial shipments, as specified in the Schedule of Requirements. Bids offering deliveries earlier or later than the specified deliveries will be adjusted in the evaluation by adding to the bid price a factor equal to a percentage, specified in the Bid Data Sheet, of DDP price per week of variation from the specified delivery schedule.

- c. Deviation in payment schedule:
  - i. Bidders shall state their bid price for the payment schedule outlined in the SCC. Bids will be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in bid price they wish to offer for such alternative payment schedule. The Procuring agency may consider the alternative payment schedule offered by the selected Bidder.

#### or

- ii. The SCC stipulates the payment schedule offered by the Procuring agency. If a bid deviates from the schedule and if such deviation is considered acceptable to the Procuring agency, the bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the bid as compared with those stipulated in this invitation, at the rate per annum specified in the Bid Data Sheet.
- d. Cost of spare parts.
  - i. The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the Bid Data Sheet, is annexed to the Technical Specifications. The total cost of these items, at the unit prices quoted in each bid, will be added to the bid price.

#### or

ii. The Procuring agency will draw up a list of highusage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the Bid Data Sheet. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the bid price.

- or
- iii. The Procuring agency will estimate the cost of spare parts usage in the initial period of operation specified in the Bid Data Sheet, based on information furnished by each Bidder, as well as on past experience of the Procuring agency or other procuring agencies in similar situations. Such costs shall be added to the bid price for evaluation.
- e. Spare parts and after sales service facilities in the Procuring agency's country.
- The cost to the Procuring agency of establishing the minimum service facilities and parts inventories, as outlined in the Bid Data Sheet or elsewhere in the bidding documents, if quoted separately, shall be added to the bid price.
- f. Operating and maintenance costs.
- Since the operating and maintenance costs of the goods under procurement form a major part of the life cycle cost of the equipment, these costs will be evaluated in accordance with the criteria specified in the Bid Data Sheet or in the Technical Specifications.
- g. Performance and productivity of the equipment.
- i. Bidders shall state the guaranteed performance or efficiency in response to the Technical Specification. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the Bid Data Sheet will be added to the bid price, representing the capitalized cost of additional operating costs over the life of the plant, using the methodology specified in the Bid Data Sheet or in the Technical Specifications.
- or
- Goods offered shall have a minimum productivity specified under the relevant provision in the Technical Specifications to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the bid, and adjustment will be added to the bid price using the methodology specified in the Bid Data Sheet or in the Technical Specifications.
- h. Specific additional criteria indicated in the Bid Data Sheet and/or in the Technical Specifications.
- The relevant evaluation method shall be detailed in the Bid Data Sheet and/or in the Technical Specifications.

25.5 Merit Point System:

Alternative

The following merit point system for weighing evaluation factors can be applied if none of the evaluation methods listed in 25.4 above has been retained in the Bid Data Sheet. The number of points allocated to each factor shall be specified in the Bid Data Sheet. [In the Bid Data Sheet, choose from the range of] Evaluated price of the goods 60 to 90 Cost of common list spare parts 0 to 20 Technical features, and maintenance and operating 0 to 20 costs Availability of service and spare parts 0 to 20 Standardization 0 to 20 100 Total The bid scoring the highest number of points will be deemed to be the lowest evaluated bid. 26.1Subject to ITB Clause 23, no Bidder shall contact the Procuring agency on any matter relating to its bid, from the time of the bid opening to the 26. Contacting the time the contract is awarded. If the Bidder wishes to bring additional **Procuring agency** information to the notice of the Procuring agency, it should do so in writing. Any effort by a Bidder to influence the Procuring agency in its 26.2 decisions on bid evaluation, bid comparison, or contract award may result in the rejection of the Bidder's bid. F. Award of Contract 27.1In the absence of prequalification, the Procuring agency will determine to its satisfaction whether the Bidder that is selected as having **27.** Post-qualification submitted the lowest evaluated responsive bid is gualified to perform the contract satisfactorily, in accordance with the criteria listed in ITB Clause 13.3. 27.2 The determination will take into account the Bidder's financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB Clause 13.3, as well as such other information as the Procuring agency deems necessary and appropriate. 27.3 An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder's bid, in which event the Procuring agency will proceed to the next lowest evaluated bid to make a similar determination of that Bidder's capabilities to perform satisfactorily. Subject to ITB Clause 30, the Procuring agency will award the contract 28.128. Award Criteria to the successful Bidder whose bid has been determined to be substantially responsive and has been determined to be the lowest evaluated bid, provided further that the Bidder is determined to be

qualified to perform the contract satisfactorily.

29. Procuring agency's Right to Vary Quantities at Time of Award	29.1	The Procuring agency reserves the right at the time of contract award to increase or decrease, by the percentage indicated in the Bid Data Sheet, the quantity of goods and services originally specified in the Schedule of Requirements without any change in unit price or other terms and conditions.
30. Procuring agency's Right to Accept any Bid and to Reject any or All Bids	30.1	The Procuring agency reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to contract award, without thereby incurring any liability to the affected Bidder or bidders or any obligation to inform the affected Bidder or bidders of the grounds for the Procuring agency's action.
31. Notification of Award	31.1	Prior to the expiration of the period of bid validity, the Procuring agency will notify the successful Bidder in writing by registered letter or by cable, to be confirmed in writing by registered letter, that its bid has been accepted.
	31.2	The notification of award will constitute the formation of the Contract.
	31.3	Upon the successful Bidder's furnishing of the performance security pursuant to ITB Clause 33, the Procuring agency will promptly notify each unsuccessful Bidder and will discharge its bid security, pursuant to ITB Clause 15.
32. Signing of Contract	32.1	At the same time as the Procuring agency notifies the successful Bidder that its bid has been accepted, the Procuring agency will send the Bidder the Contract Form provided in the bidding documents, incorporating all agreements between the parties.
	32.2	Within thirty (30) days of receipt of the Contract Form, the successful Bidder shall sign and date the contract and return it to the Procuring agency.
33 Performance Security	33.1	Within twenty (20) days of the receipt of notification of award from the Procuring agency, the successful Bidder shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the bidding documents, or in another form acceptable to the Procuring agency.
	33.2	Failure of the successful Bidder to comply with the requirement of ITB Clause 32 or ITB Clause 33.1 shall constitute sufficient grounds for the annulment of the award and forfeiture of the bid security, in which event the Procuring agency may make the award to the next lowest evaluated Bidder or call for new bids.
<b>34. Corrupt or Fraudulent Practices</b>	34.1	The Government of Khyber Pakhtunkhwa requires that Procuring agency's (including beneficiaries of donor agencies' loans), as well as Bidders/Suppliers/Contractors under Government-financed contracts, observe the highest standard of ethics during the procurement and execution of such contracts. In pursuance of this policy, the KPPRA, in accordance with the KPP Act, 2009 and Rules made thereunder:
		a. defines, for the purposes of this provision, the terms set forth below as follows:

i.	—corrupt practice means the offering, giving, receiving						
	or soliciting of anything of value to influence the action						
	of a public official in the procurement process or in						
	contract execution; and						

- ii. —fraudulent practicel means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Procuring agency, and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Procuring agency of the benefits of free and open competition;
- b. will reject a proposal for award if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;
- c. will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded a Government-financed contract if it at any time determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing, a Government-financed contract.
- 34.2 Furthermore, Bidders shall be aware of the provision stated in subclause 5.4 and sub-clause 24.1 of the General Conditions of Contract.
- 35.1 The Bidder shall sign and stamp the Integrity Pact provided at Form 5 to Bid in the Bidding Document for all Provincial Government procurement contracts exceeding Rupees ten million. Failure to such Integrity Pact shall make the bidder non-responsive.

**35. Integrity Pact** 

## Part One - Section II.

### **General Conditions of Contract**

#### Notes on the General Conditions of Contract

The General Conditions of Contract in Part One Section II, read in conjunction with the Special Conditions of Contract in Part Two Section III and other documents listed therein, should be a complete document expressing all the rights and obligations of the parties.

The General Conditions of Contract herein shall not be altered. Any changes and complementary information, which may be needed, shall be introduced only through the Special Conditions of Contract in Part Two Section III.

### **General Conditions of Contract**

4 75 68 94	1.1	In this Contract, the following terms shall be interpreted as indicated:
1. Definitions		a. —The Contract means the agreement entered into between the Procuring agency and the Supplier, as recorded in the Contract Form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
		bThe Contract Price means the price payable to the Supplier under the Contract for the full and proper performance of its contractual obligations.
		c. —The Goods <sup>I</sup> means all of the equipment, machinery, and/or other materials which the Supplier is required to supply to the Procuring agency under the Contract.
		d. —The Services means those services ancillary to the supply of the Goods, such as transportation and insurance, and any other incidental services, such as installation, commissioning, provision of technical assistance, training, and other such obligations of the Supplier covered under the Contract.
		eGCCI means the General Conditions of Contract contained in this section.
		f. −SCCII means the Special Conditions of Contract.
		g. —The Procuring agency means the organization purchasing the Goods, as named in SCC.
		h. —The Procuring agency's country lis the country named in SCC.
		i. —The Supplier means the individual or firm supplying the Goods and Services under this Contract.
		jThe Project Site,∥ where applicable, means the place or places named in SCC.
		kDay∥ means calendar day.
2. Application	2.1	These General Conditions shall apply to the extent that they are not superseded by provisions of other parts of the Contract.
3. Country of Origin	3.1	All Goods and Services supplied under the Contract shall have their origin in the countries and territories eligible under the rules and `further elaborated in the SCC.
	3.2	For purposes of this Clause, -origin means the place where the Goods were mined, grown, or produced, or from which the Services are supplied. Goods are produced when, through manufacturing, processing, or substantial and major assembly of components, a commercially recognized new product results that is substantially different in basic characteristics or in purpose or utility from its

components.

- 3.3 The origin of Goods and Services is distinct from the nationality of the Supplier.
- 4.1 The Goods supplied under this Contract shall conform to the standards mentioned in the Technical Specifications, and, when no applicable standard is mentioned, to the authoritative standards appropriate to the Goods' country of origin. Such standards shall be the latest issued by the concerned institution.
- 5.1 The Supplier shall not, without the Procuring agency's prior written consent, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the Procuring agency in connection therewith, to any person other than a person employed by the Supplier in the **Inspection and Audit** performance of the Contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.
  - 52 The Supplier shall not, without the Procuring agency's prior written consent, make use of any document or information enumerated in GCC Clause 5.1 except for purposes of performing the Contract.
  - 5.3 Any document, other than the Contract itself, enumerated in GCC Clause 5.1 shall remain the property of the Procuring agency and shall be returned (all copies) to the Procuring agency on completion of the Supplier's performance under the Contract if so, required by the Procuring agency.
  - 5.4 The Supplier shall permit the Procuring agency to inspect the Supplier's accounts and records relating to the performance of the Supplier and to have them audited by auditors appointed by the procuring agency, if so required.
  - The Supplier shall indemnify the Procuring agency against all third-6.1 party claims of infringement of patent, trademark, or industrial design rights arising from use of the Goods or any part thereof in the Procuring agency's country.
  - 7.1 Within twenty (20) days of receipt of the notification of Contract award, the successful Bidder shall furnish to the Procuring agency the performance security in the amount specified in SCC.
  - 7.2 The proceeds of the performance security shall be payable to the Procuring agency as compensation for any loss resulting from the Supplier's failure to complete its obligations under the Contract.
  - 7.3 The performance security shall be denominated in the currency of the Contract acceptable to the Procuring agency and shall be in one of the following forms:
    - a. a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the Procuring agency's country, in the form provided in the bidding documents or another form acceptable to the Procuring agency; or

6. Patent Rights

4. Standards

5. Use of Contract

by the Government

**Documents and** 

Information:

7. Performance Security

- b. a cashier's or certified check.
- 7.4 The performance security will be discharged by the Procuring agency and returned to the Supplier not later than thirty (30) days following the date of completion of the Supplier's performance obligations under the Contract, including any warranty obligations, unless specified otherwise in SCC.
- 8.1 The Procuring agency or its representative shall have the right to inspect and/or to test the Goods to confirm their conformity to the Contract specifications at no extra cost to the Procuring agency. SCC and the Technical Specifications shall specify what inspections and tests the Procuring agency requires and where they are to be conducted. The Procuring agency shall notify the Supplier in writing, in a timely manner, of the identity of any representatives retained for these purposes.
  - 8.2 The inspections and tests may be conducted on the premises of the Supplier or its subcontractor(s), at point of delivery, and/or at the Goods' final destination. If conducted on the premises of the Supplier or its subcontractor(s), all reasonable facilities and assistance, including access to drawings and production data, shall be furnished to the inspectors at no charge to the Procuring agency.
  - 8.3 Should any inspected or tested Goods fail to conform to the Specifications, the Procuring agency may reject the Goods, and the Supplier shall either replace the rejected Goods or make alterations necessary to meet specification requirements free of cost to the Procuring agency.
  - 8.4 The Procuring agency's right to inspect, test and, where necessary, reject the Goods after the Goods' arrival in the Procuring agency's country shall in no way be limited or waived by reason of the Goods having previously been inspected, tested, and passed by the Procuring agency or its representative prior to the Goods' shipment from the country of origin.
  - 8.5 Nothing in GCC Clause 8 shall in any way release the Supplier from any warranty or other obligations under this Contract.
  - 9.1 The Supplier shall provide such packing of the Goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the Contract. The packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packing case size and weights shall take into consideration, where appropriate, the remoteness of the Goods' final destination and the absence of heavy handling facilities at all points in transit.
  - 9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the Contract, including additional requirements, if any, specified in SCC, and in any subsequent instructions ordered by the Procuring agency.
- 10.1 Delivery of the Goods shall be made by the Supplier in accordance with the terms specified in the Schedule of Requirements. The details

9. Packing

8. Inspections and

Tests

10. Delivery and

Documents		of shipping and/or other documents to be furnished by the Supplier are specified in SCC.
	10.2	Documents to be submitted by the Supplier are specified in SCC.
11. Insurance	11.1	The Goods supplied under the Contract shall be delivered duty paid (DDP) under which risk is transferred to the buyer after having been delivered, hence insurance coverage is sellers' responsibility.
12. Transportation	12.1	The Supplier is required under the Contact to transport the Goods to a specified place of destination within the Procuring agency's country, transport to such place of destination in the Procuring agency's country, including insurance and storage, as shall be specified in the Contract, shall be arranged by the Supplier, and related costs shall be included in the Contract Price.
13. Incidental	13.1	The Supplier may be required to provide any or all of the following services, including additional services, if any, specified in SCC:
Services		a. performance or supervision of on-site assembly and/or start-up of the supplied Goods;
		b. furnishing of tools required for assembly and / or maintenance of the supplied Goods;
		c. furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied Goods;
		d. performance or supervision or maintenance and/or repair of the supplied Goods, for a period of time agreed by the parties, provided that this service shall not relieve the Supplier of any warranty obligations under this Contract; and
		e. training of the Procuring agency's personnel, at the Supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied Goods.
	13.2	Prices charged by the Supplier for incidental services, if not included in the Contract Price for the Goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged for other parties by the Supplier for similar services.
14. Spare Parts	14.1	As specified in SCC, the Supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the Supplier:
		a. such spare parts as the Procuring agency may elect to purchase from the Supplier, provided that this election shall not relieve the Supplier of any warranty obligations under the Contract; and
		b. in the event of termination of production of the spare parts:
		i. advance notification to the Procuring agency of the pending termination, in sufficient time to permit the Procuring agency to procure needed requirements;

- ii. following such termination, furnishing at no cost to the Procuring agency, the blueprints, drawings, and specifications of the spare parts, if requested.
- 15.1 The Supplier warrants that the Goods supplied under the Contract are new, unused, of the most recent or current models, and that they incorporate all recent improvements in design and materials unless provided otherwise in the Contract. The Supplier further warrants that all Goods supplied under this Contract shall have no defect, arising from design, materials, or workmanship (except when the design and/or material is required by the Procuring agency's specifications) or from any act or omission of the Supplier, that may develop under normal use of the supplied Goods in the conditions prevailing in the country of final destination.
  - 15.2 This warranty shall remain valid for twelve (12) months after the Goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the Contract, or for eighteen (18) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in SCC.
  - 15.3 The Procuring agency shall promptly notify the Supplier in writing of any claims arising under this warranty.
  - 15.4 Upon receipt of such notice, the Supplier shall, within the period specified in SCC and with all reasonable speed, repair or replace the defective Goods or parts thereof, without costs to the Procuring agency.
  - 15.5 If the Supplier, having been notified, fails to remedy the defect(s) within the period specified in SCC, within a reasonable period, the Procuring agency may proceed to take such remedial action as may be necessary, at the Supplier's risk and expense and without prejudice to any other rights which the Procuring agency may have against the Supplier under the Contract.
  - 16.1 The method and conditions of payment to be made to the Supplier under this Contract shall be specified in SCC.
  - 16.2 The Supplier's request(s) for payment shall be made to the Procuring agency in writing, accompanied by an invoice describing, as appropriate, the Goods delivered and Services performed, and by documents submitted pursuant to GCC Clause 10, and upon fulfillment of other obligations stipulated in the Contract.
  - 16.3 Payments shall be made promptly by the Procuring agency, but in no case later than sixty (60) days after submission of an invoice or claim by the Supplier.
  - 16.4 The currency of payment is Pak. Rupees.
  - 17.1 Prices charged by the Supplier for Goods delivered and Services performed under the Contract shall not vary from the prices quoted by the Supplier in its bid, with the exception of any price adjustments authorized in SCC or in the Procuring agency's request for bid validity extension, as the case may be.

17. Prices

16. Payment

**15. Warranty** 

18. Change Orders	18.1	The Procuring agency may at any time, by a written order given to the Supplier pursuant to GCC Clause 31, make changes within the general scope of the Contract in any one or more of the following:
		a. drawings, designs, or specifications, where Goods to be furnished under the Contract are to be specifically manufactured for the Procuring agency;
		b. the method of shipment or packing;
		<ul><li>c. the place of delivery; and/or</li><li>d. the Services to be provided by the Supplier.</li></ul>
	18.2	If any such change causes an increase or decrease in the cost of, or the time required for, the Supplier's performance of any provisions under the Contract, an equitable adjustment shall be made in the Contract Price or delivery schedule, or both, and the Contract shall accordingly be amended. Any claims by the Supplier for adjustment under this clause must be asserted within thirty (30) days from the date of the Supplier's receipt of the Procuring agency's change order.
19. Contract Amendments	19.1	Subject to GCC Clause 18, no variation in or modification of the terms of the Contract shall be made except by written amendment signed by the parties.
20. Assignment	20.1	The Supplier shall not assign, in whole or in part, its obligations to perform under this Contract, except with the Procuring agency's prior written consent.
21. Subcontracts	21.1	The Supplier shall notify the Procuring agency in writing of all subcontracts awarded under this Contract if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the Supplier from any liability or obligation under the Contract.
	21.2	Subcontracts must comply with the provisions of GCC Clause 3.
22. Delays in the Supplier's Performance	22.1	Delivery of the Goods and performance of Services shall be made by the Supplier in accordance with the time schedule prescribed by the Procuring agency in the Schedule of Requirements.
	22.2	If at any time during performance of the Contract, the Supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the Goods and performance of Services, the Supplier shall promptly notify the Procuring agency in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the Supplier's notice, the Procuring agency shall evaluate the situation and may at its discretion extend the Supplier's time for performance, with or without liquidated damages, in which case the extension shall be ratified by the parties by amendment of Contract.
	22.3	Except as provided under GCC Clause 25, a delay by the Supplier in the performance of its delivery obligations shall render the Supplier liable to the imposition of liquidated damages pursuant to GCC Clause

23, unless an extension of time is agreed upon pursuant to GCC Clause 22.2 without the application of liquidated damages.

- 2.31 Subject to GCC Clause 25, if the Supplier fails to deliver any or all of the Goods or to perform the Services within the period(s) specified in the Contract, the Procuring agency shall, without prejudice to its other remedies under the Contract, deduct from the Contract Price, as liquidated damages, a sum equivalent to the percentage specified in SCC of the delivered price of the delayed Goods or unperformed Services for each week or part thereof of delay until actual delivery or performance, up to a maximum deduction of the percentage specified in SCC. Once the maximum is reached, the Procuring agency may consider termination of the Contract pursuant to GCC Clause 24.
  - 24.1 The Procuring agency, without prejudice to any other remedy for breach of Contract, by written notice of default sent to the Supplier, may terminate this Contract in whole or in part:
    - a. if the Supplier fails to deliver any or all of the Goods within the period(s) specified in the Contract, or within any extension thereof granted by the Procuring agency pursuant to GCC Clause 22; or
    - b. if the Supplier fails to perform any other obligation(s) under the Contract.
    - c. if the Supplier, in the judgment of the Procuring agency has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

For the purpose of this clause:

—corrupt practicel means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.

—fraudulent practicel means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Borrower, and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Borrower of the benefits of free and open competition.

- 24.2 In the event the Procuring agency terminates the Contract in whole or in part, pursuant to GCC Clause 24.1, the Procuring agency may procure, upon such terms and in such manner as it deems appropriate, Goods or Services similar to those undelivered, and the Supplier shall be liable to the Procuring agency for any excess costs for such similar Goods or Services. However, the Supplier shall continue performance of the Contract to the extent not terminated.
- 25.1 Notwithstanding the provisions of GCC Clauses 22, 23, and 24, the Supplier shall not be liable for forfeiture of its performance security, liquidated damages, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

#### 25. Force Majeure

23. Liquidated

24. Termination for

Damages

Default

	25.2	For purposes of this clause, —Force Majeurel means an event beyond the control of the Supplier and not involving the Supplier's fault or negligence and not foreseeable. Such events may include, but are not restricted to, acts of the Procuring agency in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions, and freight embargoes.
	25.3	If a Force Majeure situation arises, the Supplier shall promptly notify the Procuring agency in writing of such condition and the cause thereof. Unless otherwise directed by the Procuring agency in writing, the Supplier shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.
26. Termination for Insolvency	26.1	The Procuring agency may at any time terminate the Contract by giving written notice to the Supplier if the Supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the Supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the Procuring agency.
27. Termination for Convenience	27.1	The Procuring agency, by written notice sent to the Supplier, may terminate the Contract, in whole or in part, at any time for its convenience. The notice of termination shall specify that termination is for the Procuring agency's convenience, the extent to which performance of the Supplier under the Contract is terminated, and the date upon which such termination becomes effective.
	27.2	The Goods that are complete and ready for shipment within thirty (30) days after the Supplier's receipt of notice of termination shall be accepted by the Procuring agency at the Contract terms and prices. For the remaining Goods, the Procuring agency may elect:
		a. to have any portion completed and delivered at the Contract terms and prices; and/or
		b. to cancel the remainder and pay to the Supplier an agreed amount for partially completed Goods and Services and for materials and parts previously procured by the Supplier.
28. Resolution of Disputes	28.1	The Procuring agency and the Supplier shall make every effort to resolve amicably by direct informal negotiation any disagreement or dispute arising between them under or in connection with the Contract.
	28.2	If, after thirty (30) days from the commencement of such informal negotiations, the Procuring agency and the Supplier have been unable to resolve amicably a Contract dispute, either party may require that the dispute be referred for resolution to the formal mechanisms specified in SCC. These mechanisms may include, but are not restricted to, conciliation mediated by a third party, adjudication in an agreed manner and/or arbitration.
29. Governing	29.1	The Contract shall be written in the language specified in SCC. Subject to GCC Clause 30, the version of the Contract written in the specified language shall govern its interpretation. All correspondence and other

8 8		documents pertaining to the Contract which are exchanged by the parties shall be written in the same language.	
<b>30. Applicable Law</b>	30.1	The Contract shall be interpreted in accordance with the laws of the Procuring agency's country, unless otherwise specified in SCC.	
31. Notices	31.1	Any notice given by one party to the other pursuant to this Contract shall be sent to the other party in writing or by cable, telex, or facsimile and confirmed in writing to the other party's address specified in SCC.	
	31.2	A notice shall be effective when delivered or on the notice's effective date, whichever is later.	
32. Taxes and Duties	32.1	Supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted Goods to the Procuring agency.

#### Part Two

#### **Section I. Invitation for Bids**

#### Notes on the Invitation for Bids

The Invitation for Bids (IFB) has been issued as an advertisement in leading newspapers of general circulation in the Province of Khyber Pakhtunkhwa as well as on the web site of the Health Department (www.healthkp@gov.pk), www.dghskp.gov.pk by allowing at least fifteen days for NCB for bid preparation and submission.

The Invitation for Bids provides information that enables interested bidders to decide whether to participate. Apart from the essential items listed in the Standard Bidding Documents (SBD), the Invitation for Bids also indicates the important bid evaluation criteria or qualification requirement (for example, a requirement for a minimum level of experience in manufacturing a similar type of goods for which the Invitation for Bids is issued) so that the bidders should give their best and final prices as no negotiations are allowed.

The Invitation for Bids is incorporated into these Standard Bidding Documents (SBDs). The information contained in the Invitation for Bids (IFB) conforms to the bidding documents and in particular to the relevant information in the Bid Data Sheet.

# Section III. Special Conditions of Contract Special Conditions of Contract

The following Special Conditions of Contract shall supplement & qualify the General Conditions of Contract (GCC).

Whenever there is a conflict, the provisions herein shall prevail over those in the General Conditions of Contract. The corresponding clause number of the GCC is indicated in parentheses.

# **1. Definitions** (GCC Clause 1)

GCC 1.1 (c) The Goods are: Medical Equipment, Furniture, Instruments and other hospital supplies.

GCC 1.1 (g) The Procuring Agency is: Directorate General Health Services, Health Department, Government of Khyber Pakhtunkhwa, Peshawar; and The Purchasing Agency/is /are: District Health Officers, Medical Superintendents, and other Heads of the Primary & Secondary care of the Health Department, Government of Khyber Pakhtunkhwa, and Health Projects with due justification and concurrence from competent forum.

GCC 1.1 (i) The Supplier is: i) Manufacturer and/or Importer and or sole agent of manufacturer registered with relevant sales and income tax authorities and have requisite qualification and eligibility for supply of Goods in the specialized Categories of health sector; and

ii) Manufacture of Medical Equipment/ Machinery, Instruments & Medical Devices in Pakistan; and

iii) Importer of Medical Equipment/ Machinery, Instruments & Medical Devices in Pakistan.

iv) Distributer / General order suppliers for other hospital supplies.

# 2. Sample Provision

GCC 1.1 (j)—The Project Site is: Procurement Cell, Directorate General Health Services, Khyber Pakhtunkhwa, Warsak Road, Peshawar.

When required, the Focal Person of the bidder will be informed on phone or through email to provide samples of the items in sufficient / required quantity for examination / analysis to the Procurement Cell, DGHS or any other place notified by the procurement Cell, at bidder's own risk and cost at the time and date communicated. The samples will be returnable and no payment shall be made to bidder / Focal Person on this account. Notified sample evaluation committee for sample shall evaluate the samples provided.

# 3. Country of Origin (GCC Clause 3)

All countries and territories as indicated in Part Two Section.VI of the bidding documents Eligibility for the Provisions of Goods, Works, and Services in Government-Financed Procurement. The bidder will provide the details regarding country of origin, Model, Make, manufacturer, along with details of Manufacturing Units and mode of supply, shipment, and any other associated details of the component items and that of the quoted equipment. Bidders are bound to supply the equipment from quoted country of origin only.

## **4. Performance Security** (GCC Clause 7)

GCC 7.1— the amount of performance security, as a percentage of the Contract Price, shall be 10% i.e., of the total value of each individual supply order placed to the successful bidder.

However, the Standard bid security @ 2 percent of the bid value for each category, as elaborated in Section-IV, Statement of Requirement, of this document, from the successful bidders as received at the time of bids submission under GCC Clause 15 shall be retained by the Procurement Cell as Bid Security and will be released back to successful bidders after receipt of 10% performance security on each individual supply order placed by the respective procuring entity and will be retained by procuring entity till completion of warranty period.

5. Standards (GCC Clause 4)

As mentioned in GCC clause 4.1.

#### 6. Inspections and Tests

(GCC Clause 8 and in accordance with the clauses of contract with the Procuring Agency)

i. Technical Evaluation shall be conducted by the Technical and Evaluation (T&E) Committee or scrutiny Committee to undertake verification of documents submitted by the bidder/s along with the technical bids as well as to conduct the physical inspection of the various samples &/or relevant premises as per rent agreement or ownership etc. (Section-V -Technical Specification of the Part II of these SBDs)

ii. Machinery & Equipment and other items supplied for sample tests shall be examined and tested by a panel of experts of the T&E Committee of the Government for submission of technical report to the relevant forum for the needful.

iii. Sample tests as well as pre-shipment inspections will also be carried out as and when needed before signing of contract agreement with all the successful bidders for Machinery & Equipment, instruments etc.

iv. Any other appropriate method may be adopted by the T&E Committee, and / or S&RCC to assess and/or assure the quality of goods being purchased. The Procuring Agency reserves the rights to reject the quoted items/equipment at any stage before award of contract in case of any deviation from the standard specifications.

#### 7. Packing (GCC Clause 9)

In accordance with the GCC Clause 9 as well as provided in the relevant clauses of contract agreement of DGHS with the Supplier/s (Section-VI of these SBDs –Rate Contract Agreement).

#### **8. Delivery and Documents** (GCC Clause 10)

Applicable Delivery Mode: Delivered Duty Paid (DDP) as per contract agreement of the Successful with the Procuring Agency

#### **9. Warranty** (GCC Clause 15)

The Supplier shall provide warranty as per the terms and conditions of the Rate Contract Agreement with Procuring Agency

GCC 15.2—In partial modification of the provisions, the warranty period shall be as per contract terms and conditions. The Supplier shall, in addition, comply with the performance and/or consumption guarantees specified under the Contract. If, for reasons attributable to the

Supplier, these guarantees are not attained in whole or in part, the Supplier shall, at its discretion, either:

a. Make such changes, modifications, and/or additions to the Goods or any part thereof as may be necessary in order to attain the contractual guarantees specified in the Contract at its own cost and expense and to carry out further performance tests in accordance with SCC 4, or

b. Pay liquidated damages to the Procuring agency with respect to the failure to meet the contractual guarantees. The rate of these liquidated damages shall be higher than the adjustment price used in bid evaluation.

GCC 15.4 & 15.5—The period for correction of defects in the free warranty period is three years after installation with free parts and free services, including all incidental charges, and for the next two years for free services only without parts but with all incidental charges related to services provision on the site of installation for category A and B. Warranty period for Category C,D,E,F,G, as mention in evaluation criteria. Warranty for the equipment mention in SSC Clause 40 will be five years after installation with free parts and free services.

GCC 10. 3 —upon shipment, the Supplier shall notify the Procuring agency the full details of the shipment, including Contract number, description of Goods, quantity and usual transport document. The Supplier shall mail the following documents to the Procuring agency:

i. Copies of the Supplier's invoice showing Goods' description, quantity, unit price, and total amount;

ii. Original and two copies of the usual transport document (for example, a negotiable bill of lading, a nonnegotiable sea waybill, an inland waterway document, an air waybill, a railway consignment note, a road consignment note, or a multimodal transport document) which the buyer may require to take the goods;

iii. Copies of the packing list identifying contents of each package;

iv. Insurance certificate;

v. Manufacturers or Supplier's warranty certificate;

i. Inspection certificate, issued by the nominated inspection agency, and the Supplier's factory inspection report.

ii. Certificate of origin; and Custom clearing documents.

# **10. Payment** (GCC Clause 16)

(i) GCC Clause 16 as well as under the terms and condition in Rate Contract Agreement with the Procuring Agency, the goods supplied under the Contract shall be delivered duty paid (DDP) under which risk is transferred to the buyer after the goods having been delivered; hence insurance coverage is seller's responsibility, for which they may arrange appropriate coverage. Payment shall be made in Pak. Rupees in accordance with the relevant and applicable government rules and regulations

(ii) Payment shall not be made for partial and incomplete supply of goods.

# **11. Prices** (GCC Clause 17)

i. The bidder will not quote price of any item/s which is/are higher than the prices quoted by the bidder across the country to any procuring entity of the quoted item/s through public funding.

ii. In case the bid price is higher than estimated cost, the Procuring agency has the right to reject the bid and scrap the process without any liability.

iii. In case of single bid after technical evaluation, the procuring agency may carry out the market analysis and negotiate with the bidder before issuing a letter of consent to the successful bidder.

# 13. Liquidated Damages (GCC Clause 23)

As in relevant clauses of the Rate Contract Agreement signed by the Supplier with the Procuring Agency. Penalties shall be imposed as per contract agreement and notified blacklisting & debarment guidelines of the department if the firm deviates from Rate Contract Agreement.

# 14. Disputes Resolution (GCC Clause 28)

The dispute resolution mechanism to be applied will be pursuant to relevant clauses of Rate Contract Agreement signed by Supplier with the Procuring Agency under KPPRA grievance redressal mechanism.

If at all required, the jurisdiction of Court shall be of Peshawar, Khyber Pakhtunkhwa.

# 15. Bid Tie

In case of tie in the final score of two bidders, and unless otherwise not in contradiction to any of the terms & conditions and specifications of that item, the rate contracting will be offered to the bidder having higher score in its technical bid and the same will be declared as highest fair bid (successful bidder). If technical and financial score are the same, the contract may be awarded to both firms.

# **16. Governing Language** (GCC Clause 29)

The Governing Language shall be: English

# 17. Applicable Law (GCC Clause 30)

The Contract shall be interpreted in accordance with the laws of Islamic Republic of Pakistan, which includes the following legislation:

- i. The KPPRA Act 2012, KPPRA Rules 2014 and prevailing regulations etc.
- ii. The Contract Act 1872.

iii. The General Financial Rules of the Govt. of Khyber Pakhtunkhwa and all the relevant laws, rules and regulations pertaining to budgeting & financial management of public fund.

- iv. The Bonded Labor System (Abolition) Act of 1992.
- v. The Factories Act 1934.
- vi. Company Act 2017.

#### **18. Notices** (GCC Clause 31)

GCC 31.1—Procuring Agency address for notice purposes: Procurement Cell, Directorate General Health Services, Khyber Pakhtunkhwa, Warsak Road, Peshawar.

Tel: 091-9210196, Fax:091-9210230, Email: pcdghs@gmail.com

Supplier's address for notice purposes: As mentioned in their bidding document

#### **19. Duties & Taxes** (GCC clause 32)

The Unit price quoted by the bidder shall be: inclusive of all applicable duties and taxes. All prices shall include relevant taxes & duties, where applicable. The benefit of exemption from or reduction in the GST or other taxes shall be passed on to the Purchasing Agency.

#### 20. Legal Documentary Proof

The bidder must possess valid legally enforceable exclusive authorization from the Foreign/Local Manufacturer; they should have a documentary proof to the effect that they are the original Manufacturer of the required goods. Bidders shall establish all legal documentary proofs where required/ ask by the procurement cell.

# 21. Ineligibility for Corrupt and Fraudulent Practices

Bidders should not be under a declaration of ineligibility for corrupt and fraudulent practices issued by any Government (Federal, Provincial), a local body or a public sector organization.

#### 22. Letter of Authorization

The Authorized agent shall have to produce Exclusive letter of embassy attested authorization / Sole Agency Certificate from Manufacturer and in case of Manufacturer, documentary proof to the effect that they are the original Manufacturer of the required goods shall be provided, or joint venture/ consortium/ alliance of the local Sole agents/manufacturers. In case of imported products, the authorization shall be attested from the embassy of Pakistan in the country of manufacturing or embassy of the manufacturing country in Pakistan. Bidders shall provide letter of authorization from foreign/local Manufacturers whose shall not be in the process of winding up/liquidations.

#### 23. Technical Staff and Tools

The Bidder should have strong engineering background and necessary tools/ testing equipment, trained staff for the goods required after sales services.

# 24. Minor Deviation

The Procuring Agency may waive off any minor informality, nonconformity, or irregularity in a bid which does not constitute a material deviation (or changes the substance of the bid), provided such waiver does not prejudice or affect the relative ranking of any Bidder. Any item other than quoted and approved shall not be supplied to procuring entity without intimation to procurement cell and Supply shall be subject to clearance from S&RCC on recommendation of technical experts of procurement Cell notified by chairman T&E.

# 25. Deviation from critical provision

Deviations from, or objections or reservations to critical provisions shall be deemed to be a material deviation form technical proposals and thus the bid will be declared as non-responsive.

Any model supplied other than quoted and approved will be considered as deviation/ forgery and will be rejected straightaway at the cost and risk of the supplier.

# 26. . Prevailing Rules, Regulation and Policies

A bid once opened in accordance with the prescribed procedure shall be subject to only those rules, regulations and policies that are in force at the time of issue of notice for invitation of bids.

# 27. Alternate Bid

Different models/ prices offered for a single item by the same bidder shall be considered as alternate bid and shall be non-responsive.

# 28. After Sale Service

Certificate from the bidder that the after sales services / backup services shall be provided in case of change of local agent, the bidder will provide the after sales services themselves or through newly appointed agent for the period mentioned from the date of commissioning.

# **29. Testing and Calibration**

The firm must have all kind of testing and calibration equipment, which is required to maintain the products, which they are dealing. The list of all required testing equipment would be provided along with the bid. The available testing equipment must be calibrated. The successful bidders shall provide complete technical manual and operation manual to the in charge of central workshop Peshawar and all regional workshops.

# **30. Manufacturer Official Website**

The quoted model of imported product shall be available on the current official website of the manufacturer; otherwise, the quoted product shall be considered obsolete/ redundant and will straight away be rejected.

# **31. Inspection of the Premises**

The Procuring Agency has the right to inspect the premises of bidder to inspect the setups ensuring proper after sales services, documents mentioned in technical bids and any other relevant details regarding testing tools, calibration tools, spare parts etc. by relevant technical personnel.

# **32. Opening of the Financial Proposals**

After technical evaluation is completed, the Procuring Agency shall notify the date, time and location for opening of the financial proposals. Bidders' attendance at the opening of financial proposals is optional.

# **33. Incomplete and Conditional Bids**

Incomplete/ Conditional bid shall stand rejected. All items described in the technical proposal must be priced in financial proposal. No conditional bid in term of Technical/Financial bid will be entertained and the bidder will straight away be disqualified.

# 34. Bidders Influence

Any effort by a Bidder to influence the Procuring Agency in its decisions on bid evaluation, bid comparison, or Contract Award will result in the rejection of the Bidder's bid and subsequent

black listing, if Procuring agency so desires. Canvassing by any Bidder at any stage of the Tender evaluation is strictly prohibited.

#### **35. Quantity Variation**

The Procuring Agency reserves the right at the time of Contract award to increase or decrease the quantity of goods as per permissible limits under the Rules 2014 originally specified in Schedule of Requirements without any change in unit price or other terms and conditions.

#### 36. Original Equipment Manufacturer

- 2. Attached the supported documents i.e., Brochure / Catalogue and Data sheet clearly highlighted the specifications mention in the technical quotation.

# **Technical Bid Quotation Format**

Name of Equipment / Item: Model: Manufacturer: Country of Origin: Category of equipment / item: S. No in SBDs: Quoted Specification of the bidder

# Section IV. Schedule of Requirements

# Instructions relating to Category A, B, C, D, E, F, G equipment / items:

- As detailed elsewhere in this document, 2 % of bid security of the total bid value of equipment / items for category A, B, E, F, G and three lacs (0.3M) for category C and D shall be submitted. The mode of provision of bid security shall be in accordance with the modalities as laid down in the relevant KPPRA Rules and these bid solicitation documents (BSDs). The Bid security shall be shall be from bank account of the bidder. Ordinary cheque and cross cheque in the form of bid security shall result in bid rejection.
- Bids must be computer typed & printed; and the offered bid prices must be written both in words & figures. Bid prices/ quotations with cutting and over-writing shall not be accepted to the extent of that particular quoted item. An authorized person of the bidder/firm shall sign & stamp all pages of the bid having numbers on each page. Firms shall submit bids in hard binding, and bids submitted in box file/ loose file will be considered non-responsive.
- The technical proposal shall contain all the details in accordance with standard specification of the items/goods mentioned in the Schedule of Requirements (SOR) and technical specifications which must be supported by catalogue/Brochures. Bids will be submitted on the format mentioned in BSD. All bidders are also required to submit the relevant detail of technical proposal and required documents in soft copies on computer USB and official email of procurement Cell in PDF format or dox format, duly labeled by a permanent marker with the name of bidder/ firm.
- Registration of the bidder with Drug Regularity Authority of Pakistan (DRAP) or Pakistan Engineering Council (PEC) is mandatory for category A and B equipment.
- Registration of the bidder with Pakistan Nuclear Regularity Authority (PNRA) is mandatory for all types of X Rays emission equipment.
- In case of imported items of category, A and B, the quoted items shall be registered for use in their country of origin, for which the Importers should provide valid authorization certificate for their quoted products duly attested by the embassy of the country of origin in Pakistan or the embassy of Pakistan in the country of origin of the quoted items or where the commercial office located for the quoted items. Non-provision of valid embassy attested authorization for imported item of category A and B will lead to disqualification of firm.
- All certifications (i.e., Manufacturer authorization, ISOs, CEMDD, CEIVD, MDR, IVDR, USFDA, PMDA, MLHW, DRAP, PEC, etc) and data/ documents shall be valid. Committee may carry out the verifications on or before award of contract and in case of any fraudulent practice; legal action will be taken against the bidder concerned. Any certificate expires before bid opening will not be entertained, neither the renewal in progress will be considered.
- Non-Provision of mandatory documents mention in these BSDs shall lead to disqualification of the firm / quoted items.
- Standard warranty for the mention equipment in SSC Clause 40 will be five years both with services and spare parts after installation. Extended warranty per year for the next five years after completion of standard warranty

must be submitted for the mentioned equipment in the financial bid. One mark per year and up to maximum of five marks will be awarded in financial marks and twenty-five marks for the equipment price.

- The bidder is bound to provide local training for at least 5 persons including the technical persons of Procurement Cell, Workshops Persons and end user.
- After sale satisfactory performance certificate must be recognized from relevant forums having dispatch number, signature of the officer and date on letter head of procuring entity. The satisfactory performance certificate of non-recognized institution with relevant forums will not be considered.
- The bidding is carried out for Rate Contract through Framework Agreement and hence the quantity is not mentioned, and the supply order for each item will depend on the requirement of the procuring entity.
- The Procuring Agency, at any stage of the procurement proceedings, having credible reasons for or prima facie evidence of any defect in Supplier's capacities may require the Suppliers to provide information concerning their professional, technical, financial, legal or managerial competence.
- The Procuring Entity has the right to inspect the premises of bidder, to inspect the setups ensuring proper after sales services, verify documents (if needed) mentioned in technical bids and any other relevant details. Premises (office/workshop) of bidder shall be insured through ownership/or Rent agreement.
- The bidder shall provide the shipment trail of the quoted item from the manufacturing site till destination.
- The Unit price quoted by the bidder shall be inclusive of all applicable duties and taxes. All prices shall include relevant taxes & duties, where applicable. The benefit of exemption from or reduction in the GST or other taxes shall be passed on to the Procuring Agency.
- Alternate bid will declare as non-responsive.
- Any reservations on BSDs including special conditions, criteria, specifications etc. (if any) shall be submitted in writing in or before the Pre-bid meeting in the given format in soft form (dox,pdf) and hard form signed by authorized person/representative of the firm.
- The schedule for supply of goods shall be as under:
- Supply within 90 days for imported items from the date of issuance of supply order by the Purchasing Agency.
- Supply within 60 days for local items from the date of issuance of supply order by the Purchasing Agency.

## Section V Technical Specifications

## Category A

S.	Nomenclature	Specifications
No	Nomenciature	Specifications
1.	Anesthesia	Anesthesia unit with 2 Vaporizers and inbuilt ventilator
	Machine with	Unit shall be comprised of the following components.
	Cardiac Monitor	• Non interchangeable pipeline inlets.
	having two	• Pipeline and cylinder gauges for O2 and N2O.
	vaporizers	• Pin index cylinder yolks for at least one or more cylinders of O2 and N2O each.
		N2O cut off device in case of O2failure.
		• O2 failure alarm.
		• Gas out let and O2 flush control.
		• Lockable anti-static casters.
		Monitor shelf / built-in stand for monitor.
		• Bar assembly for mounting of at least 2 vaporizers.
		<ul> <li>Impact resistant and easy to clean frame.</li> <li>Cleanable works surface.</li> </ul>
		<ul><li>Absorber support arm.</li><li>Electronic three gas flow meter unit.</li></ul>
		<ul> <li>O2, N2O and Air (4-bar) hoses.</li> </ul>
		<ul> <li>Isoflurane and Sevoflurane vaporizer (models of the vaporizers must be mentioned).</li> </ul>
		<ul> <li>Should support future upgrade for AG, Paramagnetic oxygen or galvanic oxygen</li> </ul>
		monitoring and EtCO2, NMT, BIS (Optional prices should be quoted)
		• One or more drawer's unit power outlets with 3 or more sockets.
		• Auxiliary O2 outlet.
		• Writing shelf/platform.
		• Soda-lime absorber with CO2 bypass function ,1-2 Kg complete with valve for
		bag/ventilator, manometer, 3-liter breathing bag, breathing tube, mouth, and Y
		piece. Ventilator:
		• Ventilator must be inbuilt with the anesthesia unit. Ventilator to be complete with manometer display. The ventilator shall be capable of ventilating pediatric patients.
		The ventilator shall have the following features as a minimum requirement.
		• Ventilation mode: VCV, PCV, SIMV-VC, SIMV-PC, PSV, Cardiac By Pass, CO2
		By PASS.
		Electronic Microprocessor controlled.
		• On/Off switch.
		• Breathing mode selection. (Standby/Volume/Spontaneous and pressure).
		• Built in monitor 15 <sup>  </sup> or better color screen to display all the mentioned parameters.
		Inverse I: E Ratio Capability.
		• Able to display P-V, F-V lung function loop and store up to 2-3 lung function loops.
		• 3 waveform and lung function loop can be displayed simultaneously in one screen.
		<ul> <li>Gas specific input connectors (Air/Oxygen ISO)</li> <li>Tidal Volume from 20 ml to 1400ml or better on either side</li> </ul>
		<ul> <li>Rate or frequency 4 to 80bpm or better on either side</li> <li>I:E ratio from 2:1 to 1: 8 or better on either side</li> </ul>
		<ul> <li>PEEP off from 4 to 20 cmH20 or better on either side.</li> </ul>
		<ul> <li>Inspiratory pressure limits from 10 to 60 cmH2O or better.</li> </ul>
		<ul> <li>Adult bellows graduated from approximately 20ml to 1400ml.</li> </ul>
		<ul> <li>Battery backup (90 minutes or more).</li> </ul>
L	1	

<ul> <li>Alarm mute.</li> <li>Low/High EiO2 Alarma (18% to 100%)</li> </ul>
• Low/High FiO2 Alarms (18% to100%).
Low Supply Pressure
High Airway Pressure.
High Continuous Air Pressure
Low Pressure
Incorrect rate or Ratio
• Main failure.
• Low Battery.
• The ventilator shall be supplied complete with drive hose, cylinder connector and
power cable.
<ul> <li><u>The following re-usable and autoclavable accessories shall be supplied with the unit.</u></li> <li>Reusable Adult Breathing system</li> <li>2. No's</li> </ul>
Reusable Pediatric Breathing system     1. No's
• Re-breathing bag 0.51 3. No's
• Re-breathing bag 1L 3. No's
• Re-breathing bag 2L 3. No's
Forceps Magill adult     2. Nos
• Forceps Magill Child 2 No's
Multi Parameter Patient Monitor
(3ch 5 lead ECG, SpO2, NIBP, Dual IBP, TEMP, Resp., ETCO2)
• Display for easy Viewing 12 <sup>  </sup> or better color TFT/LCD/ LED for easy set-up (with
all parameters display).
• ECG, SpO2, NIBP, 2-IBP, TEMP, and Respiration
• EtCO2 (Side stream/main stream type with basic accessories)
<ul> <li>15 or more Arrhythmias analysis should be detected and alarmed.</li> </ul>
Multi-lead ECG algorithm
• S-T/QT Analysis
Pacemaker detection.
• Save 48 hours or more waveforms.
• IBP cable and sensor kit
• Up to 72 hours or better of graphic and tabular trend of all parameters,
PERFORMANCE:
Heart rate: 30 ~ 300 bpm or better on either sides And Ped/Neo:15-350bpm or better
Respiration
• Respiration rate: 4~150bpm or better on either side.
SPO2:
• Range: 30 ~ 100% or better on either side
• Neonate and adult probe.
Temperature:
• Range; $10 - 45 ^{0}C(50 - 113F)$ or better
<u>NIBP:</u>
• Range: 30-260 mmHg (± 10% mmHg)
GENERAL:
• Alarm: All parameters on/off selective independently
• Power input 220Vac,50Hz
• With Battery Backup time: Minimum 03 hours or better
<ul> <li>ACCESSORIES:</li> </ul>
• ECG 5 Lead cable. 01
<ul> <li>Disposable Electrodes Adult, Neonate &amp; Paeds</li> <li>20 each</li> </ul>
<ul> <li>SPO2 Finger sensor with fixed or detachable extension (each for adult, Peads and</li> </ul>
St 621 mger senser mar næed er detaelnere extension (each for adurt, i eaus and

			01
		neonate)	01
		• NIBP Reusable Neonate, Paeds & Adult Cuff	02
		NIBP Hose	01
		• AC power code	01
		Ground cable	01
		Operation Manual	01
		• ETCO2 (Side stream) with basic acc.	02
		• IBP Cable	02
		• Temperature sensor & cable	02
		Note: Patient monitor and Anesthesia Machine must be o	compatible with each other.
		Separate price must be quoted for Anesthesia machine an	nd Patient Monitor.
2.	Argon Laser	• Wave Length: 532nm	
	C	• Power: 1.2W or better	
		• Pulse Duration: 0.1sec to 1sec or better	
		<ul> <li>Aiming Beam: 635nm – 650nm</li> </ul>	
		Cooling: Thermoelectric/Air cooling	
		With Foot Switch	
		• Spot Size: 50um – 500um	
		-	
		Single Spot mode: Single, Repeat / pattern	
		• Standard slit lamp	
		• Standard filter having red, yellow and green filters	
		• Laser application lenses-One macular grid, one stand	dard PRP and one wide field
		lens	
		• Laser Probe: Straight:	
		20G Qty 1	
		23G Qty 1	
		25G Qty 1	
		Curved 20G Qty 1	
		Flexible Curved:	
		23G Qty 1	
		25G Qty 1	
		Steerable: 23G Qty 1	
		(Price should be quoted separate for laser probe)	
		Accessories:	
		1. Power Foot Switch	
		2. Dual Unit	
		3. Expansion Box	
		4. CB top plate attachment unit	
		5. Safety goggles	
		6. Goldman four mirror lens	
1		7. Area centralis lens	

3.	Auto Refractor	Technical Specification:	
	with Karatometer	Refraction measurement.	
		• Sphere -20 T0 22D or better (VD 10mm) (0.01/0.12/0.25D step).	
		• Cylinder 0 to $\pm 10D$ or better $(0.01 / 0.12 / 0.25D$ step).	
		• Axis Angle 0 to180° or better (1° step).	
		Measurement of Corneal Radius:	
		• Curvature radius 5.0-10.0 mm or better (0.01mm step).	
		• Cylindrical power 0-±10D or better.	
		• Axis Angle 0-180 degree (1-degree step or better).	
		• Pupil diameter measurement range: $\emptyset 2.0$ mm – $\emptyset 8.5$ mm or better.	
		• Vertex distance: 0, 10, 12, 13.5, 15mm or better.	
		• PD Measurement range 40-85 mm (1mm step)	
		In built Thermal Printer with automatic cutter	
		• LCD display: color 5.7 Inch or better.	
		• Power saves: OFF, 3, 5, 10 min	
		• (Selectable) Standard Accessories: Test eye; 1No.	
		• Printer paper: 3 Rolls: Chin rest Paper: 1 pack (sheets as per standard). Chin rest	
		pin: 2 No.	
		• Dust Cover: 1 No.	
		Contact lens holder: 1 No.	
		<ul><li>Operation manual.</li><li>Local Motorized stand</li></ul>	
4	A		
4.	Automated Nucleic	• Easy to operate the machine	
	Acid Extraction	Having 7 inch or more screen	
	System	Applications:     DNA Extraction	
		RNA Extraction	
		Method: Magnetic bead method	
		• Sample type: Whole Blood, Serum, Plasma, Urine, Liquid sample	
		• Throughput: 1-96	
		• Sample input volume: $\leq 500 \mu L$	
		• Interfaces: 1×COM Port	
		• 2×USB Port	
		• Power supply: AC $100 \sim 120 \text{ V} / 200 \sim 240 \text{ V}, 50 / 60 \text{ Hz}$	
		Run time: Approximately 12 to 30 minutes depending on protocol	
		Nucleic Acid Extraction Kit: Sample Plate, Prefilled Reagent Plates	
		• Support sample types: Liquid biopsies, FFPE, Cells and tissue	
		KIT	
		DNA Extraction Kit 96 Tests/Kit	
		RNA Extraction Kit 96 Tests/Kit	
		UPS:	
		• Branded and compatible UPS for at least 30 minutes backup.	
		• Input Voltage : 110-260v 50Hz, Output : 220v 50 Hz.	
5.	Bipolar Sealer	Note: KIT prices shall quote separately. Features:	
5.	Dipolal Sealer	• The Generator should provide radio frequency (RF) energy to disposable	
		Monopolar and Bipolar electrosurgical handpieces. The Generator accepts a Patient	
		Return Electrode for monopolar applications, and includes a rotary peristaltic pump	
		for simultaneous delivery of saline for a hemostatic sealing.	
		Specification:	
		• The Generator delivers Bipolar RF power and saline with power settings in 5 watt	

		<ul> <li>increments in the range of 20 to 100 Watts and 10 Watt increments in the range of 100 to 220 Watts. The Generator delivers Monopolar Cut, Coag, and Transcollation RF energy with a power output capable of up to 90 Watts. All Plasma Blade hand pieces powered by the Plasma Blade port contain an embedded chip dictating the settings for that particular hand piece. The Generator has a convenient one touch priming function which automatically primes the Transcollation hand piece with saline prior to use after the device has been correctly connected to the unit. This function is activated by pressing the "PRIME" button on the unit.</li> <li>Electrosurgical Modes:</li> </ul>
		• The Generator operates in the following modes:
		Cut Modes (Monopolar)
		• Low Cut (Peak Cut) – Precision cutting with minimal hemostasis and minimal collateral damage
		<ul> <li>Medium Cut (Pure Cut) – Precision cutting with increased hemostasis and collateral damage</li> </ul>
		• High Cut (Blend Mode) – Precision cutting with strong hemostasis Coagulation Modes (Monopolar)
		Coagulation increases with higher settings.
		<ul> <li>Low Coag (Pinpoint)</li> </ul>
		<ul> <li>High Coag (Spray)</li> </ul>
		<ul> <li>Hemostatic Sealing Modes (Monopolar or Bipolar)</li> </ul>
		Required Features of the Generator include:
		<ul> <li>64% average reduction in blade temperature for similar CUT settings compared to traditional electro surgery</li> </ul>
		<ul> <li>45% average reduction in blade temperature for similar COAG settings compared to</li> </ul>
		traditional electro surgery
		• Simultaneous delivery of RF energy with saline for hemostatic sealing of soft tissue
		and bone.
		Handpiece control
		<ul> <li>Handpiece with footswitch control</li> <li>Simultaneous activation of 2 handpieces</li> </ul>
		<ul> <li>Simultaneous activation of 2 handpieces</li> <li>Device default settings recognition</li> </ul>
		<ul> <li>Device default settings recognition</li> <li>Monopolar and Bipolar outputs</li> </ul>
		<ul> <li>Connection to Patient Return Electrode</li> </ul>
		<ul> <li>Color LCD to prompt user for input and to display informational, error, and fault</li> </ul>
		messages
		<ul> <li>Audio feedback of activation and alarm tones</li> </ul>
		Disposable Plasma Blades & Bipolar Sealer:
		Plasma Blade with different sizes
		Bipolar Sealer with differenet sizes
6.	B. Scan	Ophthalmic ultra sound for A -scan biometry, B –scan with pachymetry
		<u>B-mode:</u>
		• Gain adjustable 20 -110db or more.
		• TGC 0-30db or better.
		• Dynamic range 25 – 80db or more
		• Probe: 10 MHz or better.
		• Scanning angle: 30 to 60 degree or better.
		<u>A scan:</u>
		• Probe: 8 MHz or more.
		• Depth 1 – 50mm or more.
		• Operating modes cataract, aphakic, phakic and manual.
		<ul> <li>Calculation: SRK, SRK II, HOLLADAY, SRK/T., HOOFER-Q, POST</li> </ul>

		REFRACTIVE, HAIGIS.
		<ul> <li>10" or more color touch screen monitor with built-in printer.</li> </ul>
		• Time gain suspension.
		• Image line real time replay function.
		• With A, B, B+A features.
7.	Breast Ultrasound	Advance Multi wave Breast Ultrasound system
		• 8 GB of on-board RAM
		• 256 x 256 imaging channels
		• DVI Splitter
		• Windows / Linux based operating system 64 bits (as per OEM)
		Sonic software beam forming and scan conversion
		Ultrafast imaging for strain elastography
		Automatically breast scanning workflow
		Customized breast scanning workflow
		Ability to provide images for coronal plane, horizontal plane, and vertical plane
		simultaneously
		• Transducer select time (typical):< 2sec
		• Data access time:< 1 sec
		• Vertical adjustment: 10 cm or better
		Center trackball with Touch Ring
		• 100-240 VAC 50 Hz/60 Hz
		• 20" LED / LCD
		Flat Panel Display
		Touch screen on control panel
		• Ultra-wide viewing angle: 175
		• Pixel-sharp high resolution: 1600x1200
		• Dot Pitch 0.258 mm x 0.258 mm
		Display Colors 16.77 million colors
		Contrast Ratio: 900:1
		Interactive Body Markers
		Touch Ring TM trackball surround
		Super Key: Programmable key control
		Imaging Modes and Processing Options
		• Total Dynamic Range (across all modes): 180 dB
		Total Processing Channels: 65000 or better
		• Transmit channels: 256 or better
		• Receive channels: 128 or better
		• 3D mode, B-mode, Flow Imaging (CFI), Color Power Imaging (CPI), and Directional Color Power Imaging (dCPI)
		Elastography Imaging Processing
		<ul> <li>Color Gain: 58 dB</li> </ul>
		<ul> <li>PRF Range: 260 - 12500 Hz</li> </ul>
		<ul> <li>Color Wall Filters: 4 levels</li> </ul>

		Color Smoothing: 5 levels
		<ul> <li>Color Persistence: 4 levels</li> </ul>
		Color/B-mode Priority Levels: > 80 steps
		Hard disk capacity: 250 Gb or better
		Image storage: 2000 images or better
		• Study storage: 2000 typical studies (10 images and data)
		• DICOM print, store, query and retrieve Patient Privacy Features
		Probe specifications
		• linear probe 5.0-12.0MHz
		Convex probe 2.0-5.0MHz for Breast Scanning
0	D 1	
8.	Bronchoscope	Bronchoscope:
	Flexible full set	• The working length of the fiber scope should be 60 cm.
	with all	• The outer diameter should be 5.3 to 5.7 mm or less.
	accessories	• Range of bending at the tip should be minimum 180 degree up and 130 degrees
		down or more on either side.
		Working Channel diameter: 2.0mm or better     LIGHT SOURCE:
		• Compatible light source 300 Watt or better (Xenon / LED) from the same
		manufacturer,
		• Automatic light adjustments to maintain optimum brightness/natural color tone. <b>VIDEO SYSTEM</b>
		• HD Camera Head compatible with scope, HD Image/ Video processor having
		capability of image storage, Patient reporting software and transfer in USB with etc. Medical Grade monitor having display size 21 inch or more should be mounted on
		trolley.
9.	Bronchoscope Rigid	Size:
).	Bronenoscope Rigid	
		<ul> <li>3mm WL 200mm or better</li> <li>4mm WL 215mm or better</li> </ul>
		<ul> <li>4mm WL 215mm or better</li> <li>5mm WL 245mm or better</li> </ul>
		<ul> <li>5.5mm WL 245mm or better</li> </ul>
		6mm WL 300mm or better
		<ul> <li>6.5mm WL 350mm or better</li> </ul>
		$(\pm 10\% \text{ of size})$
		Forceps: -
		According to the bronchial / tracheal tubes
		• Foreign body forceps, Alligator jaws 01
		Grasping forceps, soft foreign body     O1
		Biopsy Forceps     01
		• Fenestrated Forceps 01
		Peanut Forceps     01
		<ul> <li>Magnetic Extractor 01</li> <li>Optical biopsy forceps 01</li> </ul>
		<ul> <li>Optical grasping forceps</li> <li>Aspiration catheter</li> <li>10</li> </ul>
		• Aspiration catheter 10
		<ul> <li>Adapter with sliding glass window plug, sealing cap, notched lens and keyhole opining, movable.</li> </ul>
		<ul> <li>Plug for ventilation attachment of bronchoscope.</li> </ul>
		<ul> <li>Adaptor for Bronchoscope to any type of pediatric respiration equipment.</li> </ul>
	l	- Maptor for Dionenoscope to any type of penaltic respiration equipment.

		Light Source
		• Compatible Light Source (From same manufacturer).
		Automatic / Manual Light Adjustment.
		<ul> <li>Along with fiber optic cable.</li> </ul>
		Video System
		-
		• HD Camera Head compatible with scope, image processor having capability of image storage and transfer in USB etc. Medical Grade monitor having display size
		21 inch or more should be mounted on trolley.
		<ul> <li>Voltage source : 220 VAC</li> </ul>
10.	Brain Monitoring	Features
	System	• BIS Brain Function monitoring helps address each patient's unique anesthetic requirements
		• Can provide additional security to those that are more sensitive to the hemodynamic
		effects of anesthesia
		• Translates the Raw EEG data into an Easy -to-read BIS Index number
		• User-configurable settings
		Integrated record keeping
		Alarms with user-adjustable limits and volumes
		Long battery life
		General Specifications
		• Digital Output: USB Port a, b, R232 serial port
		Battery Backup: 45 minutes at full operation
		Battery charge Time: 6 hours or more
		• Software Updates: User-via USB port (Type A)
		• Power Requirements: 100-240 VAC, 50-60 Hz, 0.7ampere max.
		EEG Specifications
		Epoch Duration: 2 Seconds
		Artifcat Rejection: Automatic
		• Input Amplifier Range: +/- 1 mV
		• EEG Scales display: $25 \mu V/div$
		• EEG Sweep: 25 min/sec
		• User-defined Displays: Trend and real-time EEG waveforms
		• Update Rate: 1 second for BIS number, 10 seconds for trend
		Bisx Specifications
		Analog to Digital Converter: noise-shaped sigma-delta
		Sample Rate: 16,384 samples/second or more     Description: 14 bits at 256 second or more
		Resolution: 14 bits at 256 samples/second or more
		• Input Impedance:
		<ul> <li>50 M ohms typical (DC)</li> <li>5 M ohms typical (at 10 Hz)</li> </ul>
		• Noise: $< 0.3 \ \mu\text{V}$ RMS (2.0 $\mu\text{V}$ Peak-to-peak); 0.25 Hz to 50 Hz
		<ul> <li>Common Mode Rejection: 110 dB at 50/60 Hz to earth ground</li> </ul>
		<ul> <li>Frequency/Bandwidth: 0.16-100 Hz</li> </ul>
11.	Cerebral Oximeter	Features
11.	Serveral Omnetor	To obtain continuous non-invasive measurement of cerebral oxygenation values
		Monitor System
		• Display 4-channels
		• Touch screen TF LCD display,
		• Lithium-ion battery
		• Battery backup 1 hour
		• USB Port 3.0, 2.0. (Docking port will be count as extra feature)

		On anotional Daman stan	
		Operational Parameters	
		• Display RSO2 (Ranges as per manufacturer)	
		Display SPO2 (Ranges as per manufacturer)	
		Refreshing time as per manufacturer	
		• SPO2 Sensor Accuracy 70-100%	
		RSO2 Sensor as approved in Quoted model fda.	
		Accessories	
		• Adult rSO2 Sensor, 20	
		• Pediatric rSO2 Sensor, 20	
		• Infant/Neonate rSO2 Sensor 20	
		Infant Regional Saturation Sensor     10	
		• Preamplifier 01	
		• Reusable Sensor Cable for all channels 01	
		• Reusable Infant Cable 01	
		Patient Monitor Stand     01

14.	ENT Navigation	The system should be equipped with Electromagnetic navigation technology to avoid
	C C	anatomical constraints of adults and pediatric surgical procedure
		Main System (ENT Cart)
		• Patient interface 3-4 ports or more can be attached to the surgical table
		• Including 3-4 ports or more to be connected to the patient and instrument trackers
		<ul> <li>LED indicator for each port</li> </ul>
		EM Field
		<ul> <li>The field used for navigation begins 5.Ocm(2in) from the emitter face</li> </ul>
		Produces a low-energy magnetic navigation field     The maximum field begins 8 form the maximum frequency of the second sec
		• The navigation field begins 8.0cm from the emitter face
		• High-Definition, 21 - 27 Inch. Smart Touch Screen
		• Interface for transfer of exams via CD/USB
		Connectivity with hospital network
		• Built-in firewall
		DICOM Query/Retrieve Compatible
		Keyboard (physical or virtual) & Mouse
		Should be Integrated with Navigated Shaver Blades & Navigated Suction
		Accessories and Instruments:
		a. Registration Probe 01
		b. Head Frame Kit 01
		c. Straight Suction 01
		d. 70° Curved Suction
		e. 90° Curved Suction
		f. Curved Suction 02
		g. Straight Probe 01
		h. Instrument Tray 01
		i. Instruments Tracker 25
		j. Patient Tracker(Non-Invasive) 25

	diameter 4 mm, length 18 cm, autoclavable.
	4 Forward-Oblique Telescope 70°, enlarged view, 1
	diameter 4 mm, length 18 cm, autoclavable.
	5 Straight Forward Telescope 0°, enlarged view, 1
	diameter 2. 7 mm, length 18 cm, autoclavable.

	6 Forward-Oblique Telescope 30°, enlarged view, 1
	diameter 2.7 mm, length 18 cm, autoclavable.
	8 BLAKESLEY RHINOFORCE® II Nasal Forceps, straight, size 1, with 1
	cleaning connector, working length 13 cm
	9 BLAKESLEY-WILDE RHINOFORCE® II Nasal Forceps, 45° upturned, 1
	size 1, with cleaning connector, working length 13 cm
	10 GRÜNWALD-HENKE RHINOFORCE® II Nasal Cutting Forceps, 1
	straight, through-cutting, for a smooth cut, BLAKESLEY shape,
	size 0, width 3 mm, with cleaning connector, working length 13 cm
	11 RHINOFORCE STAMMBERGER Antrum Punch, backward cutting, 1
	sheath 360° rotatable, with fixing screw, working length 10 cm,
	Take-apart sheath, for use with cleaning adaptor
	13 HEUWIESER Antrum Grasping Forceps, jaws curved downwards, 1
	fixed jaw curved 90°, movable jaw backward opening 120°, with
	cleaning connector, working length 10 cm
	14 HEUWIESER Antrum Grasping Forceps, jaws curved upwards, 1
	fixed jaw curved 90°, movable jaw backward opening 120°, with
	cleaning connector, working length 10 cm
	15 HEUWIESER Antrum Grasping Forceps, jaws curved to right, fixed 1
	jaw curved 90°, movable jaw backward opening 120°, with
	cleaning connector, working length 10 cm
	16 RHINOFORCE® II Nasal Scissors, straight, with cleaning 1
	connector, working length 13 cm
	18 Punch, circular cutting, for sphenoid, ethmoid 1
	and choanal atresia, diameter 4.5 mm, with cleaning connector,
	working length 18 cm, including Cleaning Tool
	19 Frontal Ostium Seeker, double ended, No. 4, both sides 1
	curved 90°, tips bent right and left, length 22 cm

20 Sickle Knife, pointed, length 19 cm 1
21 FREER Elevator, double-ended, semisharp and blunt, 1
length 20 cm
22 FREER Suction Elevator, with stylet, length 19 cm 1
23 Antrum Curette, oblong, small size, length 19 cm 1
24 v. EICKEN Antrum Cannula, LUER- Lock, long curved, outer 1
diameter 2.5 mm, length 12.5 cm
25 FRAZIER Suction Tube, with mandrel and cut-off hole, with 1
distance marking at $5-9$ cm, 7 Fr., working length 10 cm
26 KERRISON Punch, detachable, rigid, upbiting $40^{\circ}$ forward, size 2 1
mm, working length 17 cm
27 SIEBENMANN Antrum Curette, right, length 16.5 cm 1
28 Probe, double-ended, maxillary sinus ostium seeker, 1
ball-shaped ends diameter 1.2 and 2 mm, length 19 cm
29 v. EICKEN Antrum Cannula, LUER- Lock, long curved, outer 1
diameter 3 mm, length 15 cm
30 v. EICKEN Antrum Cannula, LUER- Lock, with cut-off hole, short 1
curve, outer diameter 2.5 mm, length 12.5 cm
31 CASTELNUOVO RHINOFORCE® II Nasal Forceps, end of 1
sheath 25° upturned, through-cutting, with straight jaws,
BLAKESLEY shape, width 3 mm, with cleaning connector,
working length 13 cm
32 Universal Spray, 500 ml bottle, Pack of 6 with nozzle 1
33 STAMMBERGER Punch, circular cutting, 65° upturned, for 1
frontal sinus recess, diameter 3.5 mm, with cleaning connector,
working length 17 cm.
34 KUHN-BOLGER Double Spoon Giraffe Forceps, 55° upturned, 1
vertical opening, spoon diameter 3 mm, with cleaning

connector, working length 13 cm
35 KUHN RHINOFORCE® II Frontal Sinus Forceps, through-cutting, 1
with extra fine flat jaws, sheath 60° upturned, cutting width
1.5 mm, backward opening, with cleaning connector, working length 12 cm
36 KUHN-BOLGER Frontal Sinus Curette, 90° curved, oval, 1
forward cutting, length 19 cm
37 Bipolar High Frequency cord. 1
38 STAMMBERGER Bipolar Suction Forceps, 15° upturned, 1
with suction channel, for bipolar coagulation in paranasal areas,
working length 12.5 cm.
40 Suction and Irrigation Sheath 0°, outer diameter 4.8 x 6 mm, 1
working length 14 cm, for use with Telescopes 0 degree,
41 Suction and Irrigation Sheath 30°, outer diameter 4.8 x 6 mm, 1
working length 14 cm, for use with Telescopes 30 degree
42 Suction and Irrigation Sheath 45°, outer diameter 4.8 x 6 mm, 1
working length 14 cm, for use with Telescope 45 degree.
43 Suction and Irrigation Sheath 70°, outer diameter 4.8 x 6 mm, 1
working length 14 cm, for use with Telescopes 70 degree
44 Irrigation and Suction Sheath 15°-90°, outer diameter 4.8 x 6 mm, 1
working length 14 cm, for use with multiangle Telescope
47 Frontal Sinus Punch, with link chain sheath 70° upturned, backward 1
cutting, to reduce the spina nasalis superior, medium, jaws 3.5 x 3 mm, W length 13 cm
48 Plastic Container for Sterilization and Storage of Variable 2
Instrument Sets, perforated, with transparent lid, with silicone
mat, two-level storage, (1 additional insert), external
dimensions (w x d x h): 545 x 260 x 115 mm
consisting of:
Snap-in Clip, package of 12

		Silicone Tie-Downs, package of 12	
		Tool The plastic containers are suitable for steam, gas and hydr	ogen peroxide sterilization

		<ul> <li>Gantry tilt as per manufacturer.</li> </ul>
		<ul> <li>Maximum scan field of view to be at least 50 cm.</li> </ul>
		<ul> <li>For Pediatrics &amp; small organs the system should be able to reduce the field of</li> </ul>
		view to 320-500 mm.
		<ul> <li>Minimum slice thickness 0.7 mm or less in helical and axial acquisition mode.</li> </ul>
		TUBE
		• Anode heat storage capacity of at least 3.5 MHU or better.
		• Generator output of up to 300 mA or more for all applications.
		Active collimation during scanning.
		GENERATOR
		<ul> <li>High frequency power generator with minimum power of at least 28 KW or more should be capable of variable kV setting in steps from 80kVp to 130/135 KVP.</li> <li>Should have ability to vary the power (mAs) automatically in steps Real-time</li> </ul>
		dose reduction hardware / software.

	•	Iterative dose reduction must be offered.
	•	Low contrast detectability (LCD) calculated on a CATPHAN 20 cm, of 5mm or
		better resolution with a CT No. of 3 HU (0.3 %) or better, contrast difference.
	• Dete	Maximum Scan Time 100sec or better. C <b>TORS</b>
	•	Detectors conversion efficiency (X-ray to signal strength) of atleast 98% latest technology.
	•	Isotropic voxel size of 0.35mm or better.
	•	Minimum 16 physical Detectors and detector electronics capable of providing 32 reconstructed slices or more per gantry rotation.
	COUC	Н
	•	Maximum weight allowed on the couch 200 kg or more
	•	Horizontal movement speed up to 100 mm per second or better.
	•	Scan Length of at least 1.4 meters or more of helical or axial scan in a single acquisition.
	•	Motorized table with weight bearing capability of 220kg or more with height adjustment
	CONS	OLE COMPUTER
	•	System architecture and operating system must be based on latest technology.
	•	(64bit or RISC or Dual Xenon Processor PC original).
	•	Multitasking and parallel processing CPU system.
	•	SYSTEM specifications must be manufacturer's latest and maximum capacity as
		per the datasheet.
	•	Capable of storing of image and patient data storage of at least 260,000 images or more images in 512 x 512 format.
	•	Reconstruction of at least 15 images per seconds or better at 512 x 512 matrix. Image area display matrix dimensions (1024 x 1024).
	•	Console color monitor, LCD of at least 19 inches or more, medical grade with maximum viewing angle.
	•	DVD and CD writer/USB HUB
	CONS	OLE SOFTWARE:
		All the latest whole body including vascular software should be supplied as
		standard which is available at the time of shipment original with their part No of
		company.
	b.	Adaptive signal boost software to minimize streak artifact reduction and obese patients.
	с.	User Interface Software, True isotropic volume acquisition
	d.	Automated contrast media bolus tracking software.
	e.	3D Reconstruction Display Original Company Software.
	f.	Maximum and minimum intensity projections

wor	RK-STATION-
	Minimum x 01 Qty standalone workstation with original software's from OEM
	with permanent license.
•	Independent, automatic multimodality, fully functional.
•	All companies will supply the Work-stations by the same manufacturer of the CT
	to ensure similar work flow.
•	High speed link to operator console on DICOM network System architecture and
	operating system
	a. Quad Core processor Xeon
	b. 2.66 GHz or more speed
	c. 512kb cache or more
	d. Graphic cord and network cord.
•	Original Licensed software: Latest window XP/7/8/10 or Linux, MS Office
	2013, Norton equivalent antivirus (current and upgradeable for at least for the
	time of warranty).
· · · · · · · · · · · · · · · · · · ·	Should hve at least one high resolution LCD monitor (medical grade as recommended by the manufacturer) of 21 inch or more.
•	DVD RW (super-drive will be preferred).
•	DICOM-3 viewer with universal PC display capability (licensed)
WOI	RKSTATION SOFTWARE:
•	Software upgradation of all existing applications for at least next 05 years will be
	provided free of cost.
WOF	RKSTATION SOFTWARE
•	Following software should be provided for on workstation. - 3D reconstruction display
	- Maximum and minimum intensity projections
	- Multi-planar and curved planer reconstruction
	- 3D Shaded Surface Display
	- 3D Volume Rendering software
	- 3D Virtual Endoscopy, colonoscopy, bronchoscopy.

		Bone removal software.     CTL upg density Assessment for systemated assessmentation of solid and sylaplid
		CT Lung density Assessment for automated segmentation of solid and subsolid lesions in lungs
		• DICOM 3 ready (multi-vendor and multimodality compatible for send, receive,
		achieve, retrieve and print, on main console and workstations). <b>POWER REQUIREMENT</b>
		• Three-phase with line voltage of 220 V, 50 Hz.
		ACCESSORIES:
		• Programmable, single head power injector with flow/volume and temperature control.
		• (Qty x 01), mounted on mobile base, with 500 syringes of 150 ml capacity and connecting tubes.
		• DICOM 3 ready dry laser printer, multi-size up to 14 x17 in for printing on films.
		• Compatible On-line sine wave UPS for whole CT suite, with a minimum back-up time of 30 minute on full load.
		<ul> <li>Complete electricity works from power station to CT room including earthling,</li> </ul>
		power racks, breakers, DB etc.
		PROTECTION DEVICES:
		• Lead aprons with hangers. (Qty x 02)
		• Lead-gloves (Qty x 02)
		• Lead goggles (Qty x 02)
		• Thyroid Shields all 0.5 mm lead equivalent European & Japanese.
		• Lead glass for control room 5 x 3 feet, 0.5 mm Pb equivalent.
		Standard set of Phantoms for calibration of CT
		<ul> <li>Pediatric scanning package.</li> <li>Dediasted Cardiae Monitor or centry in built tablet for superspectra with cordiae</li> </ul>
		Dedicated Cardiac Monitor or gantry in built tablet for synchronize with cardiac scan.
		• Pulse oxymeter.
		TABLE ACCESSORIES –
		• Table pads, arms rest, patient restraint kit, infant cradle, flat head holder,
		• (original accessories from the manufacturer)
		Digital Transcription system for reporting
		<ul> <li>UPS</li> <li>Compatible UPS, Transformer, Power Cables prices to be included in machine</li> </ul>
		price.
		• Electrification, cooling requirement, and cable requirement etc. shall be responsibility of the bidder.
		<ul> <li>Dose meter and Radiation meter shall be provided.</li> </ul>
		Separate Cost: (Optional where required but shall be quoted):
		• Per square feet cost lead lining cost shall be quoted,
		Note: Workstation price to be quoted as optional if additional workstation to be purchased by procuring entity.
22.	CT Scan Machine	GANTRY
	64 Slice	• System should be capable of acquiring 64 slices or more per gantry rotationin
		real time.
		<ul> <li>Gantry bore / aperture to be at least 70cm or more.</li> <li>Minimum gantry rotation time to be at least 0.35 seconds or better per 360°</li> </ul>
		• Minimum gainty rotation time to be at least 0.55 seconds of better per 500 rotation, for all applications.
		• All the firms should quote their latest model scanner (reconstructing 64 slices or
		more)

•	Gantry tilt as per manufacturer.
•	Maximum scan field of view to be at least 50 cm.
•	For Pediatrics & small organs the system should be able to reduce the field of view to 320-500 mm.
•	Minimum slice thickness 0.7 mm or less in helical and axial acquisition mode.
TUBE	
•	Anode heat storage capacity of at least 5 MHU or better.
•	Generator output of up to 400 mA or more for all applications.
•	Active collimation during scanning.
GENE	RATOR
•	High frequency power generator with minimum power of at least 50 KW or more should be capable of variable kV setting in steps from 80kVp to 140/135 KVP.
•	Should have ability to vary the power (mAs) automatically in steps Real-time dose reduction hardware / software and with ECG modulation.
•	Iterative dose reduction must be offered.
•	Low contrast detectability (LCD) calculated on a CATPHAN 20 cm, of 5mm or better resolution with a CT No. of 3 HU (0.3 %) or better, contrast difference.
•	Maximum Scan Time 100sec or better.
	CTORS
•	Detectors conversion efficiency (X-ray to signal strength) of atleast 98% latest technology.
•	Isotropic voxel size of 0.35mm or better, in all three axis.
COUC	
•	Maximum weight allowed on the couch 200 kg or more
•	Horizontal movement speed up to 100 mm per second or better.
•	Scan Length of at least 1.6 meters or more of helical or axial scan in a single acquisition.
CONS	Weight bearing capacity of table should be 200 kg patient or more. <b>OLE COMPUTER</b>
•	System architecture and operating system must be based on latest technology.
•	(64bit or RISC or Dual Xenon Processor PC original).
•	Multitasking and parallel processing CPU system.
•	SYSTEM specifications must be manufacturer's latest and maximum capacity as per the datasheet.
•	Capable of storing of image and patient data storage of at least $500,000$ images or more images in $512 \times 512$ format.
•	Reconstruction of at least 50 frames per seconds or better at 512 x 512 matrix.
	Image area display matrix dimensions (1024 x 1024).
•	Console color monitor, LCD of at least 19 inches or more, medical grade with maximum viewing angle.
•	DVD and CD writer/USB HUB

<ul> <li>view to 320-500 mm.</li> <li>Minimum slice thickness 0.625 mm or less in helical and axial acquisition mode.</li> <li>TUBE</li> </ul>
• Minimum slice thickness 0.625 mm or less in helical and axial acquisition mode. TUBE
TUBE
• Anode heat storage capacity of at least 7 MHU or better.
• Generator output of up to 600 mA or more.
Active collimation during scanning.
GENERATOR
<ul> <li>High frequency power generator with minimum power of at least 70 KW or more</li> </ul>
should be capable of variable kV setting in steps from 80kVp to 140/135 KVP.
• Should have ability to vary the power (mAs) automatically in steps Real-time
dose reduction hardware / software and with ECG modulation.
• Iterative dose reduction must be offered.
• Low contrast detectability (LCD) calculated on a CATPHAN 20 cm, of 5mm or
better resolution with a CT No. of 3 HU (0.3 %) or better, contrast difference.
• Maximum Scan Time 100sec or better.
DETECTORS
• Minimum 64 Detectors or more and detector electronics capable of providing 128
slices or more per gantry rotation in real time.
<ul> <li>Detectors conversion efficiency (X-ray to signal strength) of atleast 98% latest</li> </ul>
technology.
<ul> <li>Isotropic voxel size of 0.33mm or better, in all three axis.</li> <li>Detector width 38mm or more.</li> </ul>
COUCH
Maximum weight allowed on the couch 200 kg or more
<ul> <li>Horizontal movement speed up to 100 mm per second or better.</li> </ul>
Scan Length of at least 1.6 meters or more of helical or axial scan in a single

acquisition.
• Scan with at least 0.25 mm accuracy / reproducibility on a 200 kg patient.
CONSOLE COMPUTER
<ul> <li>System architecture and operating system must be based on latest technology.</li> <li>(64bit or RISC or Dual Xenon Processor PC original).</li> </ul>
Multitasking and parallel processing CPU system.
SYSTEM specifications must be manufacturer's latest and maximum capacity as
per the datasheet.
<ul> <li>Capable of storing at least 3000 raw data files / rotations or 700 GB raw data 300000 or more images in 512 x 512 format.</li> </ul>
<ul> <li>Reconstruction of at least 50 images frames per seconds or better at 512 x 512</li> </ul>
matrix. Image area display matrix dimensions (1024 x 1024).
<ul> <li>Console color monitor, LCD of at least 19 inches or more, medical grade with</li> </ul>
maximum viewing angle.
• DVD and CD writer/USB HUB
CONSOLE SOFTWARE:
w. All the latest whole body including vascular software should be supplied as
standard which is available at the time of shipment original with their part No of
company.
x. Adaptive signal boost software to minimize streak artifact reduction and obese patients.
y. User Interface Software, True isotropic volume acquisition
z. Prospective and retrospective ECG gated acquisition
aa. Row data based / automatic arrythmia rejection cardiac scanning overcoming
heart motion and scanning as if the heart is not moving.
bb. Variable Delay algorithm like fixed percent delay (FPD) and fixed offset delay
(FOD) or
cc. (Optional)Better, for selection of period of least motion in cardiac cycle
(Temporal resolution of 83 millisecond or less will be preferred).or equivalent.
dd. Automated contrast media bolus tracking software.
ee. 3D Reconstruction Display Original Company Software.
ff. Maximum and minimum intensity projections
gg. Multi-planar and curved planer reconstruction
hh. 3D shaded surface display
i. 3D volume rendering software
jj. 3D virtual endoscopy, colonoscopy, bronchoscopy etc with lumen / fillet view/
electronic cleansing / auto segmentation of the colon on
console/workstation/both)
kk. 3D cone beam correction.
ll. Post-processing software for rib-labeling or equivalent to analyze associated rib
pathology
mm. CT continuous Fluoroscopy with frame rate of 10-12 fps or equivalent.
CT Angiography (optional but mandatory to be quoted)
j. Basic Comprehensive Brain perfusion analysis (on console or workstation or
both)
k. Image reconstruction Automatic real time dose adjustment according to the body
attenuation i.e. core 4D dose/longitudinal dock workstation/ 4D boost/ sure
exposure 3D/ organ specific dose modulation or similar
1. Artifact reduction algorithm.

1	n. Automatic control of tube current over high and low attenuation areas for patient
	dose reduction software for low dose to patient original / certified.
1	n. Iterative Dose Reduction with manufacturer specific latest software and dedicated
	hardware.
	b. Bone removal software.
	b. Spine labeling software should be included.
	J. Dental CT.
	. DSA on Console & workstation with manufacturer's dedicated software
WO	RK-STATION-
5	Minimum x 01 Qty standalone workstation with original software's from OEM with permanent license.
t	1 7 5 5
1	1. All companies will supply the Work-stations by the same manufacturer of the CT to ensure similar work flow.
	7. High speed link to operator console on DICOM network System architecture and
	operating system
	Quad Core processor Xeon
	• 2.66 GHz or more speed
	• 512kb cache or more
	Graphic cord and network cord.
	v. Original Licensed software: Latest window XP/7/8/10 or Linux, MS Office
	2013, Norton equivalent antivirus (current and upgradeable for at least for the time of warranty).
2	x. Should have at least one high resolution LCD monitor (medical grade as
	recommended by the manufacturer) of 21 inch or more.
	v. DVD RW (super-drive will be preferred).
2	z. DICOM-3 viewer with universal PC display capability (licensed)
WO	RKSTATION SOFTWARE:
1	a. Software upgradation of all existing applications for at least next 05 years will be
	provided free of cost.
	<b>RKSTATION SOFTWARE</b> (Cardiac package and all software on workstation)
1	bbLatest Cardiovascular and whole-body software versions will be provided by the vendors including reporting packages.
	c. Following software should be provided for on workstation.
	ld. 3D reconstruction display
6	e. Maximum and minimum intensity projections
t I	f. Multi-planar and curved planer reconstruction
5	g. 3D Shaded Surface Display
	th. 3D Volume Rendering software
	i. 3D Virtual Endoscopy, colonoscopy, bronchoscopy.
e e	
	k. Calcium scoring with ECG gating and prospective & retrospective
	reconstruction.
1	1. Advanced Complete Cardiac package including functional analysis with
	automatic bone removal software.
	nm. Cardiac segmentation with complete cage removal.
1	nn. Orthogonal Cross Reference View / Globe view (2D and 3D maps overly on
	Cardiac anatomy).
	bo. Angiography Emulation View / IVUS view for Vessel lumen inspection. bp. Complete coronary tree extraction and analysis.
	n L'omplete coronery tree extraction and analysis

• Ventricular function assessment (ESV, EDV, CO, EF).
• LV Function assessment.
<ul> <li>Calcium scoring – giving mass, agatston and volume score.</li> </ul>
<ul> <li>CT Angiography with dedicated Cardiac CT Angiography.</li> </ul>
Bone removal and vessel segmentation.
• Tools for general vascular analysis capable to calculate Intra-luminal diameter,
cross-sectional lumen area, length and tortuosity of vessel's segments, angle the
vessels / rotatable curved MPR.
• Ability to outline and calculate aneurysm, identify mural calcification and lining
mural thrombus
• Calculations of dimensions of an aneurysm, the neck of the aneurysm,
relationship to surrounding vascular structure, and total distance in order to non-
invasively plan stent placement.
• Dedicated software for Liver Imaging.
Automated Brain Perfusion.
• Providing functional information over the functionally significant are of the brain
for stroke evaluation.
• Allows differentiating areas of increased blood volume and decreased blood flow
and ability to distinguish still viable and non-viable infarcted tissue.
• Quantitative color maps of cerebral blood flow (CBF), cerebral blood volume
(CBV), mean transit time (MTT) and time to peak (TTP) allowing to decide
between areas of for the brain that may benefit from reperfusion.
• Automated mirroline / centerline and selection of arterial and venous regions of
interest.
<ul> <li>Allowing perfusion of other body organs liver and kidney etc.</li> </ul>
<ul> <li>Advanced peripheral/general vessel analysis.</li> </ul>
<ul> <li>CT Lung density Assessment</li> </ul>
<ul> <li>Track and quantify diffuse lung disease including congenital lobar emphysema,</li> </ul>
destructive lung disease, pulmonary hypoplasia/agenesis, CCAM and
laryngomalacia etc.
<ul> <li>Nodule analysis program.</li> </ul>
<ul> <li>Automated / single click segmentation of Right and left lung with display of</li> </ul>
volume rendered and MPR view to destruction for accurate quantification and
reporting with picture print.
<ul> <li>Allows pre surgical planning through lungs field areas and lungs field volumes</li> </ul>
<ul> <li>DICOM</li> </ul>
<ul> <li>DICOM 3 ready (multi-vendor and multimodality compatible for send, receive,</li> </ul>
achieve, retrieve and print, on main console and workstations).
POWER REQUIREMENT
• Three-phase with line voltage of 220 V, 50 Hz.
ACCESSORIES:
• Programmable, single head power injector with flow/volume and temperature
control.
• (Qty x 01), mounted on mobile base, with 500 syringes of 150 ml capacity and
connecting tubes. $\mathbf{D}$
• DICOM 3 ready dry laser printer, multi-size up to 14 x17 in for printing on films.
• Compatible On-line sine wave UPS for whole CT suite, with a minimum back-up time of 30 minute on full load
time of 30 minute on full load.
• Complete electricity works from power station to CT room including earthling,
power racks, breakers, DB etc.
PROTECTION DEVICES:
• Lead aprons with hangers. (Qty x 02)

		• Lead-gloves (Qty x 02)
		• Lead goggles (Qty x 02)
		• Thyroid Shields all 0.5 mm lead equivalent European & Japanese.
		• Lead glass for control room 5 x 3 feet, 0.5 mm Pb equivalent.
		• Standard set of Phantoms for calibration of CT
		Pediatric scanning package.
		Dedicated Cardiac Monitor for synchronize with cardiac scan.
		• Pulse oxymeter.
		TABLE ACCESSORIES –
		• Table pads, arms rest, patient restraint kit, infant cradle, flat head holder,
		• (original accessories from the manufacturer)
		Digital Transcription system for reporting
		UPS
		Compatible UPS, Transformer, Power Cables prices to be included in machine price.
		Electrification, cooling requirement, and cable requirement etc. shall be responsibility of the bidder.
		Dose meter and Radiation meter shall be provided.
		Separate Cost: (Optional where required but shall be quoted):
		• Per square feet cost lead lining cost shall be quoted,
		Note: Workstation price to be quoted as optional if additional workstation to be
		purchased by procuring entity.
24.	Cystoscope	CYSTOSCOPE FLEXIBLE SET
	flexible set with	• Working length: as per user
	light source	• Distal Tip: 4.8mm to 5.5 mm
	complete	Working channel: 2.4mm or better
		• Active Deflection: 180° to 210° up,120° down or more
		• With Passive Deflection.
		• Light Carriers: 2,
		• Field of view: 110° to 120° minimum or better on either side.
		• Depth of focus, 5-50 mm or better.
		• Complete with grasping forceps,
		• Fiber optic cable.
		• Instrument lubricant.
		Biopsy port seals, cleaning brush & carrying case
		• With compatible light source (Xenon / LED) from the same manufacturer.
		Video System
		• HD Camera Head compatible with scope, image processor having capability of
		image storage and transfer in USB etc Medical Grade monitor having display size
		21 inch or more should be mounted on trolley.
25	Cystoscope Rigid	<ul> <li>Voltage source : 220 Vac</li> <li>Talasage 20° Autoclayable with fiber ontio light transmission</li> </ul>

		<ul> <li>Cystoscope-Urethroscope Sheath, 5.6mm., with obturator and 2 LUER-Lock</li> </ul>
		adaptor.
		Telescope Bridge with 2 lockable instrument channels
·	1	

	Catheter Deflecting Mechanism, with 2 instrument channels, with ratchet
	<ul> <li>Grasping Forceps for removal of foreign bodies, 2.3mm. double action jaws,</li> </ul>
	flexible, length 40 cm
	• Biopsy Forceps, 2.3mm., double action jaws, flexible, length 40 cm
	• Coagulating Electrode, 1.3mm., unipolar, length 53 cm
	• Unipolar High Frequency Cord, with 4 mm plug, length 300 cm, for models, Erbe
	type T, older models and Ellman tray (same manufacturer).
	Video System
	• HD Camera Head compatible with scope, image processor having capability of image storage and transfer in USB etc Medical Grade monitor having display size 21 inch or more should be mounted on trolley.
	Voltage source : 220 Vac
26. Digital	COMPRISING OF FOLLOWING: -
Fluoroscopy Unit	<ul> <li>Microprocessor Controlled, High Frequency, 01 Tube Rad/Fluoroscopy type X-ray Generator, 1000 mA /150 KV /80 KW.</li> </ul>
	<ul> <li>90/-25 or more Degree Remote Controlled Rad / Fluoro tilting table, 4-way movement of table top, tube column with Motorized collimator.</li> </ul>
	• 19 <sup>II</sup> Inch or more LCD Medical Grade monitor on trolley.
	Overhead rotating anode double Focus x-ray tube
	• 01 pair of H.T Cable
	X-RAY GENERATOR
	Microprocessor Controlled
	High Frequency, 01 Tube Radiography / Fluoroscopy Operation.
	Maximum mA Radiography: 1000mA
	Maximum KVp Radiography: 150 KV
	Minimum KV radiography: 40 KV
	• Power Rating: 80 KW
	Minimum Exposure Time: 1 millisecond
	• Maximum mA Fluoroscopy: 4 mA or more
	• Maximum KVp Fluoroscopy: 100 KV or better
	Automatic mains Line compensation
	Three Point Console
	Anatomical Programming
	• Automatic Brightness Control
	• Power Requirement: 3 Phase 380/480 V / 50 Hz
	Integrated Operating console with that of remote-controlled table 90/-25or more     Degree Remote Controlled Tilting table for Rad/ Fluoroscopy
	• Diagnostic +90/-25 or more Degree Remote Controlled Rad / Fluoroscopic Table
	• With 4-way movement of table top.
	• 2 No's 19 Inch or more LCD Medical Grade Monitor (Model and Make must be
	mentioned) on Trolley.
	Automatic light control Motorized Tilting Table
	5
	<ul> <li>Microprocessor controlled for safety, superior reliability, and real time-check of the equipment, including the self-diagnosis function.</li> </ul>
	• Rad/ Fluoroscopy Diagnostic table to offers full patient support for all radiographic and fluoroscopic procedures from +90 degree vertical through -25-degree Trendelenburg with an automatic stop at the horizontal position.
	Motor driven collimator
	• Remote controlled compression, the compression force, adjustable 80 N or more.
	Flat Panel DECECTOR
	Detector type: amorphous silicon

	1	
		• Active area nominal: 17 x 17 Inch
		• Pixel size: not more than 150 µm
		Tube Arm
		• Feature of Longitudinal displacement of Tube arm should be available with longitudinal movement of tabletop.
		• Focus-film distance: Continuously variable focus-film distance with preset positions
		at for very high-quality degree.
		• Oblique incidences:- +/-40° or better along a longitudinal displacement of 40 cm or better.
		Motorized Collimator
		Accessories
		<ul> <li>Adjustable height footrest</li> <li>Shoulder rest</li> </ul>
		Handgrips     Compression belt
		Compression belt

		<ul> <li>Built-in battery backup of at least 90 minutes or better</li> </ul>
		<ul> <li>Thermal printer</li> </ul>
		<ul> <li>Carrying bag for ultrasound with safe positions for probes</li> </ul>
		<ul> <li>Gel 20 Liters</li> </ul>
34.	High End Color	Fully Digital Beam Former Having 4,00,0000 or More Digital Processing Channels with
54.	Doppler Machine	Integrated Data Management System Having 500GB Hard Disk Drive for Still and Cine
	Doppier Machine	Clips Storage and 128GB or more SSD for operating system and application software.
		Upgradable to 4D Convex, Linear, and TVS probe.
		<ul> <li>Modes</li> </ul>
		• Modes 2D/M-Mode, Doppler, Pw, Hprf Doppler, Color Flow Imaging
		<ul> <li>System Capability 1.5 – 22 MHz or More</li> <li>Fusion/Tissue Harmonic Imaging</li> </ul>
		<ul> <li>Viewing Depth: 40cms or better.</li> </ul>
		<ul> <li>Frame Rate: 2000 FPS or better.</li> </ul>
		<ul> <li>Built-In Cine Loop: 2000 Frames/256 MB or better.</li> </ul>
		<ul> <li>Real time freeze &amp; image magnification ability better than 10 x pre &amp; post</li> </ul>
		processing
		• Sweep Speed: Slow, Medium, Fast
		• 13 or better touch command screen for easy operation of the system.
		• System dynamic range: 50 to 220db or better
		Doppler Mode Specifications:
		Pulse Repetition Frequency Range;
		PWD: 1.0 To 18 KHz
		Doppler Beam Steering
		On Line 4-Ports for Trans-thoracic Probes
		Doppler Beam Steering and Bi-Directional Stereo Audio
		Color Doppler
		• PW Doppler must be continuously steerable in color blood flow imaging mode in
		real time.

		Colorized Spectrum Display
		<ul> <li>Tissue Harmonic Imaging with Two Frequencies</li> </ul>
		• Elastography
		2D Image with Color Flow
		Power Doppler     Standard Features
		Needle enhancement for biopsy needle visualization
		• Auto image optimization / quick scan imaging for automatic stc/gain and Doppler spectrum adjustment with optimal image quality by using one touch operation.
		• B-flow/dynamic flow imaging / e-flow / x-flow
		• Trapezoid imaging/virtual convex imaging with linear probe
		<ul> <li>Compound/x view+/aplipure imaging for both frequency compounding and spatial compounding in b/w and color mode</li> </ul>
		<ul> <li>N-sight / adaptive suppression / precision imaging / xflow/ cross beam to enhance b-mode imaging, detailed in layers and boundaries and sharpened outlines of the lesions and reduce cluttering.</li> </ul>
		<ul> <li>3D imaging for the acquisition of volume data and display of 3D images in b/w as well as color without using a 4D transducer.</li> </ul>
		<ul> <li>B-flow with color XDclear-2/x flow/micro v/superb micro vascular imaging with spectral Doppler to clearly show blood flow in tiny vessels, liver capsula, gall bladder wall etc or equivalent.</li> </ul>
		<ul> <li>Live strain rate Elastography / compressed elastography with quantification for body organs specially breast to visualize lesions.</li> </ul>
		• Live Shearwave Elastography with quantification and adjustable area based minimum 2 x 3 cm display for body organs especially liver with convex, linear & TVS probes to visualize tissue stiffness by generating images through shear wave
		propagation, speed, and elasticity modes. Measurement Package:
		• To provide comprehensive software package for measurement of distance
		circumference, area, time, depth etc. System Complete with Following Facilities and Accessories:
		System Complete with Following Facilities and Accessories:     21-Inches or better color monitor
		Standard Probes:
		• 2.0 – 5.0 MHz or More Multi-Frequency Convex Probe
		• 4.0 – 10 MHz or More Multi-Frequency Linear Probe
		• 4.0 – 10 MHz or More Multi-Frequency TVS Probe
		• 5 – 15 MHz High Frequency Linear
		STD Recording Devices:
		CD/DVD Recorder for Digital Image Storage
		<ul> <li>Built-In / Separate Compatible Imported Online Ups (Minimum Backup Time &gt; 10Minutes)</li> </ul>
		• B/W Thermal Printer. (Model/ Make must be mentioned)
35.	High End Echo	Fully digital beam former having 4,000,000 or more digital processing channels with
55.	Machine	integrated data management system having 500GB hard disk drive / SSD for still and cine
		clips storage, operating system and application software.
		<ul> <li>Modes:</li> </ul>
		<ul> <li>2d/m-mode, doppler, pw, cw &amp; hprf doppler, color flow imaging</li> </ul>
		• System capability 1.5 – 22 mhz or more, m-mode, tissue/fusion harmonic imaging,

		• Tissue doppler imaging with pulse wave the doppler spectrum.
		• Viewing depth: 40cms or better.
		• Frame rate: 2000 or better.
		• Built-in cine loop: 2000 frames/256 mb or better.
		• Real time freeze & image magnification ability better than 10 x pre & post
		processing
		• Sweep speed: slow, medium, fast
		• 13 or better touch command screen for easy operation of the system.
		• System dynamic range: 50 to 220db or better
		Doppler mode specifications:
		Pulse repetition frequency. Pwd, Cwd.
		• Doppler beam steering
		• On line 4-ports for trans-thoracic probes.
		• Doppler beam steering and bi-directional stereo audio.
		Color doppler
		• Both cw & pw doppler must be continuously steerable in color blood flow imaging
		mode in real time colorized spectrum display.
		Tissue harmonic imaging with two frequencies
		• 2d image with color flow
		• Power doppler
		• Auto image optimization/quick scan for single button optimization of all scanning
		parameters including stc overall gain and doppler spectrum.
		<ul> <li>Compound scanning using frequency as well as spatial compounding.</li> </ul>
		Trapezoid imaging for linear probes.
		• 2D wall motion tracking for strain rate imaging.
		• Stress echo system.
		Measurement package:
		• To provide comprehensive software package for measurement of distance
		circumference, area, time, depth etc. And separate software for, cardiovascular
		including venous doppler study, imt (intima medial thickness)
		System completes with following facilities and accessories:
		• 21-inches or better display (lcd/tft).
		• Ecg including cables and transducers/electrodes.
		Standard probes
		• 2-5 mhz or more multi-frequency sector probe for adult.
		• 2-7 mhz sector probe for paeds.
		• 4-10 mhz or more sector probe for neonates.
		• 4-10 mhz or more multi-frequency linear probe Std recording devices:

38.	ICU Ventilator	Ventilator, electrically operated microprocessor controlled, suitable for adult / Paeds /
	(Neonatal&	Neonate use.
	Pediatric & Adult)	• Tidal Volume: 5 ~ 2000 ml or better on either side.
	Compressor	• Frequency: 3 ~ 120b/min or better on either side.
		• I:E ratio: 1:7-4:1 or better
		• Inspiratory Time: 0.2-8s or better
		• Inspiratory Pressure: 3-60 cmH2O or better
		• Support Pressure: 0-60 cm H2O or better
		• Pressure Trigger: -103cm H2O, OFF or better on either side
		• Flow Trigger: 3-9 L/min OFF
		• PEEP: 1-30 cmH2O
		• FiO2: 21-100%
		Patient Circuit: Autoclavable / disinfectible (adult, Peads & Neonate)

	<ul><li>Supplied with pole clamp.</li><li>O2 and Air input hoses</li></ul>
	• With Humidifier.
1	Modes:
	invasive and non-invasive ventilation which could be used inside ICU or outside ICU.
	• Volume control: CMV/AC, SIMV, PRVC
	• Pressure Control: CMV/AC, SIMV, CPAP, PS
	• Mode suitable for weaning
1 1	Monitoring:
	Standard parameters
	• Three Hour or more Built-in Battery Backup
	• TFT / LCD Monitor Size: 12 or more
	• Display Loops including Pressure-Volume, Flow-Volume, Flow Pressure, show up to 2 loops simultaneously.
	• Should operate on O2, Air/ or both
	• Alarms for Gas failure, RR, Pressure, Apnea, Volume, Low Battery
	• With built-in Compressor (02 Hrs or more backup UPS)
	• With Trolley.
0	PTIONAL
	• Upgradable to ETCO2 and SPO2 prices should be quoted separately.

39.	ICU Ventilator	Ventilator, electrically operated microprocessor controlled, suitable for adult / Paeds /
	(Neonatal&	Neonate use.
	Pediatric & Adult)	• Tidal Volume: 2 ~ 2000 ml or better on either side.
	Turbine	<ul> <li>Frequency: 1 ~ 120b/min or better on either side.</li> </ul>
	1 di onic	• I:E ratio: 1:7- 4:1 or better
		• Inspiratory Time: 0.2-8s or better
		• Inspiratory Pressure: 3-60 cmH2O or better
		• Support Pressure: 0-60 cmH2O or better
		• Pressure Trigger: -200.5cmH2O, OFF
		• Flow Trigger: 0.5-20 L/min OFF
		• PEEP: 0-30 cmH2O
		• FiO2: 21-100%
		Patient Circuit: Autoclavable / disinfectible (adult, Peads & Neonate)
		• Supplied with pole clamp.
		• O2 and Air input hoses
		• With Humidifier.
		• High Flow O2 therapy.
		Modes:
		Invasive and non-invasive ventilation which could be used inside ICU or outside ICU.
		• Volume control: CMV/AC, SIMV, PRVC/APCV
		Pressure Control: CMV/AC, SIMV, CPAP, PS
		Mode suitable for weaning
		Monitoring:
		Standard parameters
		Three Hour or more Built-in Battery Backup
		• TFT / LCD Monitor Size: 12 or more
		Display Loops including Pressure-Volume, Flow-Volume, Flow Pressure, show up
		to 2 loops simultaneously.
		• Should operate on O2, Air/ or both
		• Alarms for Gas failure, RR, Pressure, Apnea, Volume, Low Battery
		• With built-in Turbine (03 Hrs or more backup UPS)
		• With Trolley.
40.	ICP Monitoring	Operating Range: -50 to 150 mmHg or more
	System	"Input Pressure Channel/ Output Pressure Accuracy:"

		+/- 0.5 mmHg over the range -50 to 50 mmHg and +/- 1% over the range 50 to 150 mmHg (exclusive of sensor)
		• Method of Operation:
		Strain gauge technology to read the pressure sensor / Any other Equivalent
		Technology
		Monitor Features:
		LCD Display with touch screen
		On-screen ICP waveform
		High and Low Alarms
		Rechargeable Battery to use during transport
		• Stores 14-days' worth of patient data
		<ul> <li>Monitor must download patient data through USB for further analysis.</li> </ul>
		<ul> <li>ICP Monitor Catheter Kit</li> </ul>
41.	Laparoscope	High Definition Gynea and General Laparoscopy System (Progressive Scan)
	machine for	(CCD) /CMOS Camera System
	Gynea /OBS and	• Resolution (1920x1080p)
	General	Camera Console 220V with Universal Coupler.
		• Pure Digital Signal with high-definition video 3 Mega pixel or better (native resolution)
		• System should have image enhancement mode, PIP Mode.
		• Color temp of LED module should have 5700K or better
		• Progressive scan technology both on camera head and console
		Brightness Control on Console and camera head
		<ul> <li>Digital Zoom (should have facility of digital zooming) and White Balance Control</li> </ul>
		on Camera Head
		Integrated Gain/Shutter / Enhancement with automatic brightness control
		Video Output-
		• DVI, HD-SDI,
		• Automatic light source (From same manufacturer)
		• 220volt, 300 watts, LED Bulb (with one spare bulb)
		• LED life 30,000 hours or better
		<ul> <li>Light Adjustment</li> </ul>
		<ul> <li>Standby Mode</li> </ul>
		<ul> <li>Universal Jaw Assembly branded</li> </ul>
		FIBER OPTIC CABLE
		• 4.5 to 6.5mm x 240 cm or better Snap fit cable
		MONITOR (from same manufacturer)
		• Quantity: 1
		• 27 inch or better medical grade LED Monitor (from same manufacturer and model
		must be mentioned)
		• High-Definition HD Resolution: 1920x1080 or better.
		• Brightness: 300 Cd/m2 or better.
		• Contrast Ratio: 2000:1 or better With
		Brightness stabilization
		• Back light sensor.
		• Power saving mode & Accessories: AC power cord, Signal Cable.
		INSUFFLATOR
		• 50 Liter of high flow, Microprocessor controlled unit with touch screen
		Soft approach pressure control for safe recovery of abdominal pressure
		Gas heating
		LCD based central display monitor.

	50L INSUFFLATOR WITH ANTIFOGGIN	
	• 4 preset indications: Standard (lap. GY	N, lap. URO, lap. GS),
	• Central display with intuitive handling	
	Audio visual alarming system	
	• Integrated gas heating system	
	Universal gas connection with pressure	es range from 1-30 mmHg
	• Mains voltage range AC 100-240 V	
	• Supply frequency range 50/60 Hz	
	HIGH INTENSITY LED LIGHT SOURCE	
	• Universal use (works with 2D and 3D of the second	
	Long lifetime of LED module (typicall	
	Practically maintenance-free (LED tech	nnology)

Consistent bright image (automatic light quantity control)
• Natural color reproduction (high Color Rendering Index value of 92)
Display indicators
• Color temp of LED module 5600 K or more
• Bus interface facility
Integrated anti-glare protection
32" 3D MONITOR FROM SAME MANUFACTURER
• Medically approved monitor should support 3D and 2D resolution
• display diagonal with 16 : 9 image format
• Excellent display of details, enhanced brightness and contrast
• Coated glass surface (anti reflection)
<ul> <li>Displays camera video signals in 3D and 2D</li> </ul>
<ul> <li>Multiple 3D-2D video signal inputs (3G-SDI and DVI-D)</li> </ul>
<ul> <li>Parallel use of multiple 3D-2D monitors possible</li> </ul>
• I aranel use of multiple 3D-2D monitors possible
ENDO CART LOCAL EXPORT QUALITY
Height adjustable central monitor arm
<ul> <li>Drawer with lock</li> </ul>
Integrated cable channels
Base socket for isolating transformer
LADADOSCODIC INSTRUMENT FOR CENERAL SUDCERV
LAPAROSCOPIC INSTRUMENT FOR GENERAL SURGERY
Trocar, size 10 mm, QTY 2
Consisting of: Trocar body 10mm
Traingular Obturator (10/110mm)
RING WITH INSUFFL.STOPCOCK D:10MM
KING WITH INSUFFL.STOPCOCK D. IOWIW
Trocar, size 5.5 mm, QTY 2
Consisting of:
Trocar Body 5.5mm
Traingular Obturator (5/110mm)
RING WITH INSUFFL.STOPCOCK D:5.5MM
Maryland Dissecting Forceps, rotating, with
connector pin for unipolar coagulation, size 5 mm, length 31cm or equivalent,
double action jaws,
Consisting of:
Forcep insert
Outer Tube, insulated
Plastic Handle, without ratchet
Metzenbaum scissor, Bladdes Curved, rotating, with
connector pin for unipolar coagulation, size 5 mm, length 31cm or equivalent,
Consisting of:

Forcep insert
Outer Tube, insulated
Plastic Handle, Without Ratchet
Johan Forcep
connector pin for unipolar coagulation, size 5 mm, length 31cm or equivalent,
single action jaws,
Consisting of:
-
Forcep insert
Outer Tube, insulated
Plastic Handle, universal
Callbladden balding fangen
Gallbladder holding forcep
connector pin for unipolar coagulation, size 5 mm, length 31cm or equivalent,
Single action jaws,
Consisting of:
Forcep insert
Outer Tube, insulated
Plastic Handle, with ratchet
Bowel grasper
connector pin for unipolar coagulation, size 5 mm, length 31cm or equivalent,
double action jaws,
-
Consisting of:
Forcep insert
Outer Tube, insulated
Plastic Handle, without ratchet
Tooth graspors 2 x 4 tooth rotating with
Tooth graspers 2 x 4 teeth, rotating, with
connector pin for unipolar coagulation, size 5 mm, length 31cm equivalent,
Consisting of:
Forcep insert
Outer Tube, insulated
Plastic Handle, with ratched
Medium Large Clip Applicator, 5mm/310mm or equivalent
NEEDLE HOLDED LEET CUDVED 5MM 210MM or aminutant
NEEDLE HOLDER LEFT CURVED 5MM 310MM or equivalent
CLAW Grasping Forceps, rotating, with
connector pin for unipolar coagulation, size 10 mm, length 31cm or equivalent,
Single action jaws,
Consisting of:
Forcep insert
Outer Tube, insulated
Plastic Handle, with ratchet

		2. X-Ray Generator:		
		-	mieroprosess	r-controlled, high-frequency generator
			-	
		• Power output:	5 kW or better	
		• kV Range:		V or better (adjustable in 1 kV increment)
		• mAS Range:		mAs or better
		• Exposure Modes:	Automatic or	Manual
		3. X-Ray Tube:		
		Mammography X-ray t     (Molybdenum/Tungste		ual-focus rotating-anode tube

	• Mammography X-ray tube unit with	rotating anode
	• Focal spot:	0.1 / 0.3 or better
	• Anode Heat Storage Capacity:	300 kHU or more
	• Anode speed:	As per OEM
	Nominal Voltage:	As per OEM
	• Optical Anode Angle:	As per OEM
4.	Flat Panel Detector(From same manuf	acturer)
	• An integrated Flat Panel Detector	
	• Latest detector technology with Am	orphous Selenium (aSe)/CSi or equally
	advanced material	
	• Detector size: 24 cm x 29 cm or n	nore
	• Pixel size: 100 µm or less	
	• Digital Matrix 3840 x 3072 & 16	bit or better
5.	Acquisition WorkStation (Should be fr	rom same OEM):
		processing unit or equivalent and should be
	from original manufacturer worksta	tion.
	• RAM: 16 GB or n	
	• Hard Disk: 1 TB or mo	re for image data
	• TFT color display Screen size: 21	-
6.	Image Acquisition/Display/Processing:	
	Patient directory	
	• Image processing: Application-orie	nted for contrast/brightness, Edge
		ol, Noise reduction, Detection of breast
	border, electronic shuttering, magni	fication.
	• Text/graphic functions: Image orien	tation label, Image annotation and comment,
	Length and angle measurement, Int	eractive zoom and pan, Gray-scale inversion,
	Split screen function	
7.	Data Transfer and Documentation:	
	• DICOM interface for image data co	mmunication based on the DICOM 3
	standard: DICOM Storage (Send/Re	ceive), DICOM Query/Retrieve, DICOM
	Storage Commitment, DICOM Prin	
	• DVD / CD burner writing of images	
8.	Stereotactic Biopsy Unit: Quote option	
	• The biopsy unit should be automatic	- ·
		a hand box for controlling the needle
	· ·	e holder, a face shield to protect the patient
	from swivel arm movements, and ca	
	• The biopsy unit should simply slide	•
	automatically detected by the machi	
		n remote tube movements of the stereo pair
	acquisition controlled from the AW	
		ed on seated and recumbent patients
	• Biopsy volume vertical needle guida	
	• Should have three axes (x, y & z) in	
		w/o window for vertical needle guidance
	• Swivel range of X-ray unit during st	ereotactic exposure: $+15^{\circ}$ and $-15^{\circ}$ or better

		9. 3D TOMOSYNTHESIS: Quote OPT	IONAL if available
		• 3D volumes of the breast shall be c	lisplayed in individual slices
		Number of exposures during tomos	synthesis should not exceed 25 during a scan
		from various angles	
		Optimum depth resolution shall be	achieved with large angle range and short
		exposure time	
		Conventional and tomosynthesis ex	xposures shall be possible during the same
		examination	
		• Tube angulation:	$\pm 15^{\circ}$ or better
		• Scan time:	25 seconds or less
		• Number of projections:	As per OEM
		• Pixel size tomosynthesis:	100 µm or less
		• Display on AWS: Projections: Rec	constructed slices, Cine mode, Dose /
		projection, Dose / scan.	
		10. Standard Accessories with Mammog	raphy system (Sizes will be as per OEM)
		• Flexible compression plates: 18cm	$1 \times 24$ cm, $24$ cm $\times 29$ cm or more
		Mag Spot compression plate: 9 cm	a x 9 cm or more
		Wall Holder: Compression Plates	
		Compression foot/paddle	
		• Two magnifying glass / hand mirro	ors for viewing
		• Laser Printer: capable of printing 8	-
			acturer integrated with acquisition console for
		protection	
		Illuminators for viewing mammogram	rams
		• Memo pads 80 Qty.	
		UPS:	
		Compatible UPS should be supplie	ed
		Separate Cost: (Optional where required	
		Per square feet cost lead lining cos	
			and cable requirement etc. shall be responsibility
		of the bidder should be supplied/carried ou	
45.	Microsurgical	Optical carrier in swivable and tilta	able suspension
	System for	÷	wision equipped with electronic brakes
	Neurosurgery	Rotatable joint arms	
		Overhead clearance	
			ons via gross focus handles for all movements
		for neurosurgery with hand control	•
		Automatic balancing

		-	natic adjustment of light intensity for the
	1		national augustification of fight intensity for the

		selected working distance and magnification with automatic adaptation of
		luminous field, equipped with enhanced depth of field
		• Tiltable and retractable binocular tube 0 to 1800 with adjustment of inter
		pupillary distance, integrated switching of magnification / field of view and 3600
		rotation
		• Wide angle oculars 10X/12.5X with dioptric adjustment
		• Component for spine surgery with configuration identical to that of the main
		surgeon
		• Xenon light source 300W with integrated backup xenon lamp and automatic lamp
		changeover
		• Multi-function footswitch with joystick, waterproof, wireless with back up cable
		<ul> <li>One set of sterilizable caps</li> </ul>
		<ul> <li>Dust cover</li> </ul>
		• Operable on 220 V AC, 50 Hz
		Integrated beam splitter
		• Stereo co-observation attachment with three axis inclination and image erection,
		inclinable binocular tube 0 to 1800, wide angle oculars 10X/12.5X with dioptric
		adjustment
		• Video camera three chip full high definition (1080p) originally integrated in the
		optical head, integrated high-definition recorder with integrated 1 TB hard disc
		drive and USB port for recording on external media, integrated monitor.
		Provision to connect with external high-definition signal for display on integrated
		monitor
		• Navigation interface for compatibility with external navigation device.
46.	Mobile C-Arm (Flat	Surgical Mobile C-Arm with microprocessor controlled & High frequency, X-Ray
10.	Panel Detector)	Generator.
		Output Power: 4 KW or more
		<ul> <li>Radiography &amp; Fluoroscopy KV: 40-110 KV or better with 0.3-100 mAs or better</li> </ul>
		<ul> <li>Technique selector switch for Fluoro &amp; Rad. Mode Selection.</li> </ul>
		<ul> <li>Anatomical Programmed should be provided in radiography mode.</li> </ul>
		• Should have continuous fluoroscopy.
		• Should have boost mode mA range.
		• System should have ABC control.
		• System should have auto-Mode and Manual mode for user in fluoroscopy.
		• 9 x 9-inch or more Dynamic flat panel detector
		• Pixel Pitch : 100µm or less
		<ul> <li>Rotating Anode Double Focus x-ray tube 50 KHU or better</li> </ul>
		• Focal spot 0.5, 1.8 or less
		• 10 inch or more touch screen.
		• Live image on touch screen must be present
		• 2 No's medical grade TFT monitors on trolley, Size: 19 inch or better.
		SOFTWARE
		Software must be DICOM supported. Should have the facility to store 20,000 or better
		images and having last image hold, zoom, invert image, contrast adjustment, to export
		patient images to USB or CD/DVD and through PACS system, have the facility to show
		patient ID, name, gender, age, date and hospital name etc.
		<u>C-Arm movement</u>
		• Orbital rotation should have 120° or more.

		Motorized Vertical Up/Down 400 mm or more.
		<ul> <li>Wigwag + 10° or more</li> </ul>
		Power Requirement:
		• 220VAC, 50Hz
		Accessories for Protection:
		3 Apron lead thickness 0.5mm
		<ul> <li>3 Thyroid shield lead thickness 0.5mm</li> </ul>
		<ul> <li>3 Apron Hangers</li> </ul>
		<ul> <li>3 Goggles and Caps</li> </ul>
		USP:
		<ul> <li>Compatible online UPS for at least 15 minutes or more backup</li> </ul>
47.	Mobile C-Arm	Mobile C-Arm Image Intensifier with microprocessor controlled & High frequency, X-Ray
17.	(Image Intensifier)	Generator.
	(Intage Intensitier)	
		• Output Power: 4.5 KW or better Dadie gran have & Electron gran KV 40, 110 KV on better with 0.6 200m As on better
		• Radiography & Fluoroscopy KV: 40-110 KV or better with 0.6-200mAs or better
		Technique selector switch for Fluoro & Rad. Mode Selection.
		Anatomical Programmed should be provided in radiography mode.
		Should have Continuous Fluoroscopy.
		Boost mode option must be available.
		<ul> <li>System should have ABC control.</li> <li>System should have gute Mode and Manual mode for user in fluorescents.</li> </ul>
		<ul> <li>System should have auto-Mode and Manual mode for user in fluoroscopy.</li> <li>O inch Image Intensifier (brand model must be mentioned) N=0 inch. M1=6</li> </ul>
		• 9-inch Image Intensifier (brand model must be mentioned) N=9 inch, M1=6, M2=4.5
		<ul> <li>Digital CCD/CMOS Camera with 1Kx1K lines</li> </ul>
		<ul> <li>Stationary Anode Double/single Focus x-ray tube 50 KHU or better</li> </ul>
		<ul> <li>Focal spot 0.6, 1.8 or less</li> </ul>
		<ul> <li>10 inch or more touch screen</li> </ul>
		<ul> <li>Live image on touch screen must be present</li> </ul>
		<ul> <li>Metal detection software must be available.</li> </ul>
		<ul> <li>2 No's medical grade TFT monitors on trolley, Size: 19 inch or more.</li> </ul>
		DIGITAL IMAGE MEMORY SYSTEMS
		10000 images storage memory with last image hold, Recursive filter, Negative image &
		contrast enhancement. Facility Store image in pen drive
		Cassette holder tray for radiography     DIACOM should be manifed
		• DIACOM should be provided C-Arm movement
		Orbital rotation should have 120° or better.
		<ul> <li>Pivotal rotation +180° or better</li> <li>Horizontal travel 200mm or more</li> </ul>
		<ul> <li>Motorized Vertical Up/Down 400 mm or more.</li> <li>Wigwag + 10° or more</li> </ul>
		• Wigwag + 10 of more Power Requirement:
		*
		• 220VAC, 50Hz
		Accessories for Protection:
		• 3 Apron lead thickness 0.5mm
		• 3 Thyroid shield lead thickness 0.5mm
		• 3 Apron Hangers
		• 3 Goggles and Caps
48.	Mobile X-Ray	Mobile X-ray machine battery operated, and motor driven by the battery system general purpo
	plant 300	mobile x-ray unit for radiography.
L	1	

	mA/125KV AC	X-Ray Generator		
	& Battery	• KV Range: 40kv to 125 kV in 01 kV Steps.		
	Operated	• mA Range: Max. 300mA or better		
	1	• mAs range: 1 mAs to 300mAs or better		
		• 30KW or better		
		• Preset anatomical programs (APR) available for different parts of body.		
		• Number of exposures which can be done on fully charged battery should		
		be greater than 80.		
		X-Ray Tube Unit		
		Rotating anode: Single / Double focus		
		• Focus Size: 0.7&1.3 mm or better on either side.		
		• Anode heat storage capacity : 100 KHU or better		
		X-Ray Beam Limiting Device Projector Lamp: Halogen/LED		
		• Filtration: 1.2mm Aluminum or better.		
		Colum adjustment facility available		
		Collimator rotation available		
		<ul> <li>Independent battery system for exposure and movement</li> </ul>		
		• Transportationmode		
		• Examinationmode		
		Big wheel for easy movement		
		Brakes for control of movement		
		• Input voltage 100-220VAC, 50Hz		
		<ul> <li>Cassette Box: For Storage of at least 3 Cassettes</li> </ul>		
		<ul> <li>2 No's lead Apron thickness 0.5mm</li> </ul>		
49.	Nasopharyngoscope	Flexible Naso-pharyngo-laryngoscope for universal application, Immersible.		
	with suction	• Outer dia: 3.6mm or less		
		• Working length: 300mm to 400mm,		
		• Total Length: 545mm or better		
		• Deflection up/down: 130°/130°		
		• Depth of Focus: 5mm to 50 mm,		
		• Field of view: 75° -85° or better		
		Complete with compatible light source and fiber optic cable.		
		VIDEO SYSTEM		
		• HD Camera Head compatible with scope, image processor having capability of		
		image storage and transfer in USB etc Medical Grade monitor having display size		
		21 inch or more should be mounted on trolley.		
		• Voltage source : 220 Vac		
50.	Neurosurgical Drill	High Speed Electric Control Unit / Touch Screen with Irrigation Pump (One or		
	System	more motor output)		
		Console must have one irrigation pumps		
		Main Cable 5m Long		
		Pedal Foot Control		
		High Speed Motor minimum 75 thousand Rpm or better for All Handpieces		
		Motor Cable of Approximately of 5m		
		Craniotomy Handpiece built-in / separate dura guard medium		
		Angle Hand Piece Small of 7cm		
		Straight Hand Piece Medium of 10cm		
		Cranial Perforator Hudson Chuck Driver Max Speed 1000rpm or better		
		Cranial Perforator 6/9 Mm Hudson Shank		
		Cranial Perforator 7/11 Mm Hudson Shank		
		Craniotome Cutters Medium		

		• Cutting Burrs (1 each of 4,5,6mm)
		<ul> <li>Diamond Burr (1 each of 4,5,6mm)</li> </ul>
		Sterilization Container System:
		Sterilization Container as Per OEM Standard
51.	Operating	• Inclinable binocular tube with converging optics
	Microscope for	• Paired eye pieces 10xs/12.5 xs
	ophthalmology	• Adjustable / continually motorized zoom.
	opininalinology	• Motorized fine focusing with foot control.
		• Objective f=175mm viewing with XY and centration
		• LED illumination system with variable light intensity control.
		• UV filter, cobalt blue, and green filters.
		• Mobile floor stands with manual height adjustment through counter balanced
		arm.
52.	Otologic Low speed	Technical Specification for Otologic Low Speed Drill Hand piece:
	Drill	• Speed: 2000-12000 rpm or more forward/reverse Duty Cycle for Applied Part
		Continuous run
		• Size: 17-18cm length x 1.5-1.7 cm diameter
		Technical Specification for Console:
		Computerized Micro-Processor Controlled, Electric Console Unit with touch screen
		/ Touchpad and irrigation pumps and motor outputs. Integrated irrigation system
		with suction tubing system and also having an integration feature with Intra
		Operative Nerve Monitor.
		• Basic Features:
		• Connect multiple hand pieces at once such as Saw, Shaver, and Different drill hand
		<ul><li>piece.</li><li>Low Noise</li></ul>
		<ul> <li>Low Noise</li> <li>Accessories:</li> </ul>
		<ul> <li>Accessories.</li> <li>Instrument Tray</li> </ul>
		<ul> <li>Footswitch:</li> </ul>
		<ul> <li>Single paddle Multifunctional, Forward &amp; Reverse Mode with Variable Speed</li> </ul>
		Control.
		Disposables:
		<ul> <li>Different type of Diamond Burs.</li> </ul>
53.	Phacoemulsification	• Gravity fed fluid delivery; eye pressure determined by height of irrigation source.
	Machine	<ul> <li>Solenoid valving element.</li> </ul>
	wideline	Suction:
		• Peristaltic aspiration pump with reusable tubing sets.
		• 5 to 500 mg Hg vacuum range or better
		• Flow rate from 2 to 50 cc/min or more.
		• 25 levels of rise time in U/S mode from 0.5 to 12 seconds or better.
		Phacoemulsification:
		• Piezoelectric crystal / Normal standardized handpiece with approx. 40 kHz or
		better
		• Panel or linear control of U / S power with system footswitch.
		• Single burst, multiple burst & continuous burst modes.
		Phaco handpiece light weight
		• Capability of wide range of phaco tips & sleeves.
		Vitrectomy:
		• Adjustable cutting speed from 60 to 700 cuts per minute or more.
		• Single mode cut available.
		• Vitrectomy guillotine cutter.
		Diathermy:

			1000/	
		Adjustable bipolar power from 5 to		
		• Linear control with system footswitch.		
		Consisting of:		
		Phaco console.	01	
		20Ga Phaco tip, 30o / straigh	tt / kelvin 04	
		Silicone sleeve 20G	05	
		Phaco tip wrench	02	
		Re-useable I/A tubing set	02	
		Test chamber	05	
		Disposable drainage bag	10	
		Diathermy bipolar cable	01	
		Diathermy forceps 01		
		Sterilization tray 02		
		Double linear footswitch	01	
		Re-useable phaco handpiece	01	
		Anterior Vitrectomy Cutters	10	
		Pneumatically powered guill	otine cutter re-usable 01	
54.	Portable Respiratory	Bedside capnography monitoring		
	Monitor	• 6 inch or more TFT display		
		Measurement Ranges		
		• EtCO2, FiCO3: 1-150 mmHg		
		• Respiration Rate: 1bpm -150 bpm		
		• Flow rate: 50 ml / min (volume)		
		• SpO2: 0-100%		
		• Pulse rate: 20-250 BPM		
		• With Alarm system		
		• Lithium-Ion battery with 2 hour or r		
		With standard accessories for all part	rameters	
55.	Sigmoidoscope	Features of Sigmoidoscope:		
	with universal	Specifications and Qualifications:		
	lighting	• Angle of view field:	$100^{\circ}$ or more	
		• Diameter of Distal End:	ø13mm or less	
		• Diameter of Insertion Tube:	ø12.8mm or less	
		• Range of Tip Bending:	180 °U,	
			180°D,	
			160 °R,	
			160 °L	
		• Depth of View:	3-100mm or more	
		• Diameter of Instrument Channel:	ø3.2mm or more	
		• Working Length:	750mm to 950mm or better	
		• Working distance:	56mm or more	
		Light Source:		
		<ul> <li>Along with compatible light source (Xenon/LED) power (from the same manufacturer).</li> </ul>		
		<ul> <li>Power voltage and frequency ~ 220V/50HZ</li> </ul>		
		<ul> <li>Power voltage and frequency ~ 220V/S0HZ</li> <li>Air pump: 0.03MPa= Pressure=0.06Mpa;</li> </ul>		
		Video System:	<u>F</u> ,	
			ope, image processor having capability of	
		-	e Medical Grade monitor having display size	

56.	Sinus Endoscopy set	• Flexible Sino scope for universa	al application also in pediatric, immersible		
	with proof puncture	<ul> <li>Outer Dia, 3.5mm.</li> </ul>	a approaction also in pediatro, minicipiore		
	needles	• WL400mm or better.			
	liceules	• Total Length 650 mm.			
		<ul> <li>Dia of Flexible Section 3.6 mm.</li> </ul>			
		<ul> <li>Deflection up/down 180°/90°</li> </ul>			
		<ul> <li>Depth of Focus 3-50 mm</li> </ul>			
		• Instrument Channel 1.1 mm Dia.			
		• With proof puncture needles.			
		~ • •	• With compatible light source (From same manufacturer) and fiber optic cable.		
		Video System			
			vith scope, image processor having capability of		
			SB etc Medical Grade monitor having display size		
		21 inch or more should be moun	nted on trolley.		
57.	Slit Lamp with	Binocular Microscope.			
	Attached	• With Applanation Tonometer.			
	Applanation	• Magnification Changer:	2 steps.		
	Tonometer	• Total magnification range:	x10 to x16 or better.		
		• Papillary Adjustment:	50-80mm or better.		
		• Diopter Adjustment:	$\pm$ /-5D or better		
		• Light source:	LED		
		• Lenses	78D, 90D		
		<u>Slit illumination:</u>			
		• Slit Width:	0-10 mm or more.		
		• Aperture Diameter:	0, 3, 6, 5, 10 mm.		
		• Slit Length:	0-10mm.		
		• Slit Rotation:	±/-900.		
		Base movement as per manufacture design:			
		Vertical Movement:			
		Longitudinal Movement			
		Lateral Movement			
		• Fine Base Movement.			
		Chin rest:			
		Vertical Movement			
		<ul> <li>Vertical Movement</li> <li>Local motorized table.</li> </ul>			
58.	Transport /	Transport / Portable Ventilator for Ambulance:

		• Power Supply: 220 VAC, 50Hz	
		Standard Configurations:	
		Main Unit	
		• 3 active Probe Connector.	
		Tissue Harmonic Imaging.	
		• 256-Frame Cine Loop In B, B/B,M& B/M Mood	
		• USB Ports minimum 2.	
		Measurement and Calculation Software Packages	
		• Electronic Convex Array Transducer. (Model must be mentioned).2.5/3.5/5.0 MHz.	
		• Electronic Linear Array Transducer: (Model must be mentioned) 5.0/7.5/10	
		MHz. Thermal Printer (Prended, model and make must be mentioned)	
		• Thermal Printer (Branded, model and make must be mentioned)	
		• 50 Roles Thermal Paper.	
		<ul> <li>With built in/external UPS system for minimum 1 hour backup.</li> <li>Ultrasound Gel 20Ltr</li> </ul>	
		• With built in mounted trolley.	
61	Tourse tours	Note: TVS probe price should quoted separately (optional)	
61.	Temperature	General Description:	
	Management	• The system is used to maintain the temperature of a patient for any medical procedure or condition e.g., post-CPR, Heat stroke, High-grade fever control,	
	System	burn/trauma or fragile skin patients, long neuro surgeries, therapeutic hypothermia,	
		etc. through intra-vascular catheter/probe.	
		Physical and Technical Characteristics.	
		• The system shall be able to:	
		<ul> <li>Automatically maintain target temperature within + 0.2 C.</li> </ul>	
		<ul> <li>Have multifunction catheters double as a central venous catheter (CVC).</li> </ul>	
		<ul> <li>Have multifunction catheters double as a central venous catheter (CVC).</li> <li>Have Real-time temperature display, storage, and download.</li> </ul>	
		• Have Real-time temperature display, storage, and download. Chiller and Heater:	
		The liquid used must be antibacterial	
		Reservoir Volume: 2 liters or more	
		• Temperature Range: $0 \text{ oC} - 42 \text{ oC}$ or better	
		<ul> <li>Refrigerant:</li> <li>Refrigerant:</li> <li>HFC 134a or equivalent (EPA certified)</li> </ul>	
		Controller and Display:	
		• Screen Display: 6.4 in or more (16.25 cm) LCD, color VGA	
		• Displayed Temperature $26 \text{ oC} - 42 \text{ oC}$ or better	
		Range:	
		Approved Patient Temperature probe.	
		Temperature Probe Standard: YSI-400 or equivalent	
		Power Requirement:	
		• System should be operable at 220 Vac + 10%, 50Hz.	
		Complete equipment should have protection against electric shock and voltage	
		fluctuation.	
		Accessories:	
		• All standard accessories should be provided with the system.	
		UPS for backup	
62.	Tissue Fusion	• Advance Bipolar seal and cut technology can be used in general surgery, Gyne,	
	and Vessel	urology and thoracic surgery.	
	Sealing System	• Sealing time from 2 to 4 sec or better.	
		• Uniform tissue compression distal to proximal for better sealing.	
		• Tip first closer for retain tissues within the jaws for improved compression.	
		Jaw to allow simplified navigation in challenging anatomy.	

		<ul> <li>Including items;</li> </ul>	
		Including items:-     Generator	
		5mm Instrument with for Laparoscopy (Reusable and Autoc	lavable) Qty 2
		5mm Maryland instrument without articulating jaw for Lapa	· · ·
		Autoclavable)	A • ·
			Qty 2
		5mm instrument for open surgery (Reusable and Autoclavab	ole) Qty 2
		Foot switch	
		Power cord	
		Imported Trolley with wire basket	
63.	Vital Sign Monitor	Dedicated Vital Sign Monitor with mobile floor mounted stand and h	older for accessories
		(ECG, SpO2, NIBP, TEMP, Resp.)	
		• Display for easy Viewing 5.6 or more color TFT/LCD/ LEI	D for easy set-up (with
		all parameters display).	
		PERFORMANCE:	
		<u>Respiration</u>	
		• Respiration rate: 2~150bpm or better on either side.	
		<u>SPO2:</u>	
		• Range: 30 ~ 100% or better on either side	
		• Neonate and adult probe.	
		Temperature:	
		• Range; $0-45C(32-113F)$ or better	
		NIBP:	
		• Range; 15-260 mmHg ( ± 10mmH)	
		GENERAL:	
		Alarm: All parameters on/off selective independently     Device input 220VAC 50Uz	
		<ul><li>Power input 220VAC,50Hz</li><li>With Battery Backup time: Minimum 04 hours or better</li></ul>	
		ACCESSORIES:	
		• SPO2 Finger sensor with fixed or detachable extension (ea	ich for adult. Peads and
		<b>C</b>	Each
		e	Each
		• Temperature sensor & cable 01	
		• AC power code 01	
64.	Digital	HIGH FREQUENCY X-RAY MACHINE 500 MA (RADIOGRAPH	HY ONLY)
	Radiography	<ul> <li>Input power: 3φ, 380 - 440v, 50 Hz,</li> </ul>	
	System	X-RAY unit Comprising of following.	
		• High Frequency X-Ray Generator 500mA /150 KV / 65 KW	
		• 4 Way Floating top Bucky table Floor to ceiling or free-stand	ding Tube stand.
		X-ray tube head with;	
		• Focal spot Size 0.6 x 1.2 mm or better on either side	
		• 300 KHU or more.	
		Manual / Motorized Collimator.	
		• Pair of H.T cable	
		• Bucky wall stand.	
		X-RAY GENERATOR RAD TYPE, 01 TUBE SYSTEM	
		<ul> <li>Microprocessor controlled High frequency.</li> <li>Derver (5 bW or better</li> </ul>	
		• Power: 65 kW or better.	
		• kV Range: 40 - 150kV	
		<ul> <li>mA Range: 10 -500mA</li> <li>Minimum exposure time: 1 milli second or less</li> </ul>	
		Minimum exposure time: 1 milli second or less	

• Exposure time range: 1ms – 8.0 sec or more
• mAs Range: 02 - 500mAs or more
Anatomical Programming: 100 or more.
• Digital display of parameters.
Hand Switch for Radiography.
• With control console.
Pedestal/wall mounted control console.
Automatic main line compensation.
ROTATING ANODE, DOUBLE FOCUS XRAY TUBE (model must be mentioned)
• Small Focus: 0.6 x 0.6 mm or Less.
• Large Focus: 1.2 x 1.2 mm or Less.
• Tube voltage: 150kV.
• Anode heat storage capacity: 300 KHU or more.
X-RAY TABLE (model must be mentioned)
• Four-way floating top
Oscillating Grid Ratio 8:1 or better
COLUMNSTAND WITH COLLIMATOR (model must be mentioned)
Column stands with electromagnetic brakes for movement control.
HIGH TENSION CABLES:
• Pair of High-Tension Cables, each 12 m or more long
WALL BUCKY STAND (model must be mentioned)
• Vertical Travel, up and down with balancing system & Electromagnetic Brakes
Oscillating Grid Ratio 8:1 or better
FLAT PANEL DETECTORS
Two (02) Flat panel detectors (one of x-ray table and one for wall stand) with acquisition
software and dry film printer Flat panel detectors (model and make must be mentioned)
• Pixel size of 140 Microns or better.
• The size (active area) of the Flat panel Detectors should be at least 17 x 17 inch.
• Image's pre-viewing should be available in about less than 3secs after exposure and
the cycle time should be less than 10 seconds.
• KV rang 40 ~ 150kVp
AED Mode should be present
• The detector should be able to work at normal room temperature and humidity.
• The detector system should not require frequent calibrations on daily start-up
IMAGE ACQUISITION IMAGE PROCESSING
IMAGE ACQUISITION IMAGE PROCESSING software.
• 19-inch or better medical grade TFT monitor with high resolution 1Kx1K or better
Brightness: 300 Cd/m2 or better Contrast Ratio: 2000:1 or better With Brightness
stabilization
• The software has capability to support 4 detectors or more
• Image saving in CD/DVD and DICOM format should be possible.
• Multi core processor (core i7, 3.4Hz) bit processing 64 Bits, Cache 8MB, special
graphic card for medical grade monitor installed in CPU. RAM not less than 4GB
and should have image storage disk of at least 1TB internally
• The system should have ready DICOM interface and networking capability with
PACS.
<ul> <li>Post processing function must be available. Measurement Tools, Window Level,</li> <li>Potete Report / Paieet Magnify Zoom Images eleboration with examination</li> </ul>
Rotate, Repeat / Reject, Magnify, Zoom, Images elaboration with examination specific algorithms
sporte argonanis

		Filming options should be available	
		• Power Supply – 220V, 50Hz.	
		• Dry film printer with at least 2 online film trays, for printing the digital images	
		(Model and brand must be mentioned)	
		• Electrification, cooling requirement, and cable requirement etc. shall be	
		responsibility of the bidder.	
		Separate Cost: (Optional where required but shall be quoted):	
		Per square feet cost lead lining cost shall be quoted.	
65.	X Ray Plant	HIGH FREQUENCY X-RAY MACHINE 500 MA (RADIOGRAPHY ONLY)	
	500mA (3-Phase)	<ul> <li>Input power: 3φ, 380 - 440v, 50 Hz,</li> </ul>	
		X-RAY unit Comprising of following.	
		<ul> <li>High Frequency X-Ray Generator 500mA /150 KV / 40 KW or better.</li> </ul>	
		• 4 Way Floating top Bucky table Floor to ceiling or free-standing Tube stand.	
		X-ray tube head with;	
		• Focal spot Size 0.6 x 1.2 mm or better on either side	
		• 300 KHU or more.	
		Manual Collimator.	
		• Pair of H.T cable	
		• Bucky wall stand.	
		X-RAY GENERATOR RAD TYPE, 01 TUBE SYSTEM	
		Microprocessor controlled High frequency.	
		• Power: 40 kW or better.	
		• kV Range: 40 - 150kV	
		• mA Range: 10 -500mA	
		Minimum exposure time: 1 milli second or less	
		• Exposure time range: 1ms – 8.0 sec or more	
		• mAs Range: 02 - 500mAs or more	
		Anatomical Programming: 100 or more.	
		• Digital display of parameters. • Hand Switch for Radiography. • With control	
		console.	
		Pedestal/wall mounted control console.	
		Automatic main line compensation.	
		ROTATING ANODE, DOUBLE FOCUS XRAY TUBE (model must be mentioned)	
		• Small Focus: 0.6 x 0.6 mm or Less.	
		• Large Focus: 1.2 x 1.2 mm or Less.	
		• Tube voltage: 150kV.	
		Anode heat storage capacity: 300 KHU or more.	
		FOUR WAY FLOATING TOP BUCKY TABLE (model must be mentioned)	
		• Four-way floating top.	
		Oscillating Grid Ratio 8:1 or better	
		• Cassette Tray to accommodate cassettes up to 14x17inch.	
		• Electromagnetic Brakes.	
		• Grid ratio 8:1 or better	
		COLUMNSTAND WITH MANUALCOLLIMATOR (model must be mentioned)	
		Column stands with electromagnetic brakes for movement control.	
		Manual Collimator	
		HIGH TENSION CABLES:	
		• Pair of High-Tension Cables, each 12 m or more long	
		WALL BUCKY STAND (model must be mentioned)	
		• Vertical Travel, up and down with balancing system & Electromagnetic Brakes	
		<ul> <li>Oscillating Grid Ratio 8:1 or better</li> </ul>	

		Cassette Tray to accommodate cassettes up to 14x17 inch	
66.	X-Ray Plant	FREQUENCY X-RAY MACHINE 300 MA (RADIOGRAPHY ONLY) with Inbuilt or	
	300mA in built or	external AVR and UPS, in case of external AVR the model /brand /make of the main x ray	
	external AVR and	unit and each quoted component must be mentioned.	
	UPS	• The AVR must be able to control the voltage between 100VAC to 260VAC, to provide constant output voltage of 220VAC 50Hz.	
		<ul> <li>In case of external AVR and UPS system the AVR/UPS system shall be compatible with the x ray unit for minimum of 70 to 100 exposes on different KV and mA. (Compatibility certificate from the supplier must be provided).</li> <li>AVR and UPS maximum power, brand model must be mentioned.</li> </ul>	
		• With over and under current, voltage and heat protection.	
		X-RAY unit Comprising of following: -	
		• High Frequency X-Ray Generator 300 mA /125 KV / 25 KW or better.	
		<ul> <li>With inbuilt /external AVR and UPS system minimum 70 to 100 exposures or</li> </ul>	
		better.	
		<ul> <li>4 Way Floating top Bucky table Floor to ceiling or free-standing Tube stand.</li> </ul>	
		X-ray tube head with:	
		• Focal spot Size 0.6 x 1.2 mm or better on either side

Twist Lock quick change attachment</li> <li>Progressive Trigger Action</li> <li>Cannulations up to 4 or more</li> <li>Chuck with Key</li> <li>Attachment ¼ Jacobs Chuck Size ¼ (4 to 6.35mm)</li> <li>Fully Cannulated up to 4 or more</li> <li>Maximum Speed 900 more</li> <li>Attachment 4.00 mm Jacob Chuck Size 5/32 (4.0mm)</li> <li>Fully Cannulated</li> <li>Quick Coupling Chuck</li> <li>AO Small attachment Stainless Steel</li> <li>AO Small attachment Stainless Steel</li> <li>Cannulations 2 to 3.5mm</li> <li>Hudson Reamer Attachment Stainless Steel</li> <li>4.0 mm or better Cannulations</li> <li>5:1 Hudson Reamer Attachment Stainless Steel</li> <li>4.0 mm or better Cannulations</li> <li>5:1 Large AO Reamer Attachment Stainless Steel</li> <li>4.0 mm or better Cannulations</li> <li>5:1 Reamer attachment</li> <li>Wire Driver</li> <li>Wire Driver Attachment</li> <li>Maximum Speed 900 to 12500 rpm or better</li> <li>Pin Driver</li> <li>Pin driver attachment</li> <li>Maximum Speed 1250 rpm or more</li> <li>Pneumatic Oscillating Saw</li> <li>Operate-able in different positions.</li> <li>Speed Variable 0-14000 rpm or better</li> <li>Blade Oscillation Arc 4degree</li> <li>Saw Blade for Oscillating</li> <li>St OscilBlade 71mm x 33mm x1.2, Box of 5</li> <li>St OscilBlade 71mm x 33mm x1.2, mm, Box of 5</li> </ul>			

		• Leg Bone Osc Blade 12.5x73.8 x 63,1.06mm, Box of 5
		• St OscilBlade 19.5mm x 86mm x 0.8mm, Box of 5
		• St OscilBlade 8.5mm x 38mm x 0.4mm, Box of 5
		• St OscilBlade 25.4 x 90 x 1.27mm sterile, Box of 5
		• Leg Bone Osc Blade 9.5 x 30 x 0.64, 0.84mm, Box of 5
		• Universal House,10
		Nitrogen Regulator Single Connection
		• Can be operated at forward and reverse mode.
		• Size 6mm to19mm
		• Individual complete reversible with tip and solid shaft
		• T-handle for hand reaming
		Sterilization container
		Complete with Air hose connector, cylinder (Full Size) and pressure regulator.
3.	Arterial Blood Gas	Microprocessor control light weight portable machine
5.	Analyzer (POCT)	<ul> <li>Test category: pH, pO<sub>2</sub>, pCO<sub>2</sub>, Na, K, Ca, Glu, Lac, Hct</li> </ul>
	Allalyzer (FOCT)	<ul> <li>Easy to operate.</li> </ul>
		<ul> <li>Measuring time should be less than 15 minutes or better</li> </ul>
		<ul> <li>Sample type: whole blood</li> </ul>
		<ul> <li>Patient data storage facility</li> </ul>
		<ul> <li>With battery backup of more than 2 hour or better</li> </ul>
		<ul> <li>Capable to show result on screen</li> </ul>
4.	Autoclave Automatic	<ul> <li>Minimum 8 or more sterilization cycles (Vacuumization, Heating,</li> </ul>
т.	100 Liters	Sterilization, Exhaust and Drying), For (a) wrapped as well as unwrapped
	100 Liters	instruments, (b) flash sterilization, open, packed.
		<ul> <li>5 inch or more display.</li> </ul>
		<ul> <li>Single door, high pressure, high vacuum autoclave for sterilizing hospital,</li> </ul>
		materials.
		<ul> <li>The closing, locking, and opening of the door should be automatic having</li> </ul>
		motorized button-controlled door without any lever.
		• With Printer
		• Electrically operated with inbuilt electric steam generator
		• System should be operated with a high vacuum pump.
		• Chamber should be made of stainless steel or better material.
		Water level indicator
		Internal Chamber Capacity: 100 liters or more
		• Sterilization Temperature Range: 121°C to 134°C or more
		• Maximum Chamber pressure: 2 bar or more
		Chamber Temperature and pressure gauges/display
		• Cycles run countdown function.
		• Autoclave should be properly equipped with door safety locks & safety valves
		for chamber.
		• With integral alarm system when temperature set-points are exceeded or fallen
		below.
		• With Pressure safety valve, over-temperature limiter, over pressure limiter
		Low water protection with audio visual indicator
		• Autoclave should execute Vacuum test, Bowie & Dick test or more.
		• Should be supplied with compatible RO plant, with imported parts.
		• Accessories:
		Basket 02 Nos
		Trays 10 Nos
		All necessary work including plumbing and electrical work will have to be done
L	1	

		by the supplier. The hospital will only provide space and water outlet.
5.	Autoclave Automatic 150 Liters	<ul> <li>by the supplier. The hospital will only provide space and water outlet.</li> <li>Minimum 8 or more sterilization cycles (Vacuumization, Heating, Sterilization, Exhaust and Drying), For (a) wrapped as well as unwrapped instruments, (b) flash sterilization, open, packed.</li> <li>5 inch or more display.</li> <li>Single door, high pressure, high vacuum autoclave for sterilizing hospital, materials.</li> <li>The closing, locking and opening of the door should be automatic having motorized button-controlled door, without any lever.</li> <li>With Printer</li> <li>Electrically operated with inbuilt electric steam generator</li> <li>System should be operated with a high vacuum pump.</li> <li>Chamber should be made of stainless steel or better material.</li> <li>Water level indicator</li> <li>Internal Chamber Capacity: 150 liters or more</li> <li>Sterilization Temperature Range: 121°C to 134°C or more</li> <li>Maximum Chamber pressure: 2 bar or more</li> <li>Chamber Temperature and pressure gauges/display</li> <li>Cycles run countdown function.</li> <li>Autoclave should be properly equipped with door safety locks &amp; safety valves for chamber.</li> <li>With Integral alarm system when temperature set-points are exceeded or fallen below.</li> <li>With Pressure safety valve, over-temperature limiter, over pressure limiter</li> <li>Low water protection with audio visual indicator</li> <li>Autoclave should execute Vacuum test, Bowie &amp; Dick test or more.</li> <li>Should be supplied with compatible RO plant, with imported parts.</li> <li>Accessories:     Basket 02 Nos     Trays 10 Nos</li> </ul>
		by the supplier. The hospital will only provide space and water outlet.
6.	Autoclave Automatic 200 Liters	<ul> <li>Wine suppler. The hospital will only provide space and water outlet.</li> <li>Minimum 8 or more sterilization cycles (Vacuumization, Heating, Sterilization, Exhaust and Drying), For (a) wrapped as well as unwrapped instruments, (b) flash sterilization, open, packed.</li> <li>5 inch or more display.</li> <li>Single door, high pressure, high vacuum autoclave for sterilizing hospital, materials.</li> <li>The closing, locking and opening of the door should be automatic having motorized button-controlled door, without any lever.</li> <li>With Printer</li> <li>Electrically operated with inbuilt electric steam generator</li> <li>System should be operated with a high vacuum pump.</li> <li>Chamber should be made of stainless steel or better material.</li> <li>Water level indicator</li> <li>Internal Chamber Capacity: 200 liters or more</li> <li>Sterilization Temperature Range: 121°C to 134°C or more</li> <li>Maximum Chamber pressure: 2 bars or more</li> <li>Chamber Temperature and pressure gauges/display</li> <li>Cycles run countdown function.</li> <li>Autoclave should be properly equipped with door safety locks &amp; safety valves for chamber.</li> </ul>

		• With integral alarm system when temperature set-points are exceeded or fallen below.
		• With Pressure safety valve, over-temperature limiter, over pressure limiter
		Low water protection with audio visual indicator
		• Autoclave should execute Vacuum test, Bowie & Dick test or More.
		• Should be supplied with compatible RO plant of, with imported parts.
		• Accessories:
		Basket 02 Nos
		Trays 10 Nos
		All necessary work including plumbing and electrical work will have to be done
		by the supplier. The hospital will only provide space and water outlet.
7.	Autoclave Automatic	Minimum 8 or more sterilization cycles (Vacuumization, Heating,
	100 Liters Sliding	Sterilization, Exhaust and Drying), For (a) wrapped as well as unwrapped
	door	instruments, (b) flash sterilization, open, packed.
	4001	• Single door, high pressure, high vacuum autoclave for sterilizing hospital,
		materials.
		Having fully automated Sliding door.
		• With Printer
		Electrically operated with inbuilt electric steam generator
		• System should be operated with a high vacuum pump.
		• Chamber should be made of stainless steel or better material.
		• 5 inches or more touch screen showing working process parameters, easy
		control and operation.
		Water level indicator
		Internal Chamber Capacity: 100 liters or more
		• Sterilization Temperature Range: 121°C to 134°C or more
		Maximum Chamber pressure: 2 bar or more
		Chamber Temperature and pressure gauges/display
		Cycles run countdown function.
		• Autoclave should be properly equipped with door safety locks & safety valves for chamber.
		• With integral alarm system when temperature set-points are exceeded or fallen
		below.
		• With Pressure safety valve, over-temperature limiter, over pressure limiter
		Low water protection with audio visual indicator
		• Autoclave should execute Vacuum test, Bowie & Dick test or more.
		• Should be supplied with compatible plant, with imported parts.
		Accessories:
		Basket 02 Nos
		Trays 10 Nos
		All necessary work including plumbing and electrical work will have to be done
		by the supplier. The hospital will only provide space and water outlet.
8.	Autoclave Automatic	• Minimum 8 or more sterilization cycles (Vacuumization, Heating,
	150 Liters Sliding	Sterilization, Exhaust and Drying), For (a) wrapped as well as unwrapped
	door	instruments, (b) flash sterilization, open, packed.
		• Single door, high pressure, high vacuum autoclave for sterilizing hospital,
		materials.
		Having fully automated Sliding door.
		With Printer     Electrically operated with inbuilt cleatric steam generator
		<ul> <li>Electrically operated with inbuilt electric steam generator</li> <li>System should be operated with a high vacuum pump</li> </ul>
		<ul> <li>System should be operated with a high vacuum pump.</li> <li>Chamber should be made of stainless steel or better material.</li> </ul>
		Chamber should be made of stanliess steer of better material.

9.	Autoclave Automatic 200 Liters Sliding door	<ul> <li>5 inches or more touch screen showing working process parameters, easy control and operation.</li> <li>Water level indicator</li> <li>Internal Chamber Capacity: 150 liters or more</li> <li>Sterilization Temperature Range: 121°C to 134°C or more</li> <li>Maximum Chamber pressure: 2 bar or more</li> <li>Chamber Temperature and pressure gauges/display</li> <li>Cycles run countdown function.</li> <li>Autoclave should be properly equipped with door safety locks &amp; safety valves for chamber.</li> <li>With integral alarm system when temperature set-points are exceeded or fallen below.</li> <li>With Pressure safety valve, over-temperature limiter, over pressure limiter</li> <li>Low water protection with audio visual indicator</li> <li>Autoclave should execute Vacuum test, Bowie &amp; Dick test or more</li> <li>Should be supplied with compatible RO plant, with imported parts.</li> <li>Accessories:</li> <li>Basket 02 Nos</li> <li>Trays 10 Nos</li> <li>All neccessary work including plumbing and electrical work will have to be done by the supplier. The hospital will only provide space and water outlet.</li> <li>Minimum 8 or more sterilization cycles (Vacuumization, Heating, Sterilization, Exhaust and Drying), For (a) wrapped as well as unwrapped instruments, (b) flash sterilization cycles (Vacuumization, Heating, Sterilization, Exhaust and Drying), For (a) wrapped as well as unwrapped instruments, (b) gressure, high vacuum autoclave for sterilizing hospital, materials.</li> <li>Having fully automated Sliding door.</li> <li>With Printer</li> <li>Electrically operated with inbuilt electric steam generator</li> <li>System should be made of stainless steel or better material.</li> <li>S inches or more touch screen showing working process parameters, easy control and operation.</li> <li>Water level indicator</li> <li>Internal Chamber Capacity: 200 liters or more</li> <li>Sterilization Temperature Range: 121°C to 134°C or</li></ul>
		• With integral alarm system when temperature set-points are exceeded or fallen
		• Should be supplied with compatible RO plant of, with imported parts.
		• Accessories:
		Basket 02 Nos
		Trays 10 Nos
		All necessary work including plumbing and electrical work will have to be done by the supplier. The hospital will only provide space and water outlet.

10.	Automated	System consisting of :
10.	Electrolyte Machine	<ul> <li>Electrolyte analyzer for Na, k, Ca, Cl</li> </ul>
	with UPS	<ul> <li>For whole blood, plasma, serum, urine</li> </ul>
	with 015	<ul> <li>Sample: - blood / plasma / serum</li> </ul>
		<ul> <li>Digital display</li> </ul>
		<ul> <li>Self-diagnostics programmed; system monitoring and maintenance modes</li> </ul>
		<ul> <li>Patient results storage: 120 samples or better</li> </ul>
		QC data storage : 20 or better
		With Integral printer
		Calibration: Automatic
		Connections: USB port and LIS
		• With startup kit.
		UPS:
		• Branded and compatible UPS for at least 30 minutes backup.
		• Input Voltage : 110-260v 50Hz, Output : 220v 50 Hz.
11.	Automated ESR	Microprocessor controlled fully automated ESR analyzer with the following
	Analyzer	specifications:
		Operation: Automated / Manual
		LCD screen
		Internal thermal printer
		Easy operator software, Calibration & Controls
		Results time: 30 seconds or less
		• Result / Hour: 100 samples/hour or better
		• EDTA blood sample volume: $180 \mu$ l or less with automated withdrawal per test and
		$100 \mu$ l or less with manual withdrawal per test.
10		Simple position: 15 or better
12.	Automatic Blood	Microprocessorcontrolled.     Divital display For model and time
	Bag Shaker	<ul> <li>Digital display: For speed and time</li> <li>Digital speed control 5 to 100 RPM or better</li> </ul>
		<ul> <li>Digital speed control 5 to 100 RPM or better</li> <li>Tilting angle adjustment: 7° to 13°</li> </ul>
		<ul> <li>Timer range: 1 min to 99 hours.</li> </ul>
		<ul> <li>Min. Blood bags: 2 bags</li> </ul>
		<ul> <li>Should measure the blood weight</li> </ul>
13.	Automatic Film	Film: 60 Films per Hour or more
	Processor	• Minimum Film Size: 4 x 4 inch
		• Maximum Film Size: 14 x 17 inch
		• Electrical Requirements: 220VAC, 50 Hz
14.	Baby Incubator	Microprocessor controlled.
		• Incubator to have a large double Plexiglas hood with excellent dual viewing
		panels mobile on lockable castors.
		• Temperature range: 34 to 37-degree C.
		• To have an integrated sensor module to collect air and skin temperatures
		Spo2, oxygen, humidity and pass this information to the display.
		<ul> <li>7 inch or more LCD/TFT screen should be available to display relevant information.</li> </ul>
		• The sensor module to have a visual alarm facility to complement the audible alarm.
		<ul> <li>The mattress base to be contoured, x-ray translucent.</li> </ul>
		<ul> <li>To be able to tilt ±12 degrees or more.</li> </ul>
		<ul> <li>Trend data for 24 hours or more.</li> </ul>
		<ul> <li>The hood to have four doors, two on either side'. Openings with 4 tubing</li> </ul>
	1	

		<ul> <li>access ports.</li> <li>The unit to have the temperature, oxygen level and humidity to preset levels.</li> <li>To have an alarm for all these parameters with a low initial alarm intensity to avoid undue disturbance.</li> <li>Oxygen to be able to be calibrated from 21% to 65%,</li> <li>The humidity module to be front loading / side loading and to need filling daily.</li> <li>The mattress base tilts control to be knobs on the base.</li> <li>Noise should be ≤ 45dbi.</li> <li>Accessories: <ul> <li>Telescopic IV stand.</li> <li>Monitoring shelf,</li> <li>Cylinder holder</li> <li>Ventilator tube support.</li> <li>Spo2 sensor for neonatal</li> </ul> </li> </ul>
15.	Baby Suction Machine	<ul> <li>Performance : suction controlled 0-600mmHg or more (Adjustable)</li> <li>Capacity : 30l/min or more</li> <li>Controls : On/Off switch</li> <li>Safety : positive pressure restricted</li> <li>With filter.</li> <li>Complete with autoclave able receiver jar 1x1000 ml or more( Autoclavable)</li> <li>Suction tip: 1 No</li> <li>Suction pipe length 2m, with hose.</li> <li>Mobile on four antistatic castors</li> <li>With the over flow safety</li> </ul>
16.	Binocular Microscope	Standard Microscope Consisting of:-         Binocular Head Adjustable Inter Papillary Distance         Rotating Quadruple Nose Piece         Adjustable stage with venire Scale And spring clip for slides         Coaxial Controls         Condenser carrier, vertically adjustable         Bright field condenser, NA ,1.25,FlipTop         Light adjustment for condenser         Aperture Iris Diaphragm         Halogen /LED illumination Eye Piece         Lenses:- X10 20mm wide field, focusable         Objective Lenses:-         X4 Plain Achromatic         X100 Plain Achromatic N.A0.25         X40 Plain Achromatic N.A1.25,         Oill Immersion With following accessories: -         Blue iris aperture         Oiler         Dust cover
17.	BIPAP	<ul> <li>Device should have CPAP, BILEVEL S, BILEVEL T, B BILEVEL ST modes.</li> <li>Once the patient stops breathing the device should automatically switches into the T-mode and provides respiration for the patient in the prescribed safety frequency.</li> </ul>

18.	Blood Bag Tube Sealer	<ul> <li>The device should have Alarm indicators.</li> <li>High maximum pressure 25 hPa./cmH2O equivalent</li> <li>Average noise level should be less than 30dB.</li> <li>With humidifier.</li> <li>Advanced data management with SD card/internal storage</li> <li>Simple handling.</li> <li>Easy to replace filter.</li> <li>The system should be heavy duty and be able to seal the blood bag tubing quickly and effectively.</li> <li>Should be simple to handle.</li> <li>System should gently seal the tubing with no hemolysis using radio frequency.</li> <li>Should be capable of making wide seal of 2 mm thickness.</li> <li>The sealing time should not be more than 2 seconds.</li> <li>Sealing trigger should be automatic.</li> <li>Should have indication lamps for Sealing Process.</li> <li>No warm-up time should be required.</li> <li>Should ensure easy separation of tube segments after the sealing.</li> <li>Power input 220-240V/ 50 Hz AC</li> </ul>
19.	Blood Bank Refrigerator / Blood storage cabinet	<ul> <li>Cabinet to have smooth stainless-steel interior and exterior of AISI 304 S grade.</li> <li>Outer door to stay open for ease of access and to have assisted closing with magnetic gasket.</li> <li>With transparent inner door.</li> <li>With Five or more shelves.</li> <li>With lockable glass door.</li> <li>With interior lighting.</li> <li>5 inch or better LCD/Digital display for temperature and warning / error massages.</li> <li>Temperature range: 2 to 8 ±1 degree C</li> <li>To have seven days chart recorder/microprocessor controlled digital data logger technology.</li> <li>Alarm for warning and error massages.</li> <li>USB port with frontal access for data transfer.</li> <li>Minimum Capacity: 250 x 450 or equivalent in liters to 500cc bag or better.</li> <li>With Servo controlled stabilizer.</li> </ul>
20.	Blood warmer	<ul> <li>With Servo controlled stabilizer.</li> <li>Microprocessor control blood /fluid warmer machine.</li> <li>Should have a digital temperature display of blood.</li> <li>Should be able to warm fluid/blood to a temperature range of 37- 40 degree C.</li> <li>Should be able to maintain or warm fluid/blood at a flow rate of 2.5 L/min</li> <li>Should have inbuilt water tank/ dry in line heating system to warm the infused fluid/blood.</li> <li>Should have a warm water column or heated sleeve up to the patient end to maintain the temperature up to the point of entry into the vein.</li> <li>Alarms for disconnections, less water and over temperature.</li> <li>Should be useful for both in adult and Pediatric patients.</li> <li>Power 220VAC 50Hz</li> <li>Accessories</li> <li>At least 50 disposable tubing sets for fluid/blood</li> </ul>
21.	Centrifuge (Bench	Microprocessor controlled centrifuge machine with the following specifications.

	Top	And Deter Marine Street 5000
	Top)	• Angle Rotor Maximum Speed 5000 rpm or more.
		• Timing Up To 99 Minute, Continuous.
		• Programmable by Keypad; 10 Program storage.
		• Digital Display of Program Speed, Timing, Braking.
		• Noise 60dB or less.
		• Lid Safety Interlock.
		• Angle Rotor, Maximum Capacity 12 X 15ml or better.
22.	Cervical and	Traction Unit:
	Lumbar Traction	Traction: Static, intermittent, cyclic traction/Harmonic
	Table	• Traction force 15-900 N/1.5-90kg/ 3.4-202 Lbs
		• User defined Hold, Rest and treatment times.
		• Traction Period: 59 minutes or more with increment of 1 minute.
		• Store up to 10 users defined protocols
		• Voltage supply: 100-240 v, 50Hz
		Accessories:
		With Mobile Traction Stand /inbuilt
		<ul> <li>Fully adjustable</li> </ul>
		<ul> <li>Allows the Traction unit to be used with most tables</li> </ul>
		<ul> <li>With Cervical Traction</li> </ul>
		With Lumbar Traction
		Table (Electrically Operated Table):
		• Compatible with the traction unit/built-in with traction unit
		• Three or more section Table.
		• Easy access foot switch for height adjustment
		• Size Tabletop: 200 x 70 cm or more
		• Height adjacent 55-87cm or more
		• Lifting capacity not less than 150 kg
		• Power supply: 120-230v
23.	CPAP	• The Device should have 3 levels separately for in- and expiration.
		• The device should have alarm system.
		• Pressure Range: 4 – 20 hPa (mbar).
		• Average noise level should be less than 30 dB.
		Advanced data management with SD card.
		• Should have stand-by time, turbine running time, therapy time, filter age
		counters.
		• Simple handling.
		• Easy to replace filter
24.	CPR Machine	• Unit should be capable to perform continuous compressions.
		• Equipment should be pneumatic type.
		Adjustable chest compressions 100 per minute or more
		• Adjustable chest compression depth from 0 to 3.2 inches or better
		Modifiable Compressions rate from 50:50 systolic to diastolic ratio (50%
		compression length).
25.	CTG Machine	With 7-inch LCD display or more.
		• Fetus heart rate: 50-240 bpm or better
		• Manual/auto recording Fetus movement.
		<ul> <li>Sound and color alarm for high and low fetal heart rate</li> </ul>
		<ul> <li>Continuous 3-4 hrs. real time monitoring function,</li> </ul>
		<ul> <li>Single, twins monitoring.</li> </ul>
		<ul><li>High resolution built in thermal recorder.</li></ul>
		<ul> <li>Built in communication port, for connecting to the central monitoring system.</li> </ul>
		- Built in communication port, for connecting to the central monitoring system.

		• Voltage AC220V, 50Hz.
		• Output speed: 1 cm/min, 2cm/min, 3 cm/min.
		• Ultrasound Probe :
		• Nominal frequency: 2.0MHz or better
		• Work frequency: 1.0MHz+- 10%.
		• Compatible with Two Probe (for twins).
		Complete with all accessories.
		• Built in rechargeable battery backup: 3 hour or better
26.	Dehumidifier	• Dehumidifying capacity ( at 30°C and 80% RH) : 24 L per Day or better
		Water Tank Capacity: 5 Liters
		• Refrigerant: R290
		• Effectively removes moisture, dust from the air
		• Humidity levels are automatically adjusted
		• Designed with system Auto shut-off / auto restart
		<ul> <li>24-hour timer to set the time of operation</li> </ul>
		<ul> <li>Electronic control Panel</li> </ul>
		<ul> <li>Performs Continuous drainage or 5 L water tank</li> </ul>
		<ul> <li>Supply Voltage: AC 220 V to 240 / 50 Hz</li> </ul>
27.	Deionizer	
27.	Delollizer	• Automatic regeneration after manual initiation.
		Constant monitoring of final water quality.
		Solid-state reliability for trouble-free service.
		• Automatic shut-off in event of power failure.
		Compact, non-corrosive components.
		Convenient, modular construction.
		Easy, economical installation
		<ul> <li>Conductivity of water 0-3µs/m</li> </ul>
		• Flow: 20 to 30 lph
28.	Delivery table/	• Couch top made of 3 sections i.e. back, hip, and leg sections covered with
	D&C Table	mattress having raxine cover.
		Leg section removable
		• Up/down movement through electric system.
		• Back seat adjustment.
		• Removable receptacle under the hip area.
		<ul> <li>Lithotomy poles with tying strips.</li> </ul>
		<ul> <li>Hand grips on both the sides.</li> </ul>
		<ul> <li>Load bearing capacity 200kg or more.</li> </ul>
		<ul> <li>Imported</li> </ul>
		*
		• Electrically operated with foot switch.
29.	Dental cabinet	<ul> <li>Overall dimension 2.5'(L) x 2'(W)x3' H or more</li> </ul>
		• Rust-free stainless-steel structure finish rounded, edges washable and can bed be
		infected.
		• Push handles one end.
		<ul> <li>Five or more drawers.</li> </ul>
		<ul><li>Detachable waste bin with bag holder.</li></ul>
		<ul> <li>Detachable waste bill with bag holder.</li> <li>02 Nos Electrical universal power outlets.</li> </ul>
		• 02 hos Electrical universal power outlets.

30.	Dental Unit with	Comprising of:-
	Chair and regulator (10 KVA)	<ul> <li>Dental Unit Chair mounted fully motorized Electric / Hydraulic (Electrically operated).</li> <li>Air turbine high speed, 3 spray system branded (model must be mentioned)</li> <li>Air motor (3 in1) slow speed with contra angle attachment branded (model must be mentioned)</li> <li>Triple syringe.</li> </ul>

• Built-in Scalar (model to be mentioned)
• Low voltage heater
• Dental Light : LED
Automatic Cup filler
• X-ray film viewer
Cotton holder
Waste receptacle
• Oil free branded compressor (model must be mentioned) with tank and regulator.
• Motor;1.5 HP
• Output;100L/min
Pressure;5-8 Bars
• Tank capasity;20 L
Assistant Unit:-
Cuspidor bowel with flush system (spittoon)
• Saliva ejector
<ul> <li>High Power Suction system (Air operated)</li> </ul>
<ul> <li>Triple Syringe</li> </ul>
Dental Chair:
Fully automatic motorized Electric/ Hydraulic chair (Electrically Operated) with
touch panel on both side doctor and assistant.
<ul> <li>4 or more positions, operated on 220V / 50Hz</li> <li>Motorized motion to raise / lower the sect and hask by electro, hydraulia System</li> </ul>
<ul> <li>Motorized motion to raise / lower the seat and back by electro- hydraulic System.</li> <li>Automatic Back to Zero Bacition</li> </ul>
Automatic Back to Zero Position.
Equipped with safety cut out device     Adjustable has direct forward (has buyed and up (down more state))
<ul> <li>Adjustable head rest forward/ backward and up /down movements</li> <li>Bight arm quings in / out for patient access</li> </ul>
• Right arm swings in / out for patient ease.
Chair movement is smooth and silent through solenoid valves.
Pressurized water bottle
Water disinfection and flushing system     Dauble articulating has d most
• Double articulating head rest Dental Light:
• Day light Shadow less dental light.
• The light arm is well balanced and adjustable to different heights with variable
horizontal and inverse movements.
Doctor's Tray:
<ul> <li>Moveable over the patient through swing in / out on flexible self-supporting balance arm.</li> </ul>
• Instrument tray covered with stainless steel lid.
<ul> <li>Availability of 4-tubings (Borden 2 holes)</li> </ul>
<ul> <li>Cotton holder and waist receptacle.</li> </ul>
<ul> <li>Water on / off Toggle switch and flow control Air / water regulator for hand</li> </ul>
pieces and triple syringe.
<ul> <li>Air pressure gauge.</li> </ul>
• X-ray viewer.
Cuspidor unit:
• Water outlet services with junction / utility box.
<ul> <li>Equipped with automatic and manual cup filler.</li> </ul>
<ul> <li>Single piece spittoon with solid collector</li> </ul>
<ul> <li>Bowl's flush automatic and manual.</li> </ul>
<ul> <li>Triple syringe,</li> </ul>
<ul> <li>Saliva ejector</li> </ul>

		• Anatomically designed back rest for maximum lumber support.
		• Seat with back rest rotatable freely 360deg.
		Mobile on 5-castor for smooth movement
21	Dental Varia	With foot supporting facility.
31.	Dental X-ray	• Dental radiographic unit.
		• Current: 7mA intra-oral x-ray system or better.
		• Focal Spot: 0.7 or less
		• Maximum voltage: 70 KV or better.
		• With imported mobile stand from the same manufacturer
		• The Unit shall be mounted on a stand having 360° horizontal rotation.
		• Also, the multiplex arm has a variety of vertical movements.
		• Mobile on castors.
		<ul> <li>Digital dental X-ray sensor, Computer Desktop/ laptop with 17-inch monitors LCD/TFT and DVD/CD writer (optional price quoted separately)</li> </ul>
		• Sensor with minimum 3 m cable or as per manufacturer connects with computer
		system via USB port.
		• Sensor (adult and child), Fully waterproof, CMOS technology,
		• Pixel size 20 microns or better
		• Active area 20X30 mm or better
		• Software for viewing image have post processing s tools zoom, rotate, contrast
		adjustment etc.
32.	Dialysis chairs	• Electrically operated Variable positioning for arm rests should have swinging out
		as well as up and down moving facility.
		• Reclining and upright body positions with a smooth shifting to any position.
		• Comfortable chair type with or without separate section for backrest. Should be a
		single upholstery unit with soft padding for cushioning and rexine cover.
		• It should have step less electric remote-controlled backrest & leg rest adjustment.
		• Adjustable arm rest for patient comfort and doctor friendly
		• Easily tilted to head low position
		• Weight bearing capacity 150 kg better
		Built-in Battery backup
		<ul> <li>Storage Drawers/trays and back side pouches for storing consumables.</li> </ul>
33.	Dialysis Machine	Color TFT Touch Screen Monitor 10 inches or above.
		Computerized programmable with graphic screen
		• Electronic control of flow rate and blood flow.
		Both Bicarbonate and Acetate mode of dialysis application
		• Automatic control for various set bicarbonate proportions.
		• Variable Sodium control concentration system.
		With Sodium and Ultra filtration Profiles
		With bicarbonate Profiles
		Variable's temperature control
		Programmable Ultra filtration control system.
		Ultra-filtration with diffusion
		• With Ultra filtration rate control, variable and visible on the screen
		Balance Ultra filtration control system.
		• Anticoagulant Management System with bolus option intact program system.
		Automatic priming system with full display system
		Automatic clean and rinsing mechanism.
		• Display for services diagnostic and rinsing mechanism.
		• With automatic thermal disinfection mechanism (up to or 80°C or above)
		• Blood pump with variable blood flow rate which should be highlighted on the
		machine.

	1	
		• Heparin pump with automatic start, stop bolus with flow rate 0 to 10cc per hour or better on upper side.
		<ul> <li>Variable flow rate (300-800ml per min or better on either side)</li> </ul>
		<ul> <li>With adjustable temperature control system, up to 39°C</li> </ul>
		<ul> <li>With venous pressure monitor -50 to 400mm Hg or better on either side.</li> </ul>
		<ul> <li>With Air bubble detector and Alarm system.</li> </ul>
		<ul> <li>Blood leak Detector.</li> </ul>
		With conductivity control system-both for Acetate and bicarbonate solution
		• Blood pump capability for both adult and paeds.
		• Real time graphical / display for dialysis treatment /Does delivery (KT/V)
		• TMP Monitoring
		Real time show dialysate pressure.
		• Real time show dialysate temperature.
		• Real time show dialysate flow.
		• With Endotoxin Filter should have auto ON OFF facility.
		• With battery backup service: 30 minutes or better
		• With inbuilt integrated real time BPM system
		• Storage of up to ten patient records
		• Disinfection history.
		• Input power 220VAC, 50Hz.
		Compatible RO plant with storage tank (Rust-free) (locally assembled with imported
		parts) to run 4 machines at a time, model, make should be mentioned price should be
		quoted separately.
34.	Distillation water	Horizontal thick wall heat resistant Glass boiler fitted with 3 KW chromium
	Assembly	placed heater.
		<ul> <li>High efficiency coil condense ensures low temperature, high output quality</li> <li>Distillate of conductivity 03 to 04µs/m.</li> </ul>
		Compact construction suitable for bench and wall mounting.
		• Screw threads connectors for easy fitting or removal of hose safely.
		Built-in constant level device with Schott Ventura-Nova Valve for drainage
		provides easy de scaling without dismantling.
		Safety thermostat
		• Distilled output: 10 Liters or better per 24 hours single distilled.
		Power Supply: 220v, 50 Hz Single Phase.
35.	Dry Heat Sterilizer /	Features:
	Hot air oven	Dust-Free Gravity-Flow convection
		• For drying, conditioning, Sterilizing and quality control.
		• Display: Temperature control, timer, alarm.
		Automatic on/ off function
		• Over temperature and current protection.
		• Leakage breaker, fan motor automatically stops when door is opens.
		• Rapid Heat up in 25 min up to 240°C
		Digital Timer built-in Controller
		Capacity: 55-60Liters
		• Temperature Range: Ambient 5°C to 250°C
		• Accuracy: $+1.0^{\circ}$ C
		• Uniformity: + 3.0°C at 120°C
		Timer: Automatic timer 0-99 min,99hr, continuous
		Material Inner Stainless Steel     Outer Steel vith enough popular conting
		Outer Steel with epoxy powder coating

		• Shelves: Adjustable 2 or more
		• Electric Supply 220 V, 50Hz
36.	ECG Machine 12	• Instantaneous 12 channel ECG acquisition, and 7 <sup>II</sup> or more LCD display.
	channels	• ADC:24 bits, resolution:1uV/LSB
I		• Inbuilt thermal recorder for printing out 12 channels simultaneously on Z-fold
		paper and port for external printer capable of A4 page printing.
		Support the 12-lead ECG analysis program for complete ECG Analysis reports
		with measurement data table should be provided.
		• Must be able to indicate at least six critical values that require immediate clinical
		attention.
		<ul> <li>Must have continuous display of patient heart and rate.</li> </ul>
		• AC as well battery operated, battery backup time 3 hours or better.
		• Must have integrated pediatric analysis.
		• Can save up to 100 ECGs in internal memory or more.
		• Complete with Patient Cable.
		Reusable Electrodes Set.
		• ECG Rolls 20 Nos.
		Gel 5 liters and Standard Accessories with each unit.
37.	ECG Machine 3	• 03 channels ECG Machine
	channels	• Should be portable and lightweight.
		• ADC:12bits, resolution:1uV/LSB
		• Voltage 220 volts, 50hz
		• Display 3 <sup>  </sup> or more.
		Simultaneous 12 leads acquisition
		• Must have continuous display of patient heart and rate
		• Must have integrated pediatric analysis.
		• Support the 12-lead ECG analysis program for complete ECG Analysis reports
		with measurement data table should be provided.
		• Must be able to indicate at least four critical values that require immediate
		clinical attention.
		• Printer: High Resolution and in built thermal array printer.
		• Battery Capacity: Must be 2 hours without printing.
		• Can save up to 100 ECGs in internal memory or more
		• Complete with Patient Cable.
		Reusable Electrodes Set.
		• ECG Rolls 20 Nos.
		• Gel 5 liters and Standard Accessories with each unit.
38.	ECT Machine	Should have constant current bi-directional square wave brief pulses.
		Parameters display on LCD.
		Should have protection against paddle to paddle short circuit or open circuit
		conditions.
		• Should have stimulus current from 500mA to 800mA or better on either side.
		• Frequency: 20-120 Hz or better
		• Pulse width: 0.3ms-1.5 ms or better
		• Stimulation duration: 0.05-8 sec
		• Power Range: 0.6 to 205 joules (or better on either side), for 220-ohm patient
		impedance
		• Should have provision of monitoring EEG before and after treatment.
		<ul> <li>Output should display in joules.</li> </ul>
		<ul> <li>Shock deliver to the patients should be print on paper.</li> </ul>
		<ul> <li>Thermal Chart Recorder provides the user with a hard copy of the self-test and</li> </ul>
		treatment results automatically.

		Accessories:
		• EEG, Electrodes
		<ul> <li>Two electrodes for Electroconvulsive therapy having bush button.</li> </ul>
		• Earthing Wire
		Conductive Gel
		Instruction Manual
39.	EEG 32 Channels	• 32 channels EEG amplifier
		• A/D resolution : 16-bit or better
		• Sampling rate : 2000Hz or more
		• CMRR: 100dB or more
		• Input noise: 1.5 uv or less
		• Input impedance: 20M ohm or more
		• With high pass and low pass filters
		• Brain mapping software (both selective and the whole data base)
		Real time programmable spectral analysis.
		Computer Desktop/ laptop (branded)
		• CPU Core i 5 Processor: 3.2 GHz. Or better
		• Bit Processing: 32 Bits.
		• RAM: 4GB.
		Graphic card latest technology
		• Hard disk 1TB.
		• DVD writer.
		• LED Monitor: 19 inch or better
		• Key board.
		• Mouse etc.
		• With associated software.
		• Printer: laser printer
		• With Compatible UPS having at least one hour back up for whole system.
		• Input power 220VAC, 50Hz
		Accessories
		Complete with standard accessories including.
		• EEG Cap adjustable
		Bridge electrode
		Crocodile electrode/ disc electrode
		• EEG paste
		Local Trolley (Export quality)
40.	Electric	Microprocessor controlled.
	Amalgamator	Touch pad controls
	C	• LED Display
		Programmable preset memories
		• Spring tensions, molded capsule holder
		• Timer 0-30seconds
		• Cycle speed 4000CPM or above
		• Sealed mix area
		• Accept salt types of capsules including amalgam and incomer.
		• Power requirements: 220 volts,50Hz
41.	Electric Autopsy	Hand held
	Saw	• Speed: 10000 RPM or Better
		• Saw head can be removed and sterilizable
		With Safety Switch
		• Input voltage: 220 VAC

		Accessories
		1. Large Section Blade
		2. Small Section Blade
		3. Round Blade
		1 0
		<ol> <li>Spinal Column Blade</li> <li>Pediatric Blade</li> </ol>
40		
42.	Electric cautery	• 3 different and separate operating functions:
	(Dental)	• 1-purecut 2-cut-coag
		• 3-pure coag
		Maximum safety for the patient
		• The electrosurgical units supplied complete accessories:
		Hand piece, 10 electrodes and ground plate autoclavable.
		• Voltage: 220 V 50.
		• Power output 30W or better
43.	Electric	Corded with a detachable & sterilizable lightweight hand piece power cord /
	Dermatomes	battery operated
	Dermatomes	<ul> <li>Operates on Power input 220-240V AC / battery operated.</li> </ul>
		<ul> <li>Capable of harvesting a graft width of maximum 100mm that can further be</li> </ul>
		reduced to 75mm, 50mm & 25mm by using various graft width plates.
		<ul> <li>Graft thickness varies from 0.10mm to 1.0 mm and can be adjusted by an</li> </ul>
		adjusting lever with lock system & readings on a thickness scale.
		<ul> <li>On/off switch on hand piece/Foot control with automatic lock system to prevent</li> </ul>
		• On/on swhen on hand piece/ Poor control with automatic lock system to prevent accidental activation.
		• Easy and safe dermatome blade replacement.
		• Economical & readily available dermatome blades.
		Accessories:
		Complete Set Dermatome
		Motor Cartridge/Cable
		Power Supply Control Box
		Power Cord
		• Blade (Single Use) Qty as per standard
		• Graft Plate 25 mm
		• Graft Plate 50 mm
		• Graft Plate 75 mm
		• Graft Plate 100 mm
		• Sterilizing Box
44.	Electric Ripple	Alternating pressure mattress with support area of 1720mmX 850mm or more.
	mattress	<ul> <li>To contain 14 or more air cells with variable geometric section.</li> </ul>
	mattress	<ul> <li>The material to contain an anti-bacterial agent.</li> </ul>
		<ul> <li>To have a reinforced base sheet membrane with removable cells and protective</li> </ul>
		*
		cover.
		• Within built compression pumps having equalizing device to prevent over
		inflation.
		• Cycle time to be 8 minutes or more
		• With CPR Valve / emergency pressure release.
		• To have a low-pressure indicator.
		• To be supplied with a case having handles for easy storage.
		• Weight 150kg or more
		• With five spare cells.
45.	Electric surgical unit	Electro surgical unit 400 watts with the following functions
	Diathermy	• PURE CUT,

		• BLEND(1),BLEND(2),BLEND(3)
		<ul> <li>COAG1 (spray), COAG2 (contact) and AUTO BIPOLAR, FOOT SWITCH</li> </ul>
		BIPOLAR.
		Microprocessor controlled.
		Percentage output digital display shows on front panel.
		Automatic bipolar output without using footswitch
		• Multi mono polar outlets, two hand control outlets and one Laparoscope outlet.
		Hand or foot operated.
		• With bipolar output power profile to provide good resolution to permit small
		changes in power levels for delicate work.
		Adaptive REM Monitoring:     With DEM facility
		<ul><li>With REM facility</li><li>Alarm enables in case of nonpolar output disables.</li></ul>
		<ul> <li>Alarm enables in case of nonpolar output disables.</li> <li>Technical Specifications:</li> </ul>
		<ul><li>Output Power</li></ul>
		PURECUT $400W$ at $300Ω$
		$\begin{array}{c} 1 \text{ OKLECT} \\ \text{BLEND1} \\ 300\text{W} \text{ at}300\Omega \end{array}$
		BLEND2 $250W \text{ at } 300\Omega$
		BLEND3 $200$ Wat $300\Omega$
		CONTACT COAG 120Wat 500Ω
		SPRAYCOAG 70W at $300\Omega$
		BIPLAR COAG 80W at $100\Omega$
		BIPLAR CUT 80W at $100\Omega$ .
		Operating Frequency: $300 \text{KH}_{Z} \pm 10\%$ or better
		Input Voltage: 220V, 50Hz
		Standard Accessories
		1. Footswitch 2 pedal with cable
		2. Footswitch 1 pedal with cable
		3. Disposable Foot switching pencil with cable
		4. Disposable 2 push button monopolar pencil with cable and electrode
		5. Reusable Bipolar forceps and Cable asset
		6. Reusable patient plate with cable for adult
		7. Set of electrodes (6 Pieces) for reusable and disposable handle
		<ol> <li>8. Power cable</li> <li>9. Locally manufactured trolley</li> </ol>
46.	Electro Mechanical	
40.		General Design:
	Operation Table	<ul> <li>The tabletop should be 100% radiolucent material &amp; X-Ray access.</li> <li>5 sections table plate</li> </ul>
		<ul> <li>5 sections table plate</li> <li>Load capacity should be no less than 200kg</li> </ul>
		<ul> <li>Load capacity should be no less than 200kg</li> <li>The table should be water-proof and anti-static material and can be washed by</li> </ul>
		water directly.
		<ul> <li>The thickness of the mattress should be 50mm or more</li> </ul>
		<ul> <li>It should have a battery inside the table, which can work 40-80 operations and the</li> </ul>
		battery should be standard configuration.
		<ul> <li>It should be standard comigaration.</li> <li>It should have electric longitudinal shift function not less than 200mm towards</li> </ul>
		foot side.
		• The rails and the column of the table should be made of high level of aluminum
		alloy.
		• Length of the table: 2000 mm or better
		• Width of the table with rails: 540 mm or better
		• The thickness of mattress: 50mm or better

		Electric Function:
		The lowest position: 680 mm or better
		<ul> <li>The highest position: 1030 mm or better</li> </ul>
		<ul> <li>Longitudinal shift: 200 mm or better</li> </ul>
		<ul> <li>Lateral Turn left: 15° or better</li> </ul>
		<ul> <li>Lateral Turn right: 15° or better</li> </ul>
		<ul> <li>Trendelenburg position: 25° or better</li> </ul>
		<ul> <li>Reverse Trendelenburg position: 25° or better</li> </ul>
		<ul> <li>Back plate up position: 70° or better</li> </ul>
		<ul> <li>Back plate down position: 40° or better</li> </ul>
		<ul> <li>Flex position: 220° or better</li> </ul>
		<ul> <li>Re-flex position: 110° or better</li> </ul>
		<ul> <li>Build-in elevator: 120 mm or better</li> </ul>
		<ul> <li>Leg plate up: 20° or better</li> </ul>
		<ul> <li>Leg plate down: 90° or better</li> </ul>
		<ul> <li>Leg plates spread: 180° or better</li> </ul>
		<ul> <li>Battery operated and all positions and angles must be controlled with remote.</li> </ul>
		<ul> <li>Head plate up: 30° or better(manual movement)</li> </ul>
		<ul> <li>Head plate down: 45° or better(manual movement)</li> </ul>
		•
		Standard Accessories:
		• Mattress set, Pair of arm rest with quick dis-connectable clamps.
		• Adjustable head rest.
		• Pair of shoulder supports.
		• Lithotomy pole with universal swivel clamps.
		• Anesthesia frame 1 Nos
		Infusion rod     1 Nos
		• Footrests 2 Nos.
		• Side supports 2 Nos
		Note: $\pm 10\%$ of degrees and measurement's will not be considered as deviation.
47.	Electro-therapy unit	Microprocessor control
		• Stimulation channels: 4 with independent
		Current intensity. Output stage: CC current controlled.
		• Stimulation Type: Synchronous and Asynchronous Stimulation pulse duration:
		$50\mu s - 500\mu s$ or better
		• Stimulation frequency: 1Hz – 200Hzs or better.
		• Input power 220VAC, 50Hz
		Accessories:
		• Adhesive and conductive electrode 45 X 50 mm (10) Adhesive and conductive
		electrode 50 X 90 mm (10)
		• Patient cable.
		• Optional:
		• Rubber electrodes 60 X 80 mm (1 pair)
		• Moist pads for rubber electrodes (1 pair)
40		Adapters for rubber electrodes (1 pair)
48.	Elisa Machine	Consisting of The Following Components.
	(Reader, incubator	For micro plate assay.
1		
	shaker and Washer) Programmable with	Plate Reader:
	Programmable with	<ul> <li>Plate Reader:</li> <li>Eight channel vertical light path filter photometer</li> <li>End point and kinetic reading modes</li> </ul>

	LIDC	
	UPS	Software for calculation modes
		• Storage for up to 96 assay protocols
		• Range 400 to670nm
		Bandwidth up to 10nm
		• Accuracy $\pm 2\%$
		• Precision 0.5%
		• Reading speed 5 secs/ plate or better
		RS232 interface or USB interface
		Incubator / Shaker:
		• Digitally operated 8-speed or better shaker.
		• Can hold two 96 well micro plates for mixing and / or incubating
		• Temperature modifiable from ambient to 40°c with 0.1°c increment
		• With lid for light protection
		• Digital timer controls shaking.
		• With LED display
		Washer 8/12 channel:
		• Micro plate washer to deliver washer buffer and ensure complete liquid removal.
		Minimum plates 96
		• Programs for flat, round and V type plates.
		Automatic plate detection
		Auto alignment and row detection
		• Complete with wash, rinse, waste bottles and piping.
		UPS:
		• Branded and compatible UPS for at least 30 minutes backup.
		• Input Voltage: 110-260v 50Hz, Output: 220v 50 Hz.
		The bidder will provide kits for HCV, HBsAg, HIV patients along with the machine free
		of cost at the time of installation
49.	EMG 4 Channels	• A/D conversion resolution: 12 Bits or better
		• Input Impedance: > 1000M OHM
		• Sensitivity: 1µV-10mV/Grid or better
		• Common-mode rejection ratio (CMRR): >=100dB
		• High Cut Filter-frequency: 0.1Hz or better
		• Low Cut Filter-frequency: 20kHz or better
		• Notch Filter 50Hz/60Hz
		With Junction Box
		• With Trolley
		• With Laser Printer
		• With Compatible UPS having at least one hour back up.
		Computer Desktop (branded)
		• CPU Core i 5 Processor: 3.2 GHz. Or better
		• Bit Processing: 32 Bits.
		• RAM: 4GB.
		Graphic card latest technology
		• Hard disk 500 GB.
		• DVD writer.
		• Printer: laser printer.
		Genuine anti virus
		<ul> <li>LED Monitor: 19 inch or better.</li> </ul>
		<ul> <li>Key board.</li> </ul>
		<ul> <li>Mouse</li> </ul>
		Accessories:
	1	

	Ι	1 EMC Interface / Junction Dev. 01
		1.EMG Interface / Junction Box012.26G Concentrate Needles25
		2.     200 Concentrate Needles     25       3.     Needle Holder     01
		4. NCS Cable Reusable 01
		5. Ring Electrode 03
		6. Surface Electrode 50
		7. Ground Electrode 01
50.	ENT workstation	Main Unit
	(Examination	• Durable steel casing, non-rusting, long lasting
	+treatment)	<ul> <li>Large instrument surface made of stainless steel with dividers and heating system</li> </ul>
	)	to heat the instruments, laryngeal mirrors and endoscopes.
		• Device to Heat the laryngeal mirrors.
		• Compressed air system continuously adjustable from for spray and politzering,
		spray liquid with autoclavable nozzle for cleaning.
		Handle for compressed air.
		• Medication reservoir be made of stainless steel, should be detachable and suitable for all type of medications.
		<ul> <li>The system should have variable compressor inletting air.</li> </ul>
		<ul> <li>Compressor unit should be completely separate from suction unit.</li> </ul>
		• Inbuilt motor suction unit with capacity of 35 liters per minute
		• Should have a vacuum gauge, bacterial filters, 1.5 liters liquid container and
		effective device to prevent overflow.
		• Suction tube should have automatic on off switch and small ear rinse funnel.
		• Warm water rinsing Device with autoclavable stainless-steel handle with snap
		closure system and fine spray regulation valve.
		• Separate stainless steel to prevent mineral build up and heat up to 37-degree
		temp.
		Cold water irrigation through existing water connection
		Automatic liquid container discharge system should be provided.
		• Dispenser for cotton and paper.
		Provision for attachment of microscope.
		• Endoscopy center with cold light source with two outlets with 300 LED/XENON/HALOGEN light bulb.
		• Head light with fibro-optic cable to be used with above light source for
		examination
		Head light rest made of stainless steel
		• Two warming quivers for rigid endoscope-should be removable for autoclaving and cleaning
		• Automatic on/off switch for single light outlet with light barrier
		• Power supply 220-240 volts/50 Hz
		<ul> <li>Mono and Bipolar cautery system with all cables &amp; probes/forceps. RIGID ENDOSCOPES</li> </ul>
		• 4mm/ 30 degree nasal endoscope Qty 1
		• 2.7mm/ 30 degree nasal endoscopeQty 1
		<ul> <li>Magnifying 90 degree Laryngoscope with facility to focus manually Qty1</li> </ul>
		• Ear telescope 3mm-diameter/ 6cm length/ 0 degree Qty 1
		• All above endoscopes should be autoclavable/Sterilizable and should have the
		facility to couple with HD camera head for record, take images and transmit the
		same monitor for better visualization.
		ENT EXAMINATION MICROSCOPE:
		• The ENT examination microscope with integrated, fanless high transmission,
		high performance LED illumination in the microscope head.

		<ul> <li>Integrated, finless high performance white-light-LED Optimized stereo effect by 24 mm stereo basis</li> </ul>
		<ul> <li>Mechanical support arm for the microscope</li> </ul>
		<ul> <li>Expandable with scale projection at the image plane with an option of green filter</li> </ul>
		Objective: 200 mm, (fine focusing)
		Objectives with manual fine focusing Visualization:     DIT Mission along the facilities to example with UD examples the defense
		• ENT Microscope should have the facility to couple with HD camera head for
		record, take images and transmit the same monitor for better visualization.
		• wide-field eyepiece 10x magnification
		• The ENT microscope should be attached/ mounting with main ENT unit.
		Display and recording system.
		• High resolving 1/3" CCD camera easily attachable with endoscope and
		microscope.
		• It should have the facility during examination to rotate, and hold/pause the image
		• Recording of images and videos in HD digital formats. Easily transferable to
		External hard drives and USB pen drives/storage cards without losing resolution.
		• High light HD-LED monitors 21 inch or better.
		ENT PATIENT EXAMINATION CHAIR
		Should be motorized and ergonomically designed examination and treatment
		chair facilitating the posture of both doctor and patient
		Heavy base casing
		• All elements of chair should be shaped according to the patient position.
		Seat should have motorized lifting device
		Seat should have height adjustment for children
		• Integrated foot switch for easy adjustment of height
		• Should have complete rotation 340 degree with locking device
		• Should be comfortably padded and folded back for enabling easy sitting of
		overweight and handicapped patient
		• Head rest-15cm with adjustable height or as per manufacturer
		• Backrest adjustable and can be made to incline 10 degree forward to vertical
		position and backward completely to a horizontal position and can be rolled back
		• Movement of armrest and footrest should be synchronized with backrest
		movement
		• Power supply:220VAC V, 50H
		DOCTORS EXAMINATION CHAIR
		• Wide base, should have rolling casters for easy movement
		Should have back rest
		• Easy height adjustment of hydraulic nature
		Comfortably cushioned seat.
51.	Fracture Operation	General Design
	Table with Ortho	• Stable base construction with four castors for easy movement.
	Traction Attachment	• Manual base brake, lateral tilt and Trendelenburg adjusted by hand crank, base
		cover, side rails, accessories & clamps made of stainless steel.
		• Table Top
		• Divided into 5 sections including head plate, back plate, seat plate and split
		leg plates. Table top elevation controlled by hydraulic system, with sliding
		table top 30 cm or more for unrestricted image intensifier access with 360-
		degree rotation. With side rails for the insertion of X-Ray cassettes (must
		equipped with acrylic sheet plates for X-rayradiography).
		• Length:190-200 cm or better
		• Width: 50 cm or better
		• Height: 75-95 cm or better

-		
		• Trendelenburg / Reverse Trendelenburg: $+20^{\circ}/-20^{\circ}$ each
		• Lateral Tilt Left/Right: 20°/20°each
		• Head plate: $+40^{\circ}/-40^{\circ}$
		Standard Accessories:
		<ul> <li>Mattress set. Pair of arm rest with quick dis-connectable clamps.</li> </ul>
		• Designed for easy installation and removal.
		• Adjustable head rest. Pair of shoulder supports.
		• Lithotomy pole with universal swivel clamps.
		• Anesthesia frame 1 each
		Infusion rod     1 each
		• Foot rests 2 each
		• Side supports 2 each
		• With inbuilt Kidney Elevator Facility.
		Attachment:
		• Traction stopper with mattresses.
		<ul> <li>Castor with break device</li> </ul>
		<ul> <li>Vertical evaluator lock handle.</li> </ul>
		<ul> <li>Traction crank</li> </ul>
		Reaction foot boot.
		• The tractor range is 200 mm and elevation range 200 mm.
		Note: $\pm 10\%$ of degrees and measurement's will not be considered as deviation.
52.		
		Microprocessor based windows internal or external operated system
		• Samples / Hour: 180 or more tests, up to 320 or more tests/hr with ISE.
	Fully Automated	<ul> <li>Samples / Hour. 180 of more tests, up to 320 of more tests/m with 18E.</li> <li>Sample Tray with 50 or more sample positions for primary tubes and test tubes.</li> </ul>
	Chemistry Analyzer	<ul> <li>Regent position 32 or more</li> </ul>
	with UPS	• Sample Volume: $2 \ \mu L - 30 \ \mu L$ .
		<ul> <li>Probe Sensors: Liquid level detection and collision protection.</li> </ul>
		<ul> <li>Probe cleaning: Automatic washing.</li> </ul>
		<ul><li>Wavelengths: 340nm to 670nm.</li></ul>
		<ul> <li>Absorbance Range: 0.0001 Abs units to 3.0 Abs.</li> </ul>
		<ul><li>Absolution Range. 0.0001 Abs units to 3.0 Abs.</li><li>Independent mixer</li></ul>
		<ul> <li>Water consumption must not be greater than 2L/hour</li> </ul>
		<ul> <li>Data Storage: 1800 or more (patient results)</li> </ul>
		50,000 or more (test results)
		• Port: RS-232.
		• 220 V, 50 Hz AC operated.
		• With integral or external printer (Model must be mentioned) Accessories
		Tubes 01 set (50 Tubes)
		<ul> <li>Fuse 02</li> </ul>
		User manual
		<ul><li>Operation Software.</li></ul>
		UPS:
		Branded and compatible UPS for at least 30 minutes backup.
		• Input Voltage: 110-260v 50Hz, Output: 220v 50 Hz.
		The bidder will provide kits for 100 patients along with the machine free of cost at the
		time of installation

53.	Fully Automated	nated Microprocessor based windows internal or external operated system	
	Immunoassay	Minimum 60 or better parameters including but not limited to: Thyroid, Infectious	
	Analyzer with UPS	diseases, Diabetes, Tumor markers, Bone metabolism, cardiac marker, Torch, Fertility /	
		endocrine hormone, anemia etc.	

		<ul> <li>Test / Hour: 180 or better</li> <li>Sample positions 50 or more / continuous loading</li> <li>Regent position 15 or more / continuous loading</li> <li>Minimum Sample Volume: 10 μL</li> <li>Regent Probe Sensors: Liquid level detection and collision protection.</li> <li>Sample Probe cleaning: Disposal tips</li> <li>Data Storage: 50000 or more (patient results) 50,000 or more (test results)</li> <li>Port: RS-232.</li> <li>The machine should have the facility to connect with LIS.</li> <li>220 V, 50 Hz AC operated.</li> <li>With integral or external printer (Model must be mentioned)</li> <li>Accessories</li> </ul>
		<ul> <li>Reagent probes 4 sets</li> <li>Fuse 01</li> <li>User manual</li> <li>Operation Software.</li> <li>UPS:</li> <li>Branded and compatible UPS for at least 30 minutes backup.</li> <li>Input Voltage: 110-260v 50Hz, Output: 220v 50 Hz.</li> <li>The supplier will provide kits for 100 patients along with the machine at the time of installation</li> </ul>
54.	Glucometer	<ul> <li>Glucose monitor, battery operated, hand held, complete with case.</li> <li>Lancet holder with lancets and glucose monitoring strips.</li> <li>The supplier to ensure the availability of strips.</li> <li>To be supplied with 1000 strips</li> <li>Separate price must be quoted for strips.</li> </ul>
55.	Gynae Vacuum Suction Apparatus / vacuum extractor with trolley	<ul> <li>To be used in fetal vacuum extraction.</li> <li>Neonatal endotracheal amniotic fluid suction.</li> <li>Surgical suction during operation and uterine aspiration for abortion with super suction curettes.</li> <li>2 Suction Bottles, each 2500cc or better.</li> <li>Vacuum pressure 650mmHg or more</li> <li>Flow capacity: 40lit/min or above.</li> <li>Automatic over flow cutoff.</li> <li>Foot switch.</li> <li>Tray for instruments</li> <li>Rubber tube 2 meter</li> <li>Curettes, large, Medium, and Small</li> <li>Mains input supply: 220 volts, 50Hz</li> </ul>
56.	High Performance Liquid Chromatography (HPLC) System	<ul> <li>Method: Ion Exchange High Performance Liquid Chromatography</li> <li>Automatic sample entry, on board capacity of 50 samples or more with continuous loading</li> <li>Barcode reader</li> <li>Whole blood mode 10 µl diluted mode 150 µ l or less</li> <li>Sample auto mixing</li> <li>Sample cycle: ≤ 150 seconds / test or less</li> <li>Touch Screen Pressure, temperature and test quantity display</li> <li>Direct primary tube sampling / cap-piercing</li> <li>Pressure and temperature alarm</li> <li>LIS data transmission</li> </ul>

		Thermal printer
57.	Head Light with	• White cold light illumination LED with 30000 Lux or better
	Cool Illumination	• With 5500 Kelvin.
		• Adjustable headband with washable inner padding.
		• On / off switch on battery compartment.
		• With Charger.
		• Backup time 3 hrs or more.
58. Hematology Analyzer Consisting of:		Consisting of:
	3 Part differential	Hematology Counter with 3 Parts differential automated.
	with UPS	• Throughout 40 Samples / Hour or better.
		• Minimum 19 or better parameters including Hb, WBC, RBC, MCV, Plt, and
		Derived values.
		• Flagging of results.
		8 inches or more touch screen
		• Micro sampling capability. WBC 12ul or better, pre diluted 22ul or better.
		Manual / Auto Calibration Program.
		Reagent level alert.
		System monitoring
		<ul> <li>Automated start up and shutdown</li> </ul>
		• Result storage: up to minimum 500 results.
		<ul> <li>Patient data entry and specimen recognition by Keyboard.</li> </ul>
		• RS 232 Interface.
		• Internal Printer.
		• With inbuilt auto-sampler or external specimen mixer.
		<ul> <li>Consumables, Reagents, Calibrators, Controls for startup.</li> </ul>
		• The bidder will provide kits for 500 patients along with the machine free of cost
		at the time of installation.
		• 2 reagent system
		UPS:
		• Branded and compatible UPS for at least 30 minutes backup.
		• Input Voltage : 110-260v 50Hz, Output : 220v 50 Hz.
		Note: The bidder must quote the price / test or reagents pack of 500 tests or 1000 tests price separately.

59.	Hematology Analyzer	Consisting of:
	5 Part differential	Hematology Counter with 5 Parts differential automated.
	with UPS	• Throughout 60 Samples / Hour or better.
	with UPS	<ul> <li>Minimum 25 or better parameters including: WBC, LYM, MON, NEU, EOS, BAS, LYM%, MON%, NEU%, EOS%, BAS%, RBC, HCT, MCV, RDW-sd, RDW-cv, HGB, MCH, MCHC, PLT, PCT*, MPV, PDW-sd*.</li> <li>With 10 or more research parameters</li> <li>Flagging of results.</li> <li>Micro sampling capability. Pre diluted 22ul, whole blood 16 ul, capillary 16 ul</li> <li>Manual / Auto Calibration Program.</li> <li>Reagent level alert.</li> <li>Automated start up and shutdown</li> <li>10 inch or better touch screen</li> <li>Result storage: up to minimum 20,000 results.</li> <li>Patient data entry and specimen recognition by Keyboard.</li> <li>RS 232 Interface.</li> <li>With internal / external Printer</li> <li>With inbuilt auto-sampler or external specimen mixer.</li> </ul>
		<ul> <li>Consumables, Reagents, Calibrators, Controls for startup.</li> <li>The hidder will provide kits for 500 patients tests along with the machine free of</li> </ul>
		• The bidder will provide kits for 500 patients tests along with the machine free of cost at the time of installation.
		• 3 reagents system

		UPS:	
		• Branded and compatible UPS for at least 30 minutes backup.	
		• Input Voltage: 110-260v 50Hz, Output: 220v 50 Hz.	
		Note: The bidder must quote the price / test or reagents pack of 500 tests or 1000	
		tests price separately.	
60.	HFNC	Should be used for adults and peads	
		• Paedric Mode:2-25 1/m or better	
		• Adult: 10-60 l/m or better	
		• Oxygen Concentration: 21% to 93%	
		• Should Have LCD/TFT display	
		• With heated humidifier	
		• Display to monitor humidity setting, flow, Fio2 and faults.	
		• Visual and audible alarm for Tube disconnect leaks, tube blockage,	
		hardware faults and audible failure alarm.	
		• Supplied with heated wire patient breathing tube and nasal cannula of different sizes.	
		• It should be compatible for use of Tracheostomy patients.	
		Accessories:	
		Disposable heated wire Patient breathing tube having sizes as small,	
		medium and large	
		Disposable Nasal cannula having sizes as small, medium and large	
		Local made trolley	
61.	Humidifier	• Adjustable exit steam Moisture sensors for adjusting required moisture.	
		• Transparent water container. Easy to clean thermo steam maker parts.	
		• Applicable to create desirable atmosphere for children.	
		<ul> <li>Built-in circuit breaker to be operated in time of dry up.</li> <li>Must have cool body all through the operation.</li> <li>Should have thermo steamer element with Teflon resistant coating.</li> </ul>	
		<ul> <li>Should have thermo steamer element with Terion resistant coating.</li> <li>Easy cleaning.</li> </ul>	
62.	Hydraulic Operation	General Design:	
02.	Table	Stable base construction with four castors for easy movement.	
	Table	<ul> <li>Manual base brake, lateral tilt and Trendelenburg adjusted by hand crank,</li> </ul>	
		base Cover, side rails, accessories & clamps made of stainless steel.	
		Tabletop:	
		• Divided into 5 sections including head plate, back plate, seat plate and split	
		leg plates. Table top elevation controlled by hydraulic system, with sliding	
		table top 30 cm or more for unrestricted image intensifier access, with side	
		rails for the incertion of V Dev acception (table ten mode of complicity sheet	
		rails for the insertion of X-Ray cassettes (table top made of acrylic sheet	
		plates for X-ray radiography).	
		<ul><li>plates for X-ray radiography).</li><li>Full set of hydraulic control system for hydraulic lock protection</li></ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> </ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> </ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> <li>Lateral Tilt Left/Right +15°/+15°each</li> </ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> <li>Lateral Tilt Left/Right +15°/+15°each</li> <li>Head plate up/down +40°/-40°</li> </ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> <li>Lateral Tilt Left/Right +15°/+15°each</li> <li>Head plate up/down +40°/-40°</li> </ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> <li>Lateral Tilt Left/Right +15°/+15°each</li> <li>Head plate up/down +40° / -40°</li> <li><u>Standard Accessories:</u></li> <li>Mattress set, Pair of arm rest with quick dis-connectable clamps.</li> </ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> <li>Lateral Tilt Left/Right +15°/+15°each</li> <li>Head plate up/down +40° / -40°</li> <li>Standard Accessories:</li> <li>Mattress set, Pair of arm rest with quick dis-connectable clamps.</li> <li>Adjustable head rest. Pair of shoulder supports.</li> </ul>	
		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> <li>Lateral Tilt Left/Right +15°/+15°each</li> <li>Head plate up/down +40° / -40°</li> <li><u>Standard Accessories:</u></li> <li>Mattress set, Pair of arm rest with quick dis-connectable clamps.</li> <li>Adjustable head rest. 		<ul> <li>plates for X-ray radiography).</li> <li>Full set of hydraulic control system for hydraulic lock protection</li> <li>Size: 2000x500x750 mm ± 10 %</li> <li>Trendelenburg/ Reverse Trendelenburg 25°/25°each</li> <li>Lateral Tilt Left/Right +15°/+15°each</li> <li>Head plate up/down +40° / -40°</li> <li>Standard Accessories:</li> <li>Mattress set, Pair of arm rest with quick dis-connectable clamps.</li> <li>Adjustable head rest. Pair of shoulder supports.</li> </ul>	

		• Side supports 2 Nos	
		Side supports 2 Nos     With inhuilt Kidney Elevator Eccility	
		With inbuilt Kidney Elevator Facility     Attachment:	
		Traction stopper with mattresses.	
		<ul> <li>Castor with break device</li> </ul>	
		<ul> <li>Vertical evaluator lock handle.</li> </ul>	
		<ul> <li>Traction crank</li> </ul>	
		<ul> <li>Reaction foot boot.</li> </ul>	
		<ul> <li>The tractor range is 200 mm and elevation range 200 mm.</li> </ul>	
		• Note: $\pm 10\%$ of degrees and measurement's will not be considered as deviation.	
		Note: Bidders must quote the OT table and Ortho traction attachment prices	
		separately.	
63.	Indirect	Brightness for difficult examinations	
	Ophthalmoscope	<ul> <li>Halogen light</li> </ul>	
	opnummoseope	• With light intensity control.	
		• Headband: Light weight and comfortable.	
		• Single control to change aperture size and position in one movement to view	
		through all pupil sizes.	
		• Inbuilt IR and UV barrier.	
		With 20 D indirect lens	
64.	Infant Warmers	Mobile infant warmer with integrated baby bassinet unit that accommodates use of	
	(Radiant Warmer)	resuscitation equipment for intensive care of neonate.	
		Technical Specification:-	
		• Infant warmer system to provide controlled source of radiant heat for infant.	
		• Temperature Control (Skin).	
		• Temperature Adjustment:34°c-37°c	
		• Skin Temperature measurement: 34°c ~ 37°c,	
		Microprocessor controlled skin servo mode operation with digital display.	
		<ul> <li>LCD display for Infant Temperature</li> <li>Audible and visual alarms and automatic switch off if temperature reaches at</li> </ul>	
		<ul><li>38°c.</li><li>Built-in examination light</li></ul>	
		<ul> <li>Built-in air/gas driven venture suction system</li> </ul>	
		<ul> <li>Tilting large bed platform suitable for x-ray cassettes, with cassette holder.</li> </ul>	
		<ul> <li>Bed with mattress having Trendelenburg and reverse Trendelenburg position.</li> </ul>	
		<ul> <li>Accessible from all sides with acrylic collapsible side panels</li> </ul>	
		• Trolley with 2 Lockable castors or more.	
		• Power Requirement: 220~V, 50Hz	
		Accessories	
		• Complete infant resuscitation package with mounting bracket (resuscitation	
		module, flow meter, infant suction unit, suction regulator, suction	
		bottle/400ml, positive pressure resuscitation, air hose, and oxygen cylinder	
		medium size).	
		• Skin probe reusable.	
65		Infant face masks (Large, Medium, Small)	
65.	Infra-Red Radiator	• Floor Stand Type	
	Large	• Radiators: 900 W or more (3 x 350 or 6 x 150)	
		Automatic cut off timer     Timer adjustments unto 15 minutes	
		<ul> <li>Timer adjustment: upto 15 minutes</li> <li>Mounted on 4 or more lockable casters.</li> </ul>	
		<ul> <li>Mounted on 4 or more lockable casters.</li> <li>Adjustable height</li> </ul>	
		· Aujustable height	

66.	Infra-Red Radiator	Floor Stand Type
00.		<ul> <li>Floor Stand Type</li> <li>Radiators: 350 or more (1 x 350 or 3 x 150)</li> </ul>
	Small	<ul> <li>Radiators: 550 of more (1 x 550 of 5 x 150)</li> <li>Automatic cut off timer</li> </ul>
		<ul> <li>Automatic cut on timer</li> <li>Timer adjustment: up to 15 minutes</li> </ul>
		<ul> <li>Mounted on 4 or more lockable casters.</li> </ul>
		<ul> <li>Adjustable height</li> </ul>
67.	Infusion pump	<ul> <li>Infusion pump with visible handle, with IV Pole(imported/local).</li> </ul>
07.	initiation pump	<ul> <li>Power requirements: AC: 100-240V; 50Hz</li> </ul>
		<ul> <li>Nodes: weight, Volume, and flow/Dose rates</li> </ul>
		<ul> <li>Delivery / Flow rate: 0.1-999.9ml/h</li> </ul>
		<ul> <li>Derivery / Flow Fate: 0.1-9999.9htt/fi</li> <li>Volume range 1-9999</li> </ul>
		<ul> <li>Occlusion Limit low, Normal, High</li> </ul>
		<ul> <li>Facility with keep vein open rate.</li> </ul>
		<ul> <li>Anti-Bolus function, Titration function should be available.</li> </ul>
		<ul> <li>Volume infused display and Dynamic cannula pressure displayed on screen.</li> </ul>
		<ul> <li>Full alarm system.</li> </ul>
		<ul> <li>Air in line detection.</li> </ul>
		<ul> <li>Occlusion detection capability.</li> </ul>
		<ul> <li>Vertical stand mobile type</li> </ul>
		<ul> <li>Builtin battery backup: 2 hours or better</li> </ul>
		<ul> <li>Water-Proof Grade : IP34 or Equivalent</li> </ul>
		<ul> <li>Water-11001 Grade : If 54 of Equivalent</li> <li>With all standard accessories.</li> </ul>
68.	Laboratory Incubator	Microprocessor controlled Laboratory Incubator with the following specifications.
00.	Laboratory incubator	
		• Stainless steel chamber with adjustable shelves and a tough ended glass inner viewing door. The outer cabinet is to be rust resistant.
		<ul> <li>Temperature control by digital display from 0-0.99.9 h or continuous</li> <li>Alarm system for high and low temperature, Door close / open.</li> </ul>
		<ul> <li>With over temperature safety cutout to be set by the user.</li> </ul>
		<ul> <li>Fitted with circulation fan.</li> </ul>
		<ul> <li>Temperature : Range: At least 5°C above ambient to+60°C</li> <li>Control (Fan): ±0.1°C at+37°C</li> </ul>
		• Variation (Fan): $\pm 0.25^{\circ}$ C at+37 °C
		<ul> <li>Variation (Fail). ±0.25 C at+37 C</li> <li>Chamber Capacity: 80-100Liters</li> </ul>
		<ul> <li>Chamber Capacity. 80-100Liters</li> <li>Shelves: 2 or more</li> </ul>
60	Maufield Creation	
69.	Mayfield Cranial	MAYFIELD Infinity Skull Clamp Qty 1
	Fixation System	The MAYFIELD Infinity Skull Clamps System is designed to provide
		multifunctional options for cranial stabilization and fixation. Added length and
		curved contours of the skull clamp uprights allow.
		• The clamp to better interface with the horseshoe headrests of the system,
		providing a lower profile fixation with the ability to tuck in beneath the
		headrests.
		• Available with standard rocker arm and torque screw.
		MAYFIELD Infinity Support System - Adult Horseshoe Qty 1
		• For adults and older children in pror supine position, and adjustable faceplate
		accommodates various head sizes
		MAYFIELD Tri-Star Swivel Adaptor Qty 1
		Adapts headrests and skull clamps the MAYFIELD Ultra Base Unit Two
		additional starbursts allow attachment of ancillary components such as Image-
		Guided Surgery accessories Starburst bar rotates independent of skull clamp and

		can be removed if necessary Patented	
MAYFIELD Ultra Base Unit		·	
		Handled MAYFIELD Ultra Base Unit provides increased weight and force	
		bearing capacity for improved patient safety.	
		<ul> <li>Supports weight of important added components to system, such as Image-</li> </ul>	
		Guided Surgery accessories	
		<ul> <li>Extended base tube (15 ¼ or as per OEM) provides increased lateral positioning capability</li> </ul>	
		• Adjustable width of end brackets (6 <sup>3</sup> / <sub>4</sub> to 8 <sup>1</sup> / <sub>4</sub> or as per OEM) allows adapting	
		to most OR tables	
		• Mayfield disposable adult skull pins (Steel) Qty 3	
		• Mayfield disposable adult skull pins (Steel) Qty 10 Pack	
70.	Microtome	Fully Automatic Microtome Machines with the following specifications:	
70.	Machines		
	Machines	<ul> <li>Applications Sectioning of Paraffin embedded specimen for routine and research histology.</li> </ul>	
		<ul> <li>Section thickness range: 0.5-60 um or better on either side</li> <li>According to manufacturer design</li> </ul>	
		<ul> <li>According to manufacturer design</li> <li>Specimen Retraction: 20 um</li> </ul>	
		<ul> <li>Trimming Thickness: 1um to 600 um</li> </ul>	
		<ul> <li>According to manufacture design</li> </ul>	
		<ul> <li>Displacement of blade holder Base: Vertical and horizontal direction</li> </ul>	
		<ul> <li>Vertical Cutting stroke length: 70mm or more</li> </ul>	
		<ul> <li>Vertical Cutting stroke length: 70mm or more</li> <li>Electrical Requirement: AC 220V / 50Hz</li> </ul>	
71.	Microvent	Unit should be hand held type & pneumatic oxygen powered with no electric	
/11		power required.	
		<ul> <li>Should have option for automatic time cycled and manual trigger selection.</li> </ul>	
		<ul> <li>Unit should be capable to cater adults and children (10Kg or less)</li> </ul>	
		<ul> <li>Should have capability of auto air mixing 100% or 50% with no external air</li> </ul>	
		supply.	
		• Should have Patient assist valve.	
		• Automatic flow rate (L/min) 36 to 12 or better	
		• Automatic tidal volume 150ml to 1000 ml	
		• Automatic I:E ratio 1:2	
		• Adjustable automatic frequency 10 to 25bpm	
		• Manual flow rate 40 lpm	
		• Should have pressure relief valve with audible warning limits.	
		• Should have expiratory resistance 0.5 kPa or better.	
		• Patient assist trigger pressure -0.5 kPa or better	
		• Unit should be capable to operate on central gas supply system & oxygen	
		cylinder through compatible probe.	
		Accessories:	
		Fabric Case.	
		• Oxygen therapy mask for adult & children.	
		• Resuscitation face mask made of silicon for adult & children.	
		• Four oro-pharyngeal airways.	
		• Flexible ET tube mount.	
72.	Mini Autoclave	Microprocessor controlled.	
	for dental	Mini autoclave Class B type	
		• Capacity 18 liters or more (Bench top)	
		cupuery to more (bench top)	

		Digital display	
		<ul> <li>Automatic functioning</li> </ul>	
		-	
		• Pre and post fractionated vacuum.	
		• Sterilization temperature:121°c to13	
72	NT 1 1	With demineralizer (model and make must be mentioned)	
73.	Nebulizer	• Maximum compressor pressure 2-3.	0 bar or better
		• Nebulization rate 0.2 ml / min	
		• Compressor air flow 10lit / min or be	etter
		• Particle size( mmad) 0.5m to 5m	
		• Noise level 55 db	
		• Electrical requirement 220v/ 50Hz	
		Nebulizer assembly and Accessories :	
		Tubing	
		Nebulizer cup	
		• Nebulizers insert.	
		Nebulizer cap	
		• An adult mask	
		Mouth piece	
		• extra filters	
74.	Neonatal CPAP	Technical Specifications:	
	Machine	• Maximum Adjustable output flow:	15 L/min or more
		• Oxygen flow capability:	10 L/min or more
		• Air flow capability:	10 L/min or more
		• Built in Oxygen concentration:	21% - 95%
		Built in Air compressor	
		• Pressure:	1 - 10cm H2O or more
		• Working noise:	Not more than 55dB
		Humidification:	Yes
		• Alarms: Power failure, high & low p	ressure, No Flow and low oxygen
		concentration	
		• Power: 220-240 VAC, 50 Hz	
		Unit Supplied With	
		• Different sizes Neonate bonnet x 4	
		Different sizes Silicone nasal prongs	5 x 4
		• Inspiratory/Expiratory tubing x 4	
		Ram Cannula (Standard Sizes) with	oxygen adapter.
75.	Ophthalmoscope	• LED type	
		• Rechargeable Handle	
		Carrying Case	
		Battery operated	
76.	Ophthalmoscope +	Branded ophthalmoscope	
	Retinoscope	• Designed to ensure Ultimate control.	
	Rechargeable	• Lenses graticules and filters can all b	be easily changeable.
		Xenon/Halogen illumination	
		Positive Action wheel.	
		Comprehensive Lens Range +29D to	)-2 <b>5</b> D.
		• Swing over Red Free Filter.	
		Professional Retinoscope suitable fo	r Streak or Spot.
		• Interchangeable soft brow rest.	we hall a Drote sting and
		• Focal illuminator, With Handles. Spare bulbs. Protective case.	

77.	Orthopedic Drill	ORTHOPEDIC DRILL SYSTEM	
	Battery operated	• Drill and reaming handpiece with single / dual trigger (forward and reverse)	
		operating.	
		Adjustable speed range : 0-200rpm or more (Reaming Mode) 0-950rpm or more (Drill Mode)	
		• Oscillating saw hand piece with single trigger operating / Saw attachment for all-	
		in-one hand piece.	
		• Oscillating frequency : 12000 rpm or more	
		• Battery operated.	
		Having Safety button	
		• Stepping mode	
		Indicator for charging	
		<u>Accessories:</u> Complete with all standard accessories including.	
		Complete with all standard accessories including.	
		3 different size blades for oscillating saw. Attachment for all hand pieces (K-wire attachment, Drill attachment, Reamer	
		• Attachment for all hand pieces (K-wire attachment, Drill attachment, Reamer attachment large)	
		<ul> <li>Specialized sterilization container for drill and autoclavable basket.</li> </ul>	
		<ul> <li>2 batteries</li> </ul>	
		• Charger	
78.	Oxygen Concentrator	Micro Processor controlled.	
		• Oxygen Flow Range: 0 to 10 litter per Minute	
		• Noise level (<45dbA).	
		• With filter.	
		• With OPI (oxygen purity indicator) & Alarm at very low oxygen level.	
		Audio visual alarm for:	
		Power loss, Low pressure, air leak, hardware failure, Mechanical Failure,	
		Overheating and High Pressure.	
		Oxygen Percentage level: 1 10 Ltr per Minute 95%+3% or better	
		1-10 Ltr per Minute $95\% \pm 3\%$ or better	
		• With Humidifier	
		• With Connecting Pipe	
70		Mobile on 04 Castors	
79.	Paraffin Wax Bath for	Capacity 15 liters or more     Thermostatically controlled	
	Foot	<ul><li>Thermostatically controlled.</li><li>Double walled</li></ul>	
		<ul> <li>Material Stainless steel</li> </ul>	
		Temperature Control 0- 90 degree C	
		• Immersion Heater 2000 watt	
		• with insulated boots: 02 Pairs	
		• Input Supply 230 V AC, 50 Hz	
		Paraffin Embedding Wax Bath	
80.	Paraffin Wax Bath	Capacity 15 liters or more	
	for Hand	Thermostatically controlled.	
		• Double walled	
		Material Stainless steel     Temperature Control     0,00 degree C	
		Temperature Control 0- 90 degree C     Immersion Heater 2000 watt	
		<ul> <li>Input Supply 230 V AC, 50 Hz</li> </ul>	
		<ul> <li>Immersion Heater 2000 watt</li> <li>with insulated mits: 02 Pairs</li> <li>Input Supply 230 V AC 50 Hz</li> </ul>	

		Paraffin Embedding Wax Bat	
81.	PH Meter	PH:	
		• PH Range Accuracy: .0 ~ 14	
		• Resolution: 0.01	
		• Calibration: User selectable 1 or 2 points.	
		mV:	
		• Range: $\pm 1900$ mv.	
		• Resolution: 0.01mV	
		• Accuracy: $\pm 1 \text{mV}$	
		Temperature:	
		• Temperature range: $-5 \sim 100^{\circ} c \pm 0.4^{\circ} c.$	
		• Resolution: $0.1^{\circ}$ c.	
		• Accuracy: $\pm 0.5^{\circ}c$	
		Display:	
		• Display: LED / LCD.	
		Power: DC Power Adaptor.	
82.	Pharmacy / medicine	Medical Grade	
	/ Vaccine	• Capacity: 400 Liter or better	
	Refrigerator	• Vertical Type	
		Digital Temperature Recording	
		Glass Door	
		• Display for easy viewing size 5 inch or better	
		<ul> <li>Self-Closing with Stopper System at 90 degree or better</li> <li>Sefety leave Look shall be available</li> </ul>	
		<ul><li>Safety key Lock shall be available.</li><li>Alarm for warning and error massages (Low, High Temperature, and Door</li></ul>	
		Opening Alarm.	
		<ul> <li>Acoustic and Visual Alram for temperature and power failure</li> </ul>	
		• Temperature Range: 2 to $10 \pm 1$ degree C	
		<ul> <li>Inertial Light LED Type, Adjustable Shelves.</li> </ul>	
		• With Servo controlled stabilizer.	
83.	Phototherapy Unit	Flexible positioning	
• LED type			
		• Intensity: 35uW/cm2/nm at 40cm or better	
		Display: LCD Digit Display	
		• Irradiation timer: 0 to 99 hr. or better	
		• Inclination angle: Freely adjustable from horizontal to vertical	
• Placement: Directly on the incubator /beds.		• Placement: Directly on the incubator /beds.	
		• Power requirements: 220 V, 50Hz;	
		Accessories: Eye Cover (100 Pieces)	
84.	Plasma and Lab	Microprocessor control LCD display	
	Deep Freezer(-	Stainless steel interior and exterior	
	40oC)/ Plasma	• Upright Freezer	
	storage cabinet	• Temperature range down -40oC	
		• Operating temperature range should be from -20oC to -40oC at ambient	
		temperature and adjustable with setting accuracy of $\pm 1^{\circ}$ C.	
		<ul> <li>System should have CFC free refrigerants.</li> <li>Consolity 400 litter or better</li> </ul>	
		Capacity 400 litter or better     Key operated power switch	
		<ul> <li>Key operated power switch</li> <li>Acoustical and visual alorm for temperature and power failure</li> </ul>	
		<ul> <li>Acoustical and visual alarm for temperature and power failure</li> <li>Alarm and temperature recording with battery backup for 48 hours in case of</li> </ul>	
		• Alarm and temperature recording with battery backup for 48 hours in case of	

	-	
		<ul> <li>power failure.</li> <li>Door opening alarm, high and low temperature alarm.</li> <li>Controlled fan cooling to archive homogeneous</li> <li>Automatic closing of front door.</li> <li>Should have minimum vibrations, and noise level should not exceed 60 db.</li> <li>Interface USB/RS485</li> <li>Power 220VAC 50Hz</li> <li>Should be supplied with Servo controlled voltage stabilizer.</li> </ul>
85.	Point of care Testing (POCT) analyzer (Immunofluorescence Quantitative Analyzer)	<ul> <li>Microprocessor control light weight portable machine</li> <li>Test category: Diabetes, Thyroid Function, Cardiac, Infections Disease, COVID-19, Bone Metabolism, Kidney Function, Sex Hormone, Brain Injury, Thrombus Markers, Inflammation Markers, Tumor Markers, Allergy, Hypertension, Anemia Markers, Rheumatoid Arthritis</li> <li>Easy to operate.</li> <li>Auto calibration available</li> <li>Measuring time should be at least 15 minutes or less</li> <li>Sample type: whole blood, serum, plasma, and urine</li> <li>Sample volume Less than 75µL</li> <li>Color touch screen for easy operations, 8 inch or more</li> <li>Patient data storage facility</li> <li>With battery backup of more than 2 hour or better</li> <li>Connectivity: Wifi, Ethernet port, 2 USB ports</li> <li>Capable to show result one screen and built-in thermal printer available to print result on paper.</li> <li>Input power 220VAC 50Hz</li> </ul>
86.	POP cutter / Plaster Cutting Saw	<ul> <li>Speed: 0-11000 rpm or more</li> <li>Blade Size: 7.5 mm to 2.5 mm</li> <li>Voltage: 220 Volt</li> </ul>
87.	Portable lamps AC/DC or Emergency light with single reflector AC/DC Or Examination light AC/DC	Operating Light with: -         • Single dome         • On Balance mobile Stand         • LED light source         • Light intensity Max 70,000 lux or better         • LED life of 50,000 hours or more         • Color Correction to 4350 deg Kelvin         • With intensity light control         • Multi flex arm with ultimate flexibility of positioning the lamp head.         Electrical Supply:         • 220-volt 50Hz,         • Reversible overload and short circuit protection         • Inbuilt Backup power system with rechargeable branded dry batteries with backup time at least 03 hours
88.	Pulse Oximeter (Hand held / Desktop)	<ul> <li>Hand held/Desktop pulse oximeter.</li> <li>Sensors: Finger clip with probe for neonatal, Paeds &amp; adult.</li> <li>Range: O2 saturation 0 -100%.</li> <li>Pulse rate 25 - 250 bpm or more.</li> <li>Display: Pulse waveform, SPO2 and pulse rate and O2 Saturation.</li> <li>Resolution: O2 saturation 1%</li> <li>Accuracy: O2 saturation 80-100% ±2% or better</li> <li>Power requirements: AC: 220 V 50Hz</li> <li>Li-ion battery 2 hours for charging, 24 hours or better continuous working.</li> </ul>

00	Pulse Oximeter	Encoder and a contraction
89.		• Fingertip pulse oximeter
	(Fingertip)	• SpO2 Range: 0%-100%
		• SpO2 Accuracy: $\pm 2\%$
		• Pulse Rate Range: 30bpm-250bpm.
		• Pulse Rate Accuracy: ±2bpm.
		• Perfusion Index: 0.1% - 10%
		• Display Format: 2-color OLED Display.
		• Batteries : AAA batteries. (2 set)
90.	Pure Tone Audiometer	<ul> <li>Large backlight graphical LCD display</li> <li>Input voltage 220v,50Hz</li> <li>True two channels include microphone, assistant phone.</li> <li>Automatic data transfer to computer and data printer</li> <li>Test signals: pure, pulse, warble tone, narrow band, white.</li> </ul>
		• Speech masking noise.
		• Tone test
		• Speech test.
		• Inputs: CD/Tape, stereo live speech microphone, external masking, patient
		microphone, patient response switch.
		• Air conduction range: 60db to 90dBHL or better on either side, include
		headphone.
		• Bone conduction range: 60db to 70/75 db or better.
		• Speech: 60db to 100dbHL.
		• Masking: Free as well as synchronized masking
		• High tone audiometry for AC 125 hz - 8000 Hz
		• High tone audiometry for BC 250 hz - 8000 Hz
		• Selectable range of Test frequencies.
		Accessories:
		• Air conduction head set.
		Bone conduction head set
		• Patient response switch
		Micro phone.
91.	Resuscitation	Overall dimension 2.5'(L) x 2'(W)x3' H or better
	Trolley / ICU Trolley / CPR	• Electro-galvanized steel sheet structure / aluminum alloy/ ABS, Epoxy powdered coated, finish rounded, edges washable and can bed be infected.
	Trolley	• Push handles one end.
		• Height adjustable IV Holder rod.
		• Shelf for defibrillator / ECG can be rotatable with locking facility.
		• Three or more drawers.
		• Detachable waste bin with bag holder.
		• CPR board.
		• Antistatic no skidded casters with 2 brakes.
		• Oxygen bottle support with fastening belts.
		• Catheter tubes holder.
		• Stainless steel / plastic bracket on back side for mounting oxygen
		cylinder/bracket for mounting oxygen cylinder.
		• 02 Nos Electrical universal power outlet and rollup power supply cable.
		Accessories
		1. Oxygen Cylinder small size
		2. Oxygen Regulator
		3. Oxygen flowmeter
		4. Resuscitator Set reusable and autoclavable comprising of.

			ith adult face mask sizes 3, 4, 5 & Airway size 3,		
		4, 5 with E2 valve and fully			
		• Reservoir bag volume 2 liter			
		5. Laryngoscope with 3 blades			
		6. Magill Forceps			
		7. Endotracheal Tubes set of 1	2 tubes.		
		8. Pen torch 2 qty			
		<ul><li>9. Artery forceps 2</li><li>10. Dressing scissors 2</li></ul>			
92.	Semi-Automated	• Easy keypad operation with I	LCD Display / touch screen.		
	Chemistry Analyzer	• Wavelengths range is 340-67	'0nm (± 10nm)		
	with UPS	• Supports flow cell and curett	e mode.		
			netic, fixed time. Bi-chromatic end point with or		
			ple blank, linear or non-linear calibration curves.		
		• Up to 1000 test results can be			
		• Excellent QC function, 02 co			
		Specification: -			
		Absorbance Range:	0.500-3.00 Abs.		
		<ul><li>Resolution:</li></ul>	0.001 Abs (displayed)		
		<ul><li>Light sources:</li></ul>	Halogen lamp.		
		C			
		• Wavelengths:	$340-670 (\pm 10 \text{ nm})$		
		• Wavelength Accuracy:	$\pm 1$ nm to $\pm 3$ nm		
		• Band Width:	< 8nm.		
		• Flow Cell:	Metal – quartz flow cell.		
		• Temperature Control:	$37^{\circ}$ C, $\pm 0.1^{\circ}$ C and ambient		
		• Output:	Internal Printer.		
		• Interface:	Rs-232 serial cable.		
		• Two extra Lamp.			
		UPS:			
		Branded and compatible UPS			
		• Input Voltage : 110-260v 501			
			patients along with the machine free of cost at the		
		time of installation.			
93.	Shadow less lamp		e, including single arm, 360 degrees rotary		
	(Ceiling type)	stable and suspended.			
	or Ceiling OT light		adjustable and focused according to the size of		
	for minor OT or	the patient's surgical area.			
	Ceiling OT light for	• Dual Dome			
	post- mortem	• Intensity control available.			
	-	• LED light source			
		• Light intensity: Maximum 160,000 Lux + 160,000 or better at 1 meter			
		distance			
		• LED life of 50,000 hours or better			
		Color Correction to 4000deg			
		• Input power 220VAC, 50 H			
		• With sterilized handle for m			
			dry battery (s), with backup time at least 03 hours		
		or more.			
0.4		Complete with Installation			
94.	Short Wave Diathermy	• Frequency: 27.12mhz or bet			
		• Output Power: 400 W maxi	mum in Continuous Mode; 1000W maximum		

		Peak Power in Pulsed Mode
		Output Modes: Continuous, Pulsed
		• Pulse Width: 20 - 400µs or better
		• Pulse Frequency: 20 - 200 Pulses Per Second or better
		• Timer: 0 - 30 minutes with termination of output & alarm at end of treatment.
		• Mains Supply: 100-240 Vac, 50/60Hz
		Accessories
		• Two electrode arms,
		• Two 100 mm capacitive electrodes with cables,
		Output tester and Standard Accessories
95.	Sonic Aid	• Fetal Heart Beat / Sound Detection & Rate Monitoring.
	Machine/Fetus	• Heart rate digitally displayed,
	Heart Detector/	• Heart beat audible through the built-in speaker (earphone).
	Fetoscope	• Ultrasonic frequency/output: 2 MHz
		• Audible output: 0.6W (Speaker output: Max.20W)
		• Heart rate detection range: 50-240bpm
		• Powerrequirements: Rechargeable battery for 1 hour with AC recharging
		unit.
96.	Spirometer/	Examination of pulmonary system and to measure & display lung function parameters
	Pulmonary function	and must meet ATS/ERS standards
	unit	It should be able to measure /do the following.
		• Spirometer & Flow Volume parameter
		Maximum Ventilation Volume
		• Pre & post Broncho – dilator comparison
		<ul> <li>Lung Volumes &amp; Sub – divisions</li> </ul>
		<ul> <li>Feasibility of real time Flow/volume loop and volume/time curve with Pre/Post</li> </ul>
		comparison.
		Broncho Provocation Test.
		Should incorporate Electronic Barometer & temperature
		• Overlaying of previous test curves for comparison.
		• The unit have $7\parallel$ or better LCD/TFT screen to display real time relevant
		information and also have a thermal printer.
		Rechargeable battery backup time at least 2 hours
		• Flow meter Bi-directional digital flow sensor (flow: up to 15L/s or more,
		accuracy: within 3%)
		• Dynamic Resistance : less than 1 cmH2O /L/Sec.
		• Parameters should be measured with highest accuracy & reproducibility and
		accuracy should be least, if at all affected with High surrounding Temperature
		and humidity levels.
		• Pulmonary Filters (100 Nos),
		Disposable Mouthpieces (500 Nos)
		• Facility to interface with computer desktop / Laptop to transfer data for analysis.
		Computer Desktop/ laptop (branded)
		• CPU Core i 5 Processor: 3.2 GHz. Or better
1		• Bit Processing: 32 Bits.
		• RAM: 4GB.
1		Graphic card latest technology
		<ul> <li>Hard disk 1TB.</li> </ul>
		• DVD writer.
1		<ul> <li>LED Monitor: 19 inch or better</li> </ul>
		<ul> <li>Key board.</li> </ul>
L	1	

		Mouse etc.
		<ul><li>Mouse etc.</li><li>With associated software.</li></ul>
		Printer: laser printer     Input power 220VAC 50Hz
07		Input power 220VAC, 50Hz
97.	SS Filtration	Autoclavable filter holder
	Assembly	• Manifold made of stainless steel.
		• Two-way valve for independent control
		• Able to mount on filters.
		• Table top model
		• Shall come with vacuum pump preferably peristaltic type.
		• Suction should be capable of processing micro pore filter of 0.4 micron.
		• Power supply 220V single phase
		Accessories
		• Complete with standard accessories includes:0.4-micron filter box of 200's
98.	Suction machine	• Mobile suction pump Oil-Less along with 4 anti- static wheels with lock.
	Heavy Duty/	• Convenient for operation, with following performance features:
	Electric suction	• Built-in Vacuum gauge with a range from: 0-650 mm Hg or more adjustable.
	Machine	• Flow capacity: Not less than 50 l/min or better
		• Explosion proof footswitch.
		• Capacity of two graduated suction bottle: 2500cceach or more (Autoclavable)
		• Heat resistant and disinfect able rubber tube for suction.
		• Over flow safety device.
		• Triple flow safety
		• Power requirement: 220V, 50Hz.
		• Complete with suction nozzle and other standard accessories
99.	Syringe Destroyer	• Surplus liquid in the needle should vaporize to avoid pollution.
		• No spark should eject during operation
		• Should work with low electric voltage to melt the needle instantly and
		destroy syringe body.
		• Working time should last for not more than 3 seconds.
		• Should work with built-in rechargeable battery.
		• Should destroy not less than 200 pieces of 20ml syringe.
		• Should destroy needle size from 18G to 34G.
		• Working noise level should be $\leq 50$ db.
		• Should have superheating protection temperature 85°C
100.	Syringe pump	• Power requirements: AC: 100-240V; 50Hz
		• Syringe size: 5ml, 10ml, 20ml, 30ml, 50/60ml
		• Increment:0.01ml/h
		Modes: Volume Weight and rate/Dose rate
		• Delivery / Flow rate: 0.1-999.9ml/h
		• Volume range 1-9999ml
		Occlusion Pressure: Adjustable
		• Full alarm system
		<ul> <li>Occlusion detection capability.</li> </ul>
		<ul> <li>Built-in battery backup: 2 hours or better</li> </ul>
		<ul> <li>Water-Proof Grade: IPX4 or Equivalent</li> </ul>
101.	Temperature	Bathtub to be manufactured of stainless steel
101.	-	Dathtub to be manufactured of stanness steel
	Controlled Bath Tub	• Key hole shaped bathtub for more working space around the upper body.
		<ul> <li>Electric height adjustable to enable ergonomic working methods for the</li> </ul>
		caregiver.
L		

		• Water capacity should be 200L or more.
		<ul><li>Bathtub must include thermostatic mixing valve set at max 43 degrees.</li></ul>
		<ul> <li>Bath must be designed to work with a mobile patient lift system to safely manage the entire bathing cycle.</li> </ul>
		<ul> <li>Control panel to be manufactured in fiber glass or stainless steel.</li> </ul>
		<ul> <li>Control panel with electronic control functions operated by push buttons or</li> </ul>
		touchpad.
		<ul> <li>Digital LED thermometer for display of shower and bathtub filling water.</li> </ul>
		<ul> <li>Bathtub must include adjustable foot support and include patient head pillow.</li> </ul>
		<ul> <li>Bathtub must include a patient shower with hose and shower handle.</li> </ul>
		CLEANING system:
		Integrated disinfection cleaning system.
		Disinfectant storage & Key-locked.
		• WHIRLPOOL system:
		• Push button-controlled whirlpool on/off.
		• Single whirlpool outlet / hydro massage that can be quickly fully cleaned and disinfected.
		• Water and air adjustment easily adjusted via the air flow control knob.
		• Single suction grid.
		• AUTOFILL system:
		• Autofill + with dual preset fill levels to choose from.
		• Push button controlled auto fill on/off.
		• Lighted display to show activated panel options.
		Dimension and load specifications:
		• Operating Height Range (bathtub): As per manufacturer
		• Length (bathtub): As per manufacturer
		• Length (inside bathtub) As per manufacturer
		• Width (bathtub): As per manufacturer
100	-	Weight Limit (patient): As per manufacturer
102.	Temporary	Modes: 8 or more.
	Pacemaker (Dual	<ul> <li>Pacing Rate: 30 – 200 ppm or more</li> <li>Atrial Pacing Pater 70 – 1000 ppm or more</li> </ul>
	Chamber)	<ul> <li>Atrial Pacing Rate: 70 – 1000 ppm or more</li> <li>Pulse Duration: 0.05-1.5ms</li> </ul>
		<ul> <li>Fulse Duration: 0.03-1.5hts</li> <li>Sensitivity:</li> </ul>
		Atrial: $0.2 - 10$ mV or more
		Ventricular: $1 - 20$ mV or more
		<ul> <li>Should have pacing pause mode</li> </ul>
		<ul> <li>Should have low battery indicator</li> </ul>
		<ul> <li>Batteries should provide minimum 7 days continuous operation</li> </ul>
		• Should be supplied with five sets of batteries.
103.	Temporary	Modes: 3 or more
	Pacemaker (Single	• Pacing Rate: 30 – 180 ppm or more
	Chamber)	• Atrial Pacing Rate: 70 – 1000 ppm or more
	··································	• Pulse Duration: 0.75ms or more
		• Sensitivity: 0.5 – 10mV or more
		Should have pacing pause mode
		Should have low battery indicator
		Batteries should provide minimum 15 days continuous operation
		• Should be supplied with five sets of batteries.
104.	Therapeutic	Microprocessor controlled Therapeutic Ultrasound with the following specifications:
	Ultrasound	• Operating voltage: 100-240 V ± 10% (50 Hz)
		Ultrasound frequencies: 1 and 3 MHz

		Mode: Continuous and pulsed
		• Pulse frequency: 1Hz - 100 Hz
		• Duty cycle: 10, 25, 50, 75%
		• Intensity:0-3 W/cm2,
		• Pulsed Number of US connections 2
		• US applicator large 5 cm
		• US applicator small up to 1.5 cm
		Standard Accessories:
		Multi frequency treatment
		Holder treatment head
105.	Three Bodies	Conveyor style refrigerators with individual door openings.
	Refrigerator	• With Stainless Steel, 18 gauge or better Body Trays
		With Telescopic Rack assembly with individual doors openings
		• With thermometer and easy to adjust temperature controller
		• Temperature range: upto 4°C
		Heavy-duty chrome plated
		• With 4   or better foam insulation
		Doors must have Magnetic Gas
		• With Casters
106.	Three Channel	3 Channel ECG holter system
	Holter monitor	• Recorder should be cable-free / cable.
		• 24 hrs recording
		• Recorder with software should be quoted separately
		Should have rechargeable battery
		Water resistant
		Should have Recording LED indicator
		• ADC resolution: 12 bits or more
		• Sampling rate: 105 samples/sec
		• Integrated filters and signal processing Frequency bandwith: 0.1(0.05)Hz - 70Hz
		• input voltage range: < 40mV
		• Interfaces for data analysis and signal control (USB)
		• Storage capacity: up to 7 days
		ECG Holter analysis software
		• For cable free software tools should be able to support signal viewer for
		Android/tablet PCs
		• Software Compatible PC System with UPS & printer.
		• With standard accessories.
107.	Transcutaneous	Channel : Dual isolated between channels
	Electrical Nerve	• 5   LED/LCD display
	Stimulators	• Pulse rate: $2 - 150$ Hz $1$ Hz / Stp
	(Tens)/Electric	• Pulse width : 30-300 micro sec 10 micro sec / Stp
	Stimulator	• ON time 2-90 seconds 1 sec /Stp
	Sumulutor	• OFF time 0-90 seconds 1 sec / Stp
		• Mode 5 TENS mode : B( Burst), N(Normal), M(Modulation), SD1,SD2
		• 2 EMS modes S(Synchronous), A(Alternate)
		• Waveform: Asymmetrical, Rectangular, Biphasic pulse
		• Current channels: 4, independent, fully galvanically separated
		• Current forms: 16 current forms or more
		• Pre-programmed protocols: 50 or more
		STANDARD ACCESSORIES : Length will be as per manufacturer
		• 2 x Strap 250x3 cm / 2x adhesive and conductive electrode
L	1	

		• 2 x Strap 100x3 cm/ 2x adhesive and conductive electrode
		• 4 x Rubber electrodes 5x8 cm or more, 2 mm female, set of 4.
		• 2 x Moist pads for rubber electrode 6x8 cm or more, set of 4.
		• 4 x Patient cable 2-core & 2 mm male plug - black, with colored clips
108.	Ultra Violet Lamp	• Floor Stand Type
	Large	• Radiators: 3 X 350 W or better
		Automatic cut off timer
		• Timer adjustment: up to 15 minutes
		Mounted on 04 or more lockable casters
109.	Ultra Violet Lamp	• Floor Stand Type
	Small	Parabolic reflector
		• Radiators: 1 X 350 W or better
		Automatic cut off timer
		• Timer adjustment: up to 15 minutes
		• Mounted on 04 or more lockable casters
110.	Ultrasonic Nebulizer	• Oscillation frequency 1.5MHz <u>+</u> 5% or better
		• Nebulization rate 0.3 ml / min
		• Nebulizer cup capacity 30cc or better
		• Particle size(mmad) 0.5m to 6m
		• Electrical requirement 220v/ 50Hz
		Nebulizer assembly with all Accessories including Child mask, Adult mask
111.	Urine meter	Cold light source,
		• Auto safe data in case of power failure.
		• Ascorbic acid, bilirubin, blood, glucose, ketene, leucocytes, nitrite PH.
		• Throughout normal mode. 60 sample / hour.
		Continuous mode. 120 sample/hours or better
		<ul> <li>Display: 5<sup>  </sup> large LCD or better.</li> </ul>
		<ul> <li>Memory: 1000 sample results.</li> </ul>
		Output Built-in thermal printer.
112.	Vein Detector	Handheld portable Vein finder / showing system.
		<ul> <li>Positive projection distance: 25cm~35cm or better.</li> </ul>
		<ul> <li>Projection control / adjustment available.</li> </ul>
		<ul> <li>Projection size control / adjustment available.</li> </ul>
		<ul> <li>Brightness control / adjustment available.</li> </ul>
		<ul> <li>Rechargeable built-in battery.</li> </ul>
		<ul> <li>Tabletop stand / Floor stand from the same manufacture should be providing with</li> </ul>
		the machine.
113.	Vortex mixer	<ul> <li>Touch operation or continuous mode with variable speed control 0-2400 rpm.</li> </ul>
115.	VOICEA IIIXCI	<ul> <li>Can be used for various mixing application with optional adapter.</li> </ul>
		<ul> <li>With fixed or adjustable speed.</li> </ul>
		<ul> <li>Voltage Ranges 100-240V, Frequency Required 50/60Hz and Power 60W.</li> </ul>
		<ul> <li>Mixing motion orbital and orbital Diameter 3.8-4mm.</li> </ul>
		<ul> <li>Shaded Pole motor with rating input 57-58W and Rating Output 10W.</li> </ul>
		<ul> <li>Speed Display scale must be available and weight 3-4kg.</li> <li>Environment Temperature Panges 5, 45°C and permissible relative humidity.</li> </ul>
		• Environment Temperature Ranges 5-45°C and permissible relative humidity =80%.
114	Water Bath	
114.	water Bath	Microprocessor controlled.
		• Capacity: 6 liters or more
		• Digital display for temperature controlled.
		• Temperature Range: Ambient to 80 °C
		• Accuracy: +-0.5 °C

		• Uniformity: +- 2.0°C
		<ul> <li>Material: Bath: seamless stainless steel with lid</li> </ul>
		<ul> <li>Case power coated steal</li> </ul>
		• Safety: over temperature cut-off, Alarm
		• Electric supply: 220v,50Hz
115.	Incinerator Plant	• The Hospital Waste Incinerator (Waste Management & Treatment System) shall
		be implemented as a turn-key project which shall comprise of a hospital grade
		Incinerator including Dry Scrubber along with allied accessories and operational
		services for proper disposal of infectious solid hospital waste materials.
		• The incinerator be suitable for dry and wet infectious waste of the hospital,
		plastic, paper, textile and rubber within average calorific value of 4kW/kg.
		• The unit shall be of high performance, capable to operate continuously for 12
		hours daily.
		• The primary source of fuel will be Natural Gas/ Diesel operated burner with the
		provision to operate on standby LPG fuel.
		<ul> <li>Continuous intervals feeding &amp; burning capacity of 50kg/ hour or better</li> </ul>
		• Calorific value of the feeding waste: 4kW/kg or better
		• Combustion with smokeless emissions having standby fuel arrangements of LPG
		as an alternate fuel source.
		• Automatic air distribution and regulation system should be electronically
		controlled.
		• Smokeless emission for at-least 98% of running time and emission gases in air
		with then prescribe limit (EPA guideline)
		PRIMARY CHAMBER (COMBUSTION)
		• The temperature should not be less than 800C.
		• Separate manual door for ash removal.
		• Blower centrifugal fans shall be provided to inject air to burn the waste and
		gases in combustion chamber
		• A see through window with protection flap for inspection of burner flame should
		be available.
		• Electrically/ electronically controlled natural gas operated burner with the
		provision to operate on standby LPG fuel.
		• Thermocouple/ sensor to monitor the temperature of the primary chamber.
		SECONDARY CHAMBER (COMBUSTION)
		• The post combustion chamber for flue gases to burn further for ensuring
		smokeless exhaust emissions.
		• Blower centrifugal fan(s) shall be provided to inject high pressure air to burn the
		waste and gases in post combustion chamber for ensuring proper burning of
		gases before exhaust. These fans will have an automatic servo controlled system
		for proper injection of air according to the requirements.
		• Electronically controlled automatic air distribution and regulation system.
1		• The temperature should not be less than 1100°C.
1		• Electrically/ electronically controlled natural gas operated burner with the
1		provision to operate on standby LPG fuel.
		• Thermocouple/sensor to monitor the temperature of the secondary chamber.
		Control Box
		• PLC based control box with sealed door. The controls should be programmable

		for town and the direction and for the state of the
		<ul> <li>for temperature adjustment, feeding intervals etc.</li> <li>It should have provision for electronic ignition burner timer, feed interval timer, shut down timer, post combustion chamber temperature controller, and controls for burner, blower fans etc.</li> <li>Emergency Shutdown button for shutting it off in case of emergency at appropriate site.</li> <li>Electrical requirements, Line voltage 400V, 50Hz Single/3Phase</li> <li>Manual ash removal tool</li> <li>Ash bin</li> <li>Digital weighing scale for weighing the waste with the following specifications.</li> <li>Mobile main trolley of SS (anti magnetic) with cover for transportation of hospital waste from wards to Incinerator site/room 125cmx100cmx60cm (LxWxH), 20 cm wheel size with spillage removal valve (Qty-4).</li> <li>Pair of leather gloves for hospital waste handling staff (Qty-10).</li> <li>Pair of long safety shoes for hospital waste handling staff (Qty-10).</li> <li>Fire extinguisher 10kg (Qty 3)</li> <li>Fire extinguisher 20kg (Qty 1)</li> <li>LPG cylinders 45kg or above size (Qty 3)</li> <li>Term and condition</li> <li>The proponent for EPA approval will be procuring agency and contracting firm will extend all the required assistance throughout the process.</li> <li>The supplied firm will be responsible for operating the incinerator for 12 hours on daily basis for one year.</li> <li>Running cost of the incinerator will be borne by Procuring entity.</li> <li>For ensuring clean environment the firm should be responsible for EPA approval before the inspection. (The firm must provide affidavit for EPA approval)</li> <li>CE MDD / MDR or Regulation (EU) 2016/426 Appliances burning gaseous fuels</li> </ul>
		certificate or relevant mandatory certificate
116.	Alarm Signaler with light / sound / vibration	<ul> <li>Works from 100 feet or better</li> <li>Audible siren up to 95 db or better</li> <li>3 colors LED display</li> <li>The amplified sound should be delivered up to a signal of not more than 100+dB which should increase over a period of time. For a wireless smoke/fire alarm system, the system should have enough range to cover all sections of the home or occupied space. There should be a battery back-up for the system in the event of a power failure, or if the system is unplugged from the mains, to ensure that it will be sufficiently powered for another 72 hours. An alert should be transmitted when the battery power is low and Needs to be replaced.</li> <li>The Wireless Alarm Monitoring System designed to bridge the gap between existing warning devices designed for those without a hearing loss. The system provides a complete reliable source for Deaf and Hard of Hearing individuals to be alerted during emergency situations.</li> </ul>
117.	Pre-Programmed Hearing Aids	<ul> <li>An electronic device that amplifies sound. Intended for people suffering from hearing loss.</li> <li>Main function is the understanding of oral language and it also aids perception of environmental sounds.</li> </ul>

٠	The device must be portable and attached to the wearer's ear through an ear
	mold, foam insert or other coupling method.
٠	Hearing aids vary in power and pattern of amplification, depending on the
	wearer's degree and type of hearing loss.
٠	Pre-programmed hearing aids are set to specific amplification patterns,
	appropriate to generic types of hearing loss, prior to fitting.
٠	With complete standard accessories.

S. No	Nomenclature	Specifications		
1.	Baby Cots	<ul> <li>Powder coated mild steel 18 SWG tubular frames.</li> <li>Lying area made of rectangular hollow pipe framewith wire mesh.</li> <li>Mobile on 50 mm dia. Rubber castors.</li> <li>Safety sides can be adjustable up &amp; down easily.</li> <li>Standard cushioned Rexene foam mattress with 2 inchthickness.</li> <li>Laying area 55 cm x 100cm.</li> </ul>		
2.	Newborn Baby Crib (imported)	<ul> <li>Size:850*500*780-980mm</li> <li>The height can be adjusted by the gas spring;</li> <li>Trendelenburg is adjustable by gas spring, from 0°—12° hi-low range:980mm-780mm</li> <li>High density and transparent basin with mattress three color for choice: green, pink, blue.</li> </ul>		
3.	Bed side Locker	<ul> <li>Overall size of locker 40cm width, 40cm depth, 80cm height.</li> <li>Top made up of SS 18 SWG.</li> <li>One drawer. One cabinet with space between thedrawer and cabinet.</li> <li>Base made of 11 round/square pipe.</li> <li>FINISH: Polyester powder coated finishing</li> </ul>		
4.	Bed side steel stairs	<ul> <li>Mild steel frame made of hollow pipe diameter 1"Shaped for two steps.</li> <li>Front and rear legs provided with steel bars.</li> <li>Wooden step duly covered with rubber mat andsides dressed in aluminum/strip/Rubber.</li> </ul>		
5.	Bed with side Table and over bed trolley (local)	<ul> <li>Bed:</li> <li>Over all dimension (LxWxH) 195cmx 85cmx55cm (±10)</li> <li>Four section beds with all welded enameled mainframe constructed from rectangular section steel tube of 16SWG steel sheets.</li> <li>Adjustable back rest and leg section by means oftwo independent cranks with square threads pitch revolving in steel nuts by means of rectangular handle, The cranks have safety features when reach maximum position.</li> <li>Removable bed ends fitted with 10mm laminated plastic/backlite panels.</li> <li>Platform fitted with epoxy painted steel bars of 18SWG steel.</li> <li>The bed is mounted on double ball bearing, swivelcastors of nontin and weather proof rubber. Two fixed at head end and two swiveling withindependent breaks at foot end.</li> <li>Rubber bumpers at all four corners</li> <li>Four Mattress holders (2 at each side)</li> <li>With I V pole.</li> <li>Structure of the platform shall be smooth andseamless.</li> <li>Platform shall not contain cavities in order to avoidhideouts/safe areas for germs.</li> <li>All the corners of the platform shall be round andsmooth.</li> </ul>		

1		
		• All the joints shall be made smooth.
		• Polyester powder coated finishing.
		Bed side Locker:
		• Overall size of locker 40cm width, 40cm depth, 80cm height.
		• Made up of SS 18 SWG.
		• Top made of CP galvanized steel sheet,
		• One drawer. One cabinet with space between thedrawer and
		cabinet.
		• Base made of 1 round/square pipe.
		• FINISH: Polyester powder coatedfinishing
		Over Bed Table:
		• Top made of Stainless steel.
		• 100cm, 100cm, 40cm
		• Mobile on four castors.
		Side Railing:
		• Adjustable length allows for use at bed rail toprevent falling
		out of bed.
		Collapsible in 2 steps, Height of Rail 18 (high from the point of
<u> </u>		fixing on the structure of bed)
6.	Beds with side tableover bed	<u>Bed</u> :
	trolley (imported)	<ul> <li>Over all dimension (LxWxH) 195cmx 85cmx 55cmor as per standard (±10)</li> </ul>
		• The Bed must facilitate a metal constructed; mattresssurface covered with 4-section stainless steel.
		• Adjustable back rest and leg section by means of twoindependent cranks.
		Rubber bumpers at all four corners
		Mattress holders
		• With I V pole.
		<ul> <li>Structure of the platform shall be smooth and seamless.</li> </ul>
		<ul> <li>Platform shall not contain cavities in order to avoidhideouts/safe</li> </ul>
		areas for germs.
		• All the corners and joints of the platform shall beround and
		smooth.
		Bed side Locker:
		• Overall size of locker 40cm width, 40cm depth, 80cm height or
		standard.
		• Frame made of stainless steel / abs material.
		• Top made of CP galvanized steel sheet / abs material.
		One drawer. One cabinet
		OVER BED TABLE:
		• Top made of Stainless steel/ABS.
		• Height adjustable approx. 750mm to 1100 mm
		• Height may be raised or lowered by lifting releasebar under the table top by hydraulic mechanism orspring.
		<ul> <li>Mobile on four castors.</li> </ul>
		Side Railing:
		• Adjustable length allows for use at bed rail toprevent falling
		out of bed.
	ı	

7.	Children Bed (Imported)	• Size:1770*900*550mm
/.	Children Deu (Importeu)	<ul> <li>Blank space designed keep hands be nipped</li> </ul>
		<ul> <li>Blank space designed keep hands be inpped</li> <li>Four high-grade mute casters, diagonal brake</li> </ul>
		<ul> <li>The guardrail can be moved up and down with security designed</li> </ul>
		<ul> <li>Manual double cranks or single crank.</li> </ul>
		c
		• High strength aluminum alloy guardrail, can move up and down, more securely
		• Blank space designed keep hands be nipped
		• The crank is shaped once by stainless steel
		Four high grade mute casters diagonal brake
8.	Couch for Ultrasound /	• Frame to be one piece welded mild steel powdercoated.
	Examination couch	• Headrest to have step less angle adjustmentfrom
		horizontal to 75°
		• 2 Mattress of 2.5 lbs./cft density with water proofsterilize able
		cover.
		• Paper roll holder to be fitted at head end and suitable for
		paper rolls up to 510mm wide.
		• Size Approx. 2000mm x 500mm with standardheight.
9.	Cylinder Trolley 240CFT	• Main structure made of 1 di acicular pipe.
		<ul> <li>Mobile on two castors of 8l dia</li> </ul>
		• For carrying 240Cft cylinder with safety chainfor holding
		cylinders
10.	Cylinder Trolley 48CFT	• Main structure made of 1 di acicular pipe.
		<ul> <li>Mobile on two castors of 5<sup>  </sup> dia</li> </ul>
		• For carrying 48Cft cylinder
		• With safety chain for holding cylinders
11.	Dissection Table (small)/	• Approximate dimension; 4ft X2ft X 3ft (L x Wx H)
	Mortuarytable	• It should made of stainless steel with a frame made ofrugged torsion resistant stainless steel profile.
		<ul> <li>It should have 4 solid rubber swivels locking castors</li> </ul>
		C C
		• Tabletop depth should be of approx. 15mm slopingtoward the drain.
		• It should made of stainless steel with a frame made ofrugged torsion resistant stainless steel profile.
		• It should have 4 solid rubber swivels locking castorsTabletop
		depth should be of approx. 15mm slopingtoward the drain.
		• On drain side 15 ltr container, hole in center fordrainage.
		Accessories:
		• Stainless steel Bucket 10 ltr Qty 2
		• Headrest
		Body support shim
		• Foot rest
12.	Dissection Table(large)/	• Approximate dimension; 6ft X2ft X 3ft (LxWxH)
	Mortuary table	<ul> <li>It should made of stainless steel with a frame made of rugged torsion</li> </ul>
	-	resistant stainless steel profile.
		<ul> <li>It should have 4 solid rubber swivels locking castors</li> </ul>
		<ul> <li>Tabletop depth should be of approx. 15mm slopingtoward the</li> </ul>
		drain.
		<ul> <li>On drain side 15 ltr container, hole in center fordrainage.</li> </ul>

		Accessories:
		Stainless steel Bucket 10 ltr Qty 2
		Headrest
		Body support shim
		Foot rest
13.	Dressing Trolley	• Constructed from stainless hollow pipe of 1 inch.
		• With two shelves made of stainless steel, on top andbottom with side guards.
		• Two stainless steel drawers under the top shelf.
		• Stainless steel bucket and bowl with holders.
		• Mobile on 100mm dia rubber castors.
		• Push handle for easy movement.
		• Size: (70 cm L*50 cm W *90 cm H)
14.	Drip stand	Heavy Weight base mobile on 50 mm dia castors
11.	Dipsuid	<ul> <li>Powder coated base and column with telescopeadjustment.</li> </ul>
		<ul> <li>4 ports I/V rod of wire diameter0.5 mm.</li> </ul>
15.	Dry Clean Trolley	White cage trolley for transporting bulk linen.
15.	Dry Clean Honey	<ul> <li>Four rubber wheels.</li> </ul>
		<ul><li>Dimension 720mmx960mmx850mm</li></ul>
16		• Weight 15kg.
16.	Electric CardiacBed/ICU Bad (Imported)	Motorized, battery operated Cardiac /ICU bed bed with remote controller.
	Bed (Imported)	• The Bed must facilitate a metal constructed, mattress surface covered with 4-section abs Materials, ABS/SScovered sub-frame.
		• The Sub-frame under the mattress surface must becovered with steel Material.
		• The Bed must have fold- Away ABS side rails on bothsides of the bed, controlled separately.
		• The bed facilitates a hand control panel and Integrated panel which
		must have adjustments of the following functions
		a) Backrest up-down
		b) Footrest up-down
		c) bed height up-down.
		• The bed must have electrical Trendelenburg andreverse Trendelenburg adjustment.
		Between $\pm 12^{\circ}$ ormoreby means of hand control unit.
		• Fowler, vascular, cardiac chair position and auto-contour positions by hand control unit and integrated panel.
		<ul> <li>The backrest section of the bed must be able to beadjusted between 0-70<sup>0</sup></li> </ul>
		<ul> <li>The bed must be equipped with auto-regression systemat back rest.</li> </ul>
		<ul> <li>The footrest section must be able to be adjusted between 0-28<sup>° or</sup> more.</li> </ul>
		<ul> <li>Central brake system or lockable castors.</li> </ul>
		• The bed must facilitate 4 IV pole sockets and head andfootboards sockets made a plastic, located under the head and footboards.
		• The bed must facilitate 4 protective bumpers on external corners to prevent damage on the contact areaduring bed movements and transfer.
		• The bed must work on 220V/ 50 Hz have rechargeablebattery backup for movement control.
		<ul> <li>There must be urine bag hangers on both sides of thebed.</li> </ul>
1		

		Gradually adjustable footrest.
		• 5 inch dia casters two of them must be lockablediagonally.
		• The metal parts of the bed must bed epoxy powderquoted.
		• The bed must have a safe load bearing capacity of 230Kg or more.
		• The bed's height must be able to be adjusted between40cm and 70cm. or better
		• Overall width 85 cm or more.
		• Overall length 195cm or more.
		• Side Railing/ side guard
		• The bed should have facility to take X-Ray of thepatient over the bed.
		Mattress should be provided with high density good quality according to the bed size, anti-bacterial, and water proof, shaped according to human body or bed position.
17	Folding Samon	
17.	Folding Screen	<ul> <li>Frame in four parts constructed from fully plastic-coated M.S. hollow tubular pipe 1 dia.</li> </ul>
		<ul> <li>All frames fixed together with Steel universaljoints for easy movement of each part.</li> </ul>
		• Curtains fitted with spring loaded rods,
		• Mobile on eight, castors of 75 mm dia.
		<ul> <li>Curtain of wash and wear polyester cloth/ plasticcloth in variety of colors.</li> </ul>
18.	Gynae examination couch	• Couch top made in 3 sections.
		• Leg section removable.
		• Backrest adjustable with friction clutch
		• With hand grips on both the sides.
		• Cushioned with Rexene and foam mattress.
		• Sliding stainless steel receptacle mounted under thehip area,
		• Complete with pair of Lithotomy poles and tyingstrips.
19.	Instrument Trolley	• Frame constructed of stainless-steel hollow pipe,
		• Complete with two Stainless steel trays havingopen space
		between it.
		<ul> <li>Both trays provided with reinforcement as sideguards for safety.</li> </ul>
		<ul> <li>Mobile on 50mm dia, twin wheels.</li> </ul>
		<ul> <li>Size(60x90)cm</li> </ul>
20.	Manual CardiacBed/ICU	Hydraulic Hospital Bed suitable for use in intensive /coronary care
	Bed	units.
		Feature:
		• Adult Intensive Care bed with head and footpanels
		• Height adjustment with foot pedals 40cm to70cm or more on either side.
		<ul> <li>The bed must have Trendelenburg and reverseTrendelenburg adjustment.</li> </ul>
		Between +12 degree by means of hand controlunit.
		<ul> <li>The backrest section of the bed must be able to beadjusted between 0-70 degree</li> </ul>
		• The bed must be equipped with auto-regressionsystem at back
		<ul><li>rest.</li><li>The footrest section must be able to be adjustedbetween 0-35</li></ul>

		degree or more.
		Central brake system or lockable castors.
		• The bed should have facility to take X-Ray of thepatient over the bed
		• Back plate and knee rise by gas shock mechanism o make a four position
		<ul><li>fowler position.</li><li>5 inch dia castors, foot operated central lock forall castors.</li></ul>
		<ul> <li>Two mattress holders on each side.</li> </ul>
		• Structure of the platform shall be smooth and seamless.
		<ul> <li>Platform shall not contain cavities in order toavoid hideouts/safe areas for germs.</li> </ul>
		<ul> <li>All the corners of the platform shall be round and smooth.</li> </ul>
		<ul> <li>Size: Length 195 cm or more</li> </ul>
		<ul> <li>Width 85 cm or more</li> </ul>
		<ul> <li>Accessories:</li> </ul>
		<ul><li>Bed fitted patient lifting pole.</li><li>I.V Rod</li></ul>
		• To be provided with CPR board. Side Railing:
		<ul> <li>Adjustable length allows for use at bed rail to prevent falling out</li> </ul>
		of bed. Collapsible in 2 steps, Height of Rail 18 (high from the point of fixing onthe frame of the bed).
		<ul> <li>Mattress should be provided with high density goodquality</li> </ul>
		according to the bed size, anti-bacterial, and
		water proof, shaped according to human body or
		bed position
21.	Orthopedic TractionBed	Head & Foot Panels: Elegant High
		• Size: L195cm×W85cm or more
		• Height:53cm
		• Functions: Two Functions
		• Movements & Controls:
		Back Lifting: Manual
		Quality Molded Panels
		• Top: Four Sections
		• Framework: Stainless Steel Panels
		Stainless Steel Balkan Beam
		• Frame & Pulley Attachment
		and Patient Support Lifting Pole
		Head & Foot Panels: Elegant High
		Color: Powder Coated
		Bed:
		• Over all dimension (LXWXH) 195cmx 85cmx55cm
		• Four section beds with all welded enameled mainframe
		constructed from rectangular section steel tube of 16SWG steel sheets.
		• Adjustable back rest and leg section by means of two
		independent cranks with square threads pitch revolving in high
		<ul><li>carbon steel nuts by means of rectangular handle.</li><li>Removable bed ends fitted with 10mm laminatedplastic panels.</li></ul>
		• Removable bed ends fitted with 10mm laminated plastic panels.

		-
		• Platform fitted with epoxy painted steel barsof 18 SWG steel.
		•The bed is mounted on double ball bearing, swivel castors of non- tin and weather proof rubber. Two fixed at headend and two swiveling with in dependent breaks at foot end.
		Rubber bumpers at all four corners
		<ul> <li>Four Mattress holders (2 at eachside)</li> </ul>
		• With I V pole.
		• Structure of the platform shall be smooth and seamless.
		• Platform shall not contain cavities in order to avoidhideouts/safe
		areas for germs.
		• All the corners of the platform shall be round and smooth.
		• All the joints shall be made smooth.
		• With quality molded panels.
		• Stainless steel Balkan beam.
		• With frame and pulley attachment
		• With patient support lifting polls
		• Complete with all orthopedic attachments and accessories.
		Side Railing:
		• Adjustable length allows for use at bed rail toprevent falling out of bed.
		• Collapsible in 2 steps, Height of Rail 18 (highfrom the point of
		fixing structure of bed)
22.	Patient electric bed(Imported)	Motorized .battery operated patient bed with remote controller.
		• ABS head & foot boards can be removable.
		• Aluminum alloy side rail, 6-staff, foldable type withsafe lock
		• Bed sheet top made from perforated steel, epoxypowder coated and baked finish.
		Bedframework made from mildsteel ERWrectangular
		tubes.
		• 5-inch covered casters with brake
		• The bed must have a safe load bearing capacity of 230Kg or more.
		<ul> <li>Rechargeable built-in battery with charger inputpower 220VAC, 50Hz</li> </ul>
		Approximate dimension
I		• Overall length 195cm or more
		• Overall width 85cm or more
		• Minimum height 45cm or more
		Maximum height 70cm or more
		• Back section up/down:0-65° or more
		• Knee section up/down:0-25° or more
		Standard accessories
		Head and foot board
		• Besiderail
		Hand set
		• Drip hole 1 no. of IV rod
		• Urinehook
		• Mattress should be provided with high density good quality
		according to the bed size, anti-bacterial, and water proof, shaped

		according to human body or bed
00		Position.
23.	Patient Trolley	<ul> <li>Single crank,</li> <li>Dubb or burger grands on all sides</li> </ul>
		<ul> <li>Rubber bumper guards on all sides,</li> <li>Makila on 15 22 and dia nukhan aastana</li> </ul>
		<ul> <li>Mobile on 15-23 cm dia rubber castors,</li> <li>Demonstella (persona statistical data data data data data data data da</li></ul>
		Removable tarpaulin / Rexene stretched detachablestretcher.
		Provided with oxygen cylinder holder,
		• Utility tray
		• I.V pole.
		• Safety side guards with revolving latch for up &down adjustment.
		• Overall Size: length 5 ft. 41, width: 2 ft., adjustable
		height: maximum 2 ft. 6l.
24.	Revolving steel stool	• Stool with 16 SWG stainless steel structure andseat of
		diameter 300mm.
		• Height adjustable by simple spin mechanism.
		• Height adjustment not less than 53cm to 68cm.
25.	Stretcher (Imported)	• Lenth: 6 ft or more
		• Width: 2 ft or more
		• Made of stainless steel.
		• 4 rubber castors having 23 cm dia.
		Castors should Lockable
		• Top made of stainless steel
26.	Stretcher(Local)	• Lenth: 6 ft or more
		• Width: 2 ft or more
		• Made of stainless steel.
		• 4 rubber castors having 23 cm dia.
		Castors should Lockable
		• Top made of stainless steel
27.	Surgeon revolvingsteel stool	• Stool with 16 SWG stainless steel structure and seatof diameter 300mm.
		• Height adjustable by simple spun mechanism.
		• Height adjustment not less than 53cm to 68cm.
		• Mobile on 4 castors.
		• Sample to be approved.
28.	Wheel Chair	• Non folding wheel chair,
		• 2 big wheels and 2 small wheels
		• Should have footrest/ Foot support.
		• With safety belt.
		• Should have backrest/ Lumber support.
		• Comfortably cushioned seat width 38 x 43cm, waterproof covered.
29.	Quadriceps Bench	Fixing straps
		• 2 Velcro straps 5x100cm (leg)
		• 1 Velcro Strap 5x200cm (Chest)
		Group of Weight s, Painted Black
		• 2 units 0.5 kg
		• 2 units 1 kg

		• 2 units 2 kg		
		<ul><li> 2 units 2 kg</li><li> Optional Accessories</li></ul>		
		<ul> <li>Additional Arm for Quadriceps Bench</li> </ul>		
		<ul> <li>QUADRICEP BENCH with 1 arm</li> </ul>		
		Technical Features		
		<ul> <li>Dimension 120 x 88 x 87 cm.</li> </ul>		
30.	Air 240 CftCylinder	• The cylinder must be brand new standard quality.		
		<ul> <li>During sample evaluation the bidder must provide the evidence that the sample provided is from the same manufacture whose authorization is attached with submitted bid.</li> <li>BOC/Equivalent testing certificate must be provided</li> </ul>		
31.	Air 48 CftCylinder	• The cylinder must be brand new standard quality.		
		<ul> <li>During sample evaluation the bidder must provide the evidence that the sample provided is from the same manufacture whose authorization is attached with submitted bid.</li> <li>BOC/Equivalent testing certificate must be provided</li> </ul>

259.	Mortar & Pastel	Best quality, good material
260.	Steel Matrix Bands Different Size	Best quality, good material
261.	Abdominal Retractor	Consisting Of:
		1 X Retractor With 2 Pairs Exchangeable
		Valves
		1 X Gusset Retractor
		1 X Denis - Browne Retractor With 4
		Blades
262.	Stand for three sterilizer drum with Drained	Best quality, good material
263.	Basin S.S.	Best quality, good material
264.	Basin Stand	Best quality, good material
265.	Dressing Drum	Size 10x10 stainless steel autoclavable
266.	Dressing drum large size	Size 12 x 18 stainless steel autoclavable
267.	Chest Intubations Set	Best quality, good material
268.	Point's Aspirator	Best quality, good material
269.	Tongue Depressor Steel	Best quality, good material
270.	Proctoscope for adult & child	Best quality, good material
271.	Proctoscope	Premium Grade Stainless Steel
272.	Screw driver Ser 3.5mm	Best quality, good material
273.	Screw driver Ser 4.5mm	Best quality, good material

		Category D
S.No	Nomenclature	Specifications
1.	Adult Weighing Scale	<ul> <li>Scale to have low level platform finished with non- slip cover, measuring Dial to be fitted at waist heightsteel yard arm.</li> <li>Capacity: 0 kg -150kg or better.</li> <li>Fitted with imperial and metric height measuring rod.</li> </ul>
2.	Ambo Bag Adult	<ul> <li>Silicon Resuscitation Bag with adult face mask sizes 3, 4, 5 &amp; Airway size 3, 4, 5 with E2 valve and fully autoclavable.</li> <li>Reservoir Bag volume 2Literor more.</li> <li>Oxygen Reservoir Volume approximately 2500 ml for adult.</li> <li>Tidal maximum volume: approximately 1000ml for adult.</li> <li>Resuscitation bag to be manually operable and able to be connected to an oxygen source up to 100% for ventilation through a mask or an endotracheal tube.</li> <li>To be able to connect to an oxygen source up to 100%. Unit to be supplied with a carrying case.</li> <li>Re-usable and must be autoclavable</li> </ul>
3.	Ambo Bag Paeds	<ul> <li>Silicon Resuscitation Bag with infant / child face mask sizes 00, 0, 1, 2 &amp;airway size 0, 1, 2 with E2 valve and fully autoclavable.</li> <li>The resuscitator to meet with all requirements lay down by international standards.</li> <li>Reservoir Bag volume approx. 600ml.</li> <li>Oxygen Reservoir Volume approx. 2500ml for adult and child</li> <li>Tidal maximum volume: approx. 200ml for infant</li> <li>Unit to operate in all climatic conditions and not to be dependent upon a power supply.</li> <li>To be able to connect to an oxygen supply up to100%.</li> <li>The resuscitator must be able to ventilate through a mask and/or endo tracheal tube.</li> <li>Re-usable and must be autoclavable.</li> </ul>
4.	Analytical/ElectroniC Balance	<ul> <li>The balance to weigh up to 400g in 1 mg increments.</li> <li>The balance to be small, flat, and conveniently housed in portable lightweight easy to clean housing.</li> <li>To have a 7-digit luminous display with overload protection.</li> <li>To come complete with data input and output terminals and a printout terminal</li> </ul>
5.	Attendant Bench	<ul> <li>Benches without back support Wood Work:</li> <li>Top Strips 06 Nos of size 1200mm x 50mm x 20mm</li> <li>Strips made of solid shesham wood with 8 to 10 % moisture with termite treatment.</li> <li>Complete high-quality polish and lacquers for a long lasting shine.</li> <li>Shesham finished with 30 % gloss with 1 base 1 top coat.</li> <li>Steel Frame Structure</li> <li>Steel frame made of 18 gauge mild steel square pipe structure consist of 2 Nos top long rails.</li> <li>Frame size 1175mm x 25mm x 25 mm.</li> <li>Legs 04 Nos size 450mm x 25 mm x 25 mm x 25 mm</li> <li>Center support rail 01 of size 1175 mm x 25 mm x 25 mm</li> <li>Rubber shoes 04 of best quality.</li> </ul>
6.	Autopsy Scale	<ul> <li>Capacity: 25Kg or better</li> <li>Size of reading Dial: 13 or better</li> <li>With removable pan</li> </ul>

		With chrome-plated housing
7.	Baby Anesthesia Set	<ul> <li>Complete accessories anesthesia set for children.</li> <li>IV Canola's different sizes</li> <li>Facemasks different sizes re-usable</li> <li>Airways different sizes re-usable</li> <li>Pediatric circuit re-usable Ambo bag</li> </ul>
8.	Baby Resuscitation Apparatus	<ul> <li>Pediatric circuit re-usable Ambo bag</li> <li>Complete kit in a carry bag including: <ul> <li>Infant Resuscitator: -</li> <li>Silicon Resuscitation Bag with infant face mask sizes 00 &amp; 01 with non-re-breathing valve with 40cm of H2O pressure release</li> <li>Fully Autoclavable.</li> <li>Reservoir Bag volume 250ml</li> <li>Resuscitation bag to be manually operable and able to be connected to an oxygen source up to 100% for ventilation through a mask or an endotracheal tube.</li> <li>To be able to connect to an oxygen source up to100%.</li> <li>1.5-meter O2 tubing</li> <li>Foot Suction:</li> <li>Compact, lightweight, easy to handle and operate durable rubber bellow long lasting stainless spring to provide friction free pumping Completely Autoclavable polycarbonate vacuum jar with lid (400 ml capacity)</li> <li>Scratch proof powder coated frame.</li> <li>Laryngoscope:</li> <li>Fiber-optic laryngoscope with stainless steel straight blades of size 0 &amp; 1 with penlight handle</li> </ul> </li> </ul>
		<ul> <li>Airways:</li> <li>Silicone, Autoclavable&amp; reusable in sizes 000, 00 &amp;0</li> <li>Oxygen Cylinder:</li> <li>Portable Oxygen Cylinder 1.5 lit complete with oxygen regulator and tubing.</li> <li>Complete kit in one carrying case.</li> </ul>
9.	Baby Weighing Scale	<ul> <li>Scales to be highly accurate and stable.</li> <li>Splash proof key board.</li> <li>Removable baby weighing pan.</li> <li>Automatic hold, slow and tare controls.</li> <li>Capacity: 0 kg to 20 kg or better.</li> </ul>
10.	Binocular Magnifier	<ul> <li>Binocular Head band</li> <li>W/Optical Grade Lens plate</li> <li>Magnifier 2 to 4 times.</li> </ul>
11.	Blood ScreeningCounter	<ul> <li>8 keys laboratory counter with totalizer</li> <li>To facilitates leukocyte differential count including basophils, eosinophil's, lymphocytes, monocytes, myelocytes, segmented and band (neutrophils)</li> <li>Each key to register a unit corresponding to the identified leukocyte.</li> <li>After having counted 100 units of leukocytes a bell should sound and the percentage of every type of leukocytes can be directly read.</li> <li>Hundred steps for one thousand.</li> </ul>
12.	Box For Disposal Of Sharps	<ul> <li>Material: Plastic</li> <li>Capacity: 15 Litter or more</li> <li>Semi translucent lid</li> <li>Suitable for hazardous items such as syringes, broken blades, hooks,</li> </ul>

		bottles and glass shards
13.	BP Apparatus WithStand	<ul> <li>Constructed from shatter resistant materials fully protected plastic manometer tube with clear reading scale, range 0 to 300 mm Hg.</li> <li>Integral mercury reservoir.</li> <li>Spring coil tube with bulb. (Pump).</li> <li>Pediatric and adult cloth cuff with Velcro fastening cuff holder.</li> <li>Unit mounted on stable 4 to 5 castor mild steel base.</li> </ul>
14	DD Manaumy Desist on With	
14.	BP Mercury DesktopWith Paeds And AdultCuff	<ul> <li>Sphygmomanometer in lightweight case.</li> <li>Recessed plastic manometer tube range 0-300mm Hg with shatter proof reservoir.</li> <li>Velcro fastening cuff for adult and Paeds.</li> <li>Provision for storage for bulb, valve tubing and cuffs.</li> </ul>
15.	BP Set WallMounted	<ul> <li>Sphygmomanometer Mercurial Wall Mounted</li> <li>Sphygmomanometer constructed from shatter proof materials.</li> <li>Fully protected plastic manometer with clear reading scale, range 0-300mmHg to be mounted on wall.</li> <li>Integral mercury reservoir, spring coil tube, bulb, valve, Velcro fastening cuff adult &amp; Pediatric.</li> </ul>
16.	Breast Pumps	Made of best quality plastic material.
17.	Centrifuge Tubes(Glass)	<ul> <li>Good quality made from glass. Tubes are conical- bottomed, with a skirt that extends beyond the bottom of the tube so it can stand without support.</li> <li>Branded</li> </ul>
18.	Centrifuge Tubes(Plastic)	<ul> <li>Good quality made from plastic. Tubes are conical- bottomed, with a skirt that extends beyond the bottom of the tube so it can stand without support.</li> <li>Branded.</li> </ul>
19.	Clamps	• For hanging of films, good quality
20.	Cold Pack	<ul> <li>A reusable gel pack with protection sleeve.</li> <li>Can be cooled down in the refrigerator or freezer up until -27 degrees.</li> <li>Flexible when frozen</li> <li>Reusable, Non-toxic, Latex free</li> <li>When the package is cool it can be used to relief pain of wounds and swellings</li> </ul>
21.	Containers For Sputum	Sample based
22.	Containers For Urine	Sample based
23.	Cover Slip	<ul> <li>From good quality glass material,</li> <li>Size:- 25.4x76.2mm</li> <li>1.1.2mm thick</li> </ul>
24.	Cupboard SteelLarge	<ul> <li>18 gauge steel powder coated with shelves on one side and hanging unit on one side.</li> <li>Size 4 ftx 6 ftx 2 ft(W x H x D)</li> <li>Sample to be approved</li> </ul>
25.	Digital Thermometer	Best quality
26.	DLC Counter	Size: Standard 8keys.

		Dual reset knob.
		Signal bell when 100 cells counted
27.	Dumbbell Rack	<ul> <li>Double (Holds 10 Pairs)Holds 10 pairs of dumbbells</li> </ul>
		• Frame color: Silver or Black
		Protective urethane saddles
		Heavy-duty steel construction
		Powder coat paint finish
		Some assembly required
		• Perfect for any gym or studio
		• Dimensions (D x W x H): 26 in x 86.75 in x 31.5 in
28.	Ear Syringe	• Ear Syringe for cleaning of ear
		• Stainless steel made.
		• Capacity: 10 ml or more.
29.	Electric Heating Pads	Soothing warmth relieves tired, aching muscles and temporary
		arthritic pain and light weight, comfortable to use.
		• Use them on most parts of the body, arms legs, shoulders, back
		abdomen, elbows, knees, ankles.
		• Absorbent sponge provides penetrating moist heat.
		• Soft cover with tie bands to hold the heating pad in place.
		• Removable, washable cover with snap closure.
		• 100% moisture-proof, vinyl covered pad.
30.	ENT Diagnostic Set(Adult	Adult & Paeds Diagnostic set comprising with 3 standard specula.
	And Paeds)	• With ophthalmoscope head.
		Battery Handle with chargeable batteries
		• Nasal speculum,
		<ul> <li>Laryngeal stem to take tongue depressor,</li> </ul>
		<ul> <li>Laryngeal or post nasal mirror</li> </ul>
		Antrum sheath.
		<ul> <li>Large handle and two spare lamps.</li> </ul>
		<ul><li>All to be supplied complete in plastic covered case.</li></ul>
21	ESD Direction	
31.	ESR Pipettes	<ul><li>Made from Pyrex with graduated scale.</li><li>Branded</li></ul>
20	ECD Class 4 East Electron to a	
32.	ESR Stand For FiveTube	Good quality , washable, quality material & can hold five tubes
33.	Examination Torch	• Good quality, Water resistant ,runtime 1 hour, weight 35 g without
		battery ,head diameter 14mm.
34.	Floor MountedParallel	Handrails adjustable in height
	Bars	• Length: 3000mm or better
		• Width adjustable: min 350 – max 880 or better
		• Height adjustable: min 710 – max 1040 or better
35.	Floor Scale	• Capacity: 1000Kg
		Stainless Steel / ABS
		LCD Display
		• Size: 50 x 20 x 2 or better
36.	FSP Pipette	Good quality, washable, quality material
		• Branded
37.	Glass Pipettes	Made from durable material with graduated scale.
57.	(Different Sizes)	<ul><li>Branded</li></ul>
38.	Glass Slide	From good quality glass material branded
20	Class Worza	Erom and multipless sectorial brands 1
39.	Glass Wares	<ul> <li>From good quality glass material branded</li> </ul>

40.	Haemo Cytometer	<ul> <li>Manually operated, complete set of counting chambers,</li> <li>Cover slips, WBC pipette, RBC Pipettes (Imported).</li> </ul>
41.	Hangers Various Size	<ul> <li>Hanger to be manufactured from stainless steel and to</li> <li>Have a clip at each end to keep film taut.</li> </ul>
42.	Hot Pack	<ul> <li>Size: 25cm wide x 30cm long.</li> <li>Hot Pack: Packs are made of strong water absorbing fabric.</li> <li>Packs: Packs can be applied again &amp; again for moist heat fomentation.</li> <li>Fomentation: To apply a minimum of 20-30 minutes of moist heat.</li> </ul>
43.	Hot Pack Unit	<ul> <li>Power requirement 220 – 240V 50/60Hz.</li> <li>Water capacity 70 liters</li> <li>Temperature range 1-99°</li> </ul>
44.	Immersion Rod	• For warming of developer, good quality
45.	Jester (1 To 10 Ul) Adjustable	<ul><li>Branded</li><li>Good Quality</li></ul>
46.	Jester (10 To 100ul) Adjustable	<ul><li>Branded</li><li>Good Quality</li></ul>
47.	Jester (100 To 1000ul) Adjustable	<ul><li>Branded</li><li>Good Quality</li></ul>
48.	Jester Fix 1000ul	<ul><li>Branded</li><li>Good Quality</li></ul>
49.	Jester Fix 100ul	<ul> <li>Branded</li> <li>Good Quality</li> </ul>
50.	Jester Fix 10ul	<ul> <li>Branded</li> <li>Good quality</li> </ul>
51.	Jester Fix 20ul	<ul> <li>Branded</li> <li>Good Quality</li> </ul>
52.	Jester Fix 500ul	<ul> <li>Branded</li> <li>Good Quality</li> </ul>
53.	Jester Fix 50ul	<ul> <li>Branded</li> <li>Good Quality</li> </ul>
54.	Jester Fix 5ul	<ul><li>Branded</li><li>Good Quality</li></ul>
55.	Lancets	<ul><li>From good quality material.</li><li>Branded</li></ul>
56.	Laryngeal Face Masks (Small, Medium & Large Sizes)	<ul> <li>Each set have Sizes; Large, medium &amp;small.</li> <li>Manufactured from clear, non-toxic implantation tested autorclavable PVC.</li> <li>Integra/nylon bite block</li> <li>Imported</li> </ul>
57.	Lead Apron	<ul> <li>Best quality, imported.</li> <li>Flexible lead rubber in tear resistant plastic cover</li> <li>Sleeveless, half-length at back</li> <li>Fastening with crossed elastic straps with Velcro end.</li> <li>0.5mm lead thickness for small, medium and large sizes</li> </ul>
58.	Lead Glass Shield	<ul> <li>3 part X-Ray protection screen with metal frame. Size of</li> <li>each part should be 7'x2.5' covered with lead sheet of 0.2mm</li> <li>Easily moveable to all sides on at least 2 castors on each part.</li> <li>Lead glass size 200x200mm,thickness 2mm.</li> </ul>
59.	Lead Gloves	<ul><li>Best quality, imported.</li><li>Flexible lead rubber in tear resistant plastic cover</li></ul>

		• 0.2mm lead thickness inside gloves.			
60.	Lens Set (Plus 78 D)	<ul> <li>Three mirror Universal lens laser coated.</li> <li>Standard 78D lens laser coated.</li> <li>Standard 90D lens laser coated.</li> <li>Super field NC lens laser coated.</li> <li>20D Indirect ophthalmoscopy lens laser coated</li> </ul>			
61.	Manual ESR System	<ul> <li>E.S.R. APPARATUS WESTERGREENS TYPE BLOOD</li> <li>SEDIMENTATION APPARATUS acc. To Wintergreen, metal support, made of stainless steel, stable construction with special springs, with pipettes and specimen tube with rubber stopper</li> <li>(also for rapid method), for 10 examinations</li> </ul>			
62.	Manual Film Processor	<ul> <li>The processing unit to be equipped with a thermostatically.</li> <li>Controlled water jacket containing S.Steel processing tanks together with a separate unheated running wash section.</li> <li>Overall dimensions: 570x650x825 mm high with a splash</li> <li>Back 230mm high.</li> <li>Developing and fixing tanks 3-gallon capacity each.</li> </ul>			
63.	Manual Suction Apparatus For ICU	<ul> <li>Developing and fixing tanks 5-gallon capacity each.</li> <li>Foot operated suction machine with heavy duty piston.</li> <li>Pressure gage,</li> <li>Suction Jar 1000ml with pipe 2 meters long and suction nozzle.</li> </ul>			
64.	Mats	<ul> <li>Lightweight.</li> <li>Cushioned and strong- 0.25" thick mat.</li> <li>Mats roll up into compact roll.</li> <li>Non-skid mat surface</li> <li>Dimensions: 68" x 0.25" x 24"</li> </ul>			
65.	Mattress Foam With Raxine Cover Medical Grade	<ul> <li>Size: 6 <sup>1</sup>/<sub>2</sub>' x 3' x 4'' with Raxine cover, Medical Grade good quality Branded</li> <li>Adjustable according to the bed position.</li> </ul>			
66.	Mattress Foam With Rexine Cover	• Size: 6 <sup>1</sup> / <sub>2</sub> ' x 3' x 4'' with Raxine cover, good quality Branded			
67.	Measuring Stand Infant	<ul> <li>Baby height measuring board for children upto 2 years age.</li> <li>Smooth and precise easy glide foot piece for accuracy of measurement.</li> <li>Head piece to be perpendicular to base with cut-out handle for increase mobility.</li> <li>Measuring range 21 to 99 cm.</li> </ul>			
68.	Medicine (Iron Rack) 6x4x2	<ul> <li>Frame: 18 gauge steel powder coated with four shelves.</li> <li>Size 6 ftx 4 ftx 2 ft (H x W x D)</li> <li>Sample to be approved</li> </ul>			
69.	Micropipette Digital Different Size	<ul> <li>Standard sizes</li> <li>Branded</li> </ul>			
70.	Mirror	<ul> <li>3 – sided mirror</li> <li>Surface of mirror (H x W): 1600 x 630 mm</li> <li>Side part dimensions (H x W): 1600 x 300 mm</li> <li>Dimensions (H x W): 1950 x 1355 mm</li> </ul>			
71.	Movable Stairs	<ul> <li>Posture graphic net dimensions: 100 x 100 mm</li> <li>4-Step Ladder</li> <li>Material Steel</li> <li>Insulation Non-Insulated</li> <li>Type Step Ladders</li> <li>Function Folding Ladder</li> </ul>			

		• Loading 100kg		
72.	OPD Chairs S.S	<ul> <li>3-seater chairs (Steel) fixed / removable.</li> <li>With seating area approximately 51 cm x 50 cm.</li> <li>With silver enameled finished.</li> <li>The structure may be able to be fixed on the floor / replaceable.</li> <li>Imported, Good Quality.</li> <li>Minimum weight of OPD chair must be 34kg.</li> </ul>		
73.	ORS Feeding Containers And Spoons	Good quality		
74.	ORS Measuring Jug	Good quality		
75.	OT Shoes	Made of best quality, Color: Green		
76.	Otoscope Rechargeable	<ul> <li>Diagnostic Set</li> <li>Battery Handle with chargeable batteries</li> <li>Charging holder with the transformer</li> <li>Otoscope head with halogen bulb</li> <li>One each reusable ear speculum sizes: 2, 3, 4 and5mm</li> <li>Five each disposable ear specula 2.5 and 4.0mm</li> <li>One magnifying glass for operation</li> <li>With spare bulb</li> </ul>		
77.	Oxygen Cylinder Key	• Good quality Oxygen Cylinder Key for 240 & 48 CFT cylinders		
78.	Oxygen Flow Meter	<ul> <li>Direct fitted to the Outlet BOC/Equivalent, included with the Humidifier.</li> <li>Nickel-plated brass base and body</li> <li>Clear shroud</li> <li>Expanded lower scale 0-5Lpm</li> </ul>		
79.	Oxygen Flow Meter With Humidifier	<ul> <li>Direct fitted to the Outlet BOC/Equivalent, included with the Humidifier.</li> <li>Nickel-plated brass base and body</li> <li>Clear shroud</li> <li>Expanded lower scale 0-5Lpm</li> </ul>		
80.	Oxygen Gauge	Complete with regulator, gauge, and standard accessories.		
81.	Pallets 3x4 (Plastic)	<ul> <li>Dimension Approx. L*W*H:</li> <li>1200x1000x150(mm)</li> <li>Weight (Kg):</li> <li>Material:</li> <li>Co PP</li> <li>Temperature:</li> <li>-30/80°</li> <li>Date-0-Graph:</li> <li>Available</li> <li>Design:</li> <li>Top Deck Perforated</li> <li>Load capacity (Kg):</li> <li>Static / Dynamic</li> </ul>		
82.	Peak Flow Meter	<ul> <li>Performance Date</li> <li>Accuracy: ±10% or 20 L/min whichever is greater.</li> <li>Repeatability: &lt; 5% or 10 L/m whichever is greater.</li> <li>Inter device Variability: &lt;10% or 20 L/min whichever is greater.</li> <li>Materials</li> <li>Main Body: Impact-resistant ABS plastic</li> <li>Cover and Handle: High-density poly propylene.</li> <li>Scale: Hot-stamped, alcohol resistant.</li> <li>Full measurement Range: 50 to 810 L/min or better.</li> </ul>		

		• With increament:10L/min to 50L/min.		
83.	Pediatric Circuit	<ul> <li>Reusable and good quality circuit, Imported.</li> <li>Manufactured from clear, non-toxic implantation tested autoclavable PVC</li> </ul>		
84.	Personal Densitometer	<ul> <li>Black and white densitometer dedicated to controlling the optical density of X-ray films in radiology and mammography.</li> <li>Sector power supplied, the densitometer HE offers a measuring range of 0 to 4.0 OD with its fixed diaphragm 3 mm.</li> <li>The densitometer allows digital density measurement of Sensitometric scales in mammography.</li> <li>TECHNICAL DATA :</li> <li>Power supply: 12V DC</li> <li>Consumption: 3VA</li> <li>Diaphragm diameter: 3 mm</li> <li>Measuring length: 13 cm</li> <li>Max density. Ø 3.0mm: 4,0D</li> <li>Accuracy: ± (1% + 0.02 log.D)</li> <li>Repeatability: ± 0.01 D</li> <li>working temperature T: 17 27 ° C</li> <li>Relative humidity: 0 70%</li> </ul>		
85.	Pipette Stands	<ul> <li>Relative humidity: 0 70%</li> <li>Standard size stand made from stainless steel. Branded</li> </ul>		
86.	Proctoscope For Adult & Child	• Manufacturer's mark must be indicated on all instruments.		
87.	Randall Baker Face Mask All Sizes Set	<ul> <li>Each set have Sizes; Large, medium &amp;small.</li> <li>Manufactured from clear, non-toxic implantation tested autoclavable PVC.</li> <li>Integra/nylon bite block</li> <li>Imported</li> </ul>		
88.	Reagent Bottles	<ul><li>With good quality material.</li><li>Branded</li></ul>		
89.	Refraction Box	<ul> <li>35-Pairs-204 PCS and Universal Frame in Wooden carrying case.</li> <li>Spheres: ±0.12 to±20.00</li> <li>Cylinders: ±0.25 to±3.00</li> <li>Firms: ½ to 6</li> <li>Auxiliaries: Blue, Red, Green, Brown, Plane (2pcs)- glass.</li> <li>Occluder, Pinhole 0.5, 1.0, 1.5mm – leach Slit Disc0.5, 1.0mm-leach.</li> </ul>		
90.	Safe Light For Dark Room	<ul> <li>Wall mounted lamp for all blue and green sensitive X-Ray Films.</li> <li>With two spare lamps (15 watts).</li> <li>Power requirement 220V/50Hz.</li> </ul>		
91.	Sahli Hemoglobin Meter	<ul> <li>Fower requirement 220 v/3012.</li> <li>Manual Hemoglobin meter with Hb pipette, Hb tube, bottle, glass rod, scanner for Hb Measuring.</li> </ul>		
92.	Sam Circuit All Sizes	Good Quality		
93.	Steel Almirah For Medicines	<ul> <li>18-gauge steel, powder coated.</li> <li>With 4 shelves (Five Compartment).</li> <li>Size 4ft x 6ft x 1.5ft (WxHxD)</li> <li>02 doors having transparent glass with heavy duty lock mechanism and best quality handle.</li> </ul>		

94.	Steel File Cabinet	<ul> <li>18-gauge steel, filing cabinet with three drawers each 450mm height with railing handles, locks and 100mm high pedestal.</li> <li>Including power coating with good surface finish</li> <li>Size 400 x 750mm x 1400mm</li> </ul>	
95.	Stethoscope	<ul> <li>Lightweight aluminum/ S S adult chest piece construction.</li> <li>Adjustable chrome binaural.</li> <li>Flexible one piece molded 'Y' PVC tubing.</li> <li>Ergonomic plastic ear tips.</li> </ul>	
96.	Stethoscope Nursery	<ul> <li>Lightweight aluminum/S S Pediatric chest piece construction.</li> <li>Adjustable chrome binaural.</li> <li>Flexible one piece molded 'Y' PVC tubing.</li> <li>Ergonomic plastic ear tips.</li> </ul>	
97.	Stylets Adult / Paeds	<ul> <li>Reusable, autoclavable and good quality, imported.</li> <li>Nylon hard plastic PVC, different sizes (3, 4, 5, 6 &amp; 7)</li> </ul>	
98.	Table Cover Large	• Made of best quality, Size: 54 x 72	
99.	Test Tube Racks Stainless Steel	• Good quality, washable, stainless steel rack and can hold 12 tubes.	
100.	Test Tubes	Good quality glass material	
101.	Test Tubes Racks Wooden	• Good quality and finish wood and can hold 12 test tubes.	
102.	Thermal Gun	<ul> <li>Medical Grade thermal gun</li> <li>This advanced non-contact infrared thermometer uses an infrared detector to detect body temperature from the temple for adults &amp; children and can be used both at home and hospitals.</li> <li>Touchless thermometer for adults and kids adopts LCD digital display.</li> <li>Temperature measurement in centigrade C and Fahrenheit F.</li> </ul>	
103.	Utility Cart	<ul> <li>Size: 24 x 36 or better</li> <li>No Of Shelves: 02</li> <li>Material: Heavy Duty Plastic</li> <li>Study Structural foam construction</li> <li>Leak Proof Top with round corners</li> <li>With 4 Castors having size 5 </li> <li>Load Capacity: 500 b or better</li> </ul>	
104.	Vaccine Carrier And Ice Pack	<ul> <li>Load Capacity: 50016 or better</li> <li>Vaccine storage capacity: 3-4 liters.</li> <li>Lid type &amp; fixing: Self-Gripping Strips.</li> <li>External materials: Polyethylene/Polyester.</li> <li>Internal lining materials: Polyethylene/Polyester.</li> <li>Insulation materials: Airliner/Polyurethane</li> <li>Insulation thickness: 3.4 cm minimum.</li> <li>Number of icepacks required: 8.</li> <li>Cool life without openings: 30 hours at 43°C or better.</li> </ul>	
105.	Vepo-Coolant Spray	Best Quality	
106.	Vision Testing Drum	<ul> <li>Testing box to be wall mounted must be supplied with the following panels.</li> <li>English Alphabets 1No</li> <li>Illiterate —E 1No</li> <li>Illiterate —C 1No</li> <li>Children's 1No</li> </ul>	

		• To be manually rotated.		
107.	Waste Bin Sets (Comprising 3 Bins Of White, Yellow And Red Color Each Measuring)	<ul> <li>Material: Polyvinyl chloride (PVC)</li> <li>Foot operated lid, open top wards.</li> <li>Volume: 45 liters.</li> <li>PVC molded to be used for lid hinges.</li> <li>Every bin will be labeled in legible writing — Only for Hospital waste and / or additional text.</li> <li>Waste bin Yellow.</li> <li>Waste bin Red.</li> <li>Waste bin White.</li> </ul>		
108.	Wet Film Stand	<ul> <li>For drying of films,</li> <li>Wet films stand for holding wet films to accommodate up to 10 Nos 14 x17  size, after</li> <li>Manual film processing.</li> </ul>		
109.	Wire Loops	Good quality material		
110.	Wooden Boxes	Good quality material		
111.	X-Ray Cassette 10 X 12 With Green Screen.	<ul><li>Cassettes with H.S type intensifying screen.</li><li>With green screen for selection.</li></ul>		
112.	X-Ray Cassette 12 X 15 With Green Screen	<ul><li>Cassettes with H.S type intensifying screen.</li><li>With green screen for selection.</li></ul>		
113.	X-Ray Cassette 14 X 17 With Green Screen.	<ul><li>Cassettes with H.S type intensifying screen.</li><li>With green screen for selection.</li></ul>		
114.	X-Ray Cassette 8 X 10 With Green Screen.	<ul><li>Cassettes with H.S type intensifying screen.</li><li>With green screen for selection.</li></ul>		
115.	X-Ray Illuminator Double Table Top/ X- Ray Viewer / X- Ray Viewing Box	<ul> <li>X-Ray Film Viewer with following features.</li> <li>Table Top</li> <li>Housing made of epoxy-coated steel.</li> <li>Viewing area for two 14 x17 film.</li> <li>Light intensity more than 6000 Lux or more.</li> <li>With light intensity control.</li> <li>Suitable for wall mounted and table use.</li> <li>Film clamps and hooks for holding wet films.</li> <li>Power requirements 220V,50Hz.</li> </ul>		
116.	Fire extinguisher 4 Kg	<ul> <li>Dry Chemical fire extinguishers extinguish the fire primarily by interrupting the chemical reaction of the firetriangle.</li> <li>Type: Wall mounted type.</li> <li>Size: 4kg.</li> <li>Dry chemical fire extinguishers that is effective Class A, B, and C fires.</li> <li>Class A fires are fires in ordinary combustiblessuch as wood, paper, cloth, rubber, and many plastics.</li> <li>Class B fires are fires in flammable liquids such as gasoline, petroleum greases, tars, oils, oil-basedpaints, solvents, alcohols. Class B fires also include flammable gases such as propane and butane.</li> <li>Class C fires are fires involving energized electrical equipment such as computers, servers, Motors, transformers, and appliances.</li> </ul>		
117.	Fire extinguisher 6 Kg	Dry Chemical fire extinguishers extinguish the fire primarily by		

		<ul> <li>interrupting the chemical reaction of the firetriangle.</li> <li>Type: Wall mounted type.</li> <li>Size: 6kg.</li> <li>Dry chemical fire extinguishers that is effectiveon Class A, B, and C fires.</li> <li>Class A fires are fires in ordinary combustiblessuch as wood, paper, cloth, rubber, and many plastics.</li> <li>Class B fires are fires in flammable liquids such as gasoline, petroleum greases, tars, oils, oil-basedpaints, solvents, alcohols. Class B fires also include flammable gases such as propane and butane.</li> <li>Class C fires are fires involving energized electrical equipment such as computers, servers, Motors, transformers, and an and an antication.</li> </ul>
110	Fire extinguisher 0 V ~	and appliances.
118.	Fire extinguisher 9 Kg	Dry Chemical fire extinguishers extinguish the fire primarily by interrupting the chemical reaction of the firetriangle.
		<ul> <li>Type: Wall mounted type.</li> </ul>
		<ul><li>Size: 9kg.</li></ul>
		<ul> <li>Dry chemical fire extinguishers that is effective Class A, B, and C</li> </ul>
		fires.
		• Class A fires are fires in ordinary combustiblessuch as wood, paper,
		cloth, rubber, and many plastics.
		• Class B fires are fires in flammable liquids such as gasoline,
		petroleum greases, tars, oils, oil-basedpaints, solvents, alcohols.
		Class B fires also include flammable gases such as propane and
		butane.
		• Class C fires are fires involving energized electrical equipment such
		as computers, servers, motors, transformers, and appliances.
119.	Bed Sheet	• Size: 60x100" Quality: 60x60 / 16x16

132.	OT GOWN	<ul><li>Quality 60x60/16x16, Dye VAT,</li><li>Color Sky Blue, Green</li></ul>	
133.	OT Sheet	Made of best quality , Color: Green	
134.	Doctor Kit	<ul> <li>A kit consisting of</li> <li>BP set desktop best quality</li> <li>Stethoscope best quality</li> <li>Digital thermometer</li> <li>3 different sizes of scissors</li> <li>Glucometer best quality with 50 strips</li> <li>Hand held touch</li> <li>Fingertip pulse oximeter</li> <li>With water proof bag</li> </ul>	
135.	Magnifier Optical	Close objects and print. It is commonly used by elderly person or people with low vision who suffered from weaken eye sight that cannot be compensated by ordinary spectacle lenses. A magnifying lens or lens system in the magnifier is Crucial in producing the enlarged image. The lens or lens system is housed in a lens mount designed for different types of magnifiers according to the purpose of use. The common types are hand- held, stand, spectacles mounted.	
136.	Filters (1.67 No Line Progressive Premium Lenses)		
137.	Spectacles For Tasks	Spectacles for near tasks: Convex lenses that are mounted onto the spectacle frame to magnify the image to help the individuals with visual impairment to perform their near tasks (ex: reading) comfortably.	
138.	Braille Equipment	A Braille has a hard casing and a keypad. Braille letters are indented into	
139.	White Cane (Aluminum material, foldable and adjustable	Braille paper by pressing on one of the six Braille keys. A white cane is a long rod like device used by blind or visually impaired travelers to give them information about the environment they are traveling through. Using a cane can warn them of obstacles in their path, tell them of stairs they are coming to, warn them that they are coming up to a curb, and tell them of many other things in the environment that they must deal with. The cane will also alert others to identify them as blind and visually impaired thus needful help can be obtained.	

140.	Talking / Touching Watches (Automatic Watches Talking)	A talking watch is a Time keeping device that cites time verbally using miniature, inexpensive sound chips that state the time through the auditory mode primarily using synthesized natural human voice and sometimes also features an analog face	
141.	Knee Orthosis	A knee orthosis is an externally applied device that encompasses the knee joint. It provides support, stability, pain relief and/or alignment of the anatomical knee joint by modifying its structural and functional characteristics. The user dons the knee orthosis by pulling it on or fastening it Over their knee where it is suspended until they choose to remove it.	
142.	Wheel Chair Cushions (Kay Ion Cushion type foam)	The multi-layer foam cushion which provides comfort and minimal positioning to users who are uncomfortable in their chair and have a low-pressure risk. A multi-layer foam with a soft memory foam top layer. For convenience and protection, with dual-cover system	
143.	Rollators	Walking device which can be moved by pushing or pulling, that enables a person to maintain stability and balance whilst walking, and has hand grips and three or more wheels. It provides mobility for persons with a walking impairment - mobility within indoor and outdoor environments, by allowing the user to maintain balance whilst walking. The user gently rolls the rollator forward as they step forward and uses the breaks to slow down	
144.	Therapeutic Foot Wear	Neuropathic/Diabetic protective footwear (for at risk feet) to offload problem areas, and to prevent secondary problems that may lead to amputation. Most urgently required footwear, especially for less resourced settings.	
145.	Crutches (Gutter Crutches)	A cane with under arm or forearm support that ends in a single shaft and ferrule tip. Elbow, axilla and gutter crutches all have a single shaft that which ends with a non-slip tip (ferrule). Crutches are used singularly or as a pair to enable the user to partial or non-weight bear on an affected lower limb(s) or with calipers.	
146.	Canes / Sticks, Tripods and quadripods	A walking stick has a straight or offset handle with an ergonomically shaped handgrip and a height- adjustable shaft. A tripod has three ends and a quadripod has four ends. Each end is fitted with a tip.	
147.	Clubfoot Braces	<ul> <li>Clubfoot braces are used to maintain correction of the foot position following the corrective phase of clubfoot treatment in babies and young children. The Ponseti method of treatment, which is the most widely accepted treatment for idiopathic clubfoot in children of pre-walking age, consists of:</li> <li>1. Corrective phase: serial manipulation and casting of the feet to address cavus, adductus and varus deformities in the foot and ankle. This is followed by Achilles tendon tenotomy in the majority of cases, to address equines in the ankle joint.</li> <li>2. Maintenance phase: use of a foot abduction brace, which holds the feet in the corrected position in order to prevent recurrence of the deformity. Clubfoot braces are made up of specially made shoes attached to a bar whích holds the feet apart, at shoulder width, in a position of abduction and</li> </ul>	
148.	Portable Ramps	dorsiflexion.A portable ramp is transportable, sloping surfaces that bridge a limited gap between two levels. It is an inclined plane used in addition to or instead of stairs. Portable ramps permit wheelchair users, as well as people pushing strollers, carts, or other wheeled objects, to more easily access a building. Portable ramps may also be used in rough terrain or used by persons to enter/leave cars. A portable ramp can be carried and transported. To provide accessibility to buildings, rough terrain or entering cars for persons who have walking impairments. Portable ramps are used to enable: Access to, or move around a home or other buildings over a maximum of	

149.	Mobile Toilet Chairs for Shoer /	two steps Access to a wheelchair accessible vehicle for a person in a wheelchair. To assist with putting a mobility device into a vehicle (with the user not in the wheelchair) Toilet/ Shower Chairs are designed to enable hygiene maintenance for	
	Bath / Toilet	those who find it difficult or impossible to use a standard toilet or shower. The chairs are constructed from corrosion-proof and contamination- resistant material and include a frame and seat, an open pan, and wheels or castors so that the user self-propelor be pushed, by an attendant, over the toilet or into the shower. Users may require support to transfer off/on the chair and for hygiene (cleaning and drying).	
150.	Hand Rails and Grab Bars	Devices, usually straight or angled bars that are permanently attached to a wall, a wall and a floor, or a ceiling and floor to provide support to a person while standing or changing position. Grab bars are intended to assist with balance and support for those who may require minimal to moderate assistance while performing sit-to-stand transfer. Handrails are intended to assist when mobilizing in areas where slip or fall is considered a high risk. Refer to Accessories and Spare Parts in the Introduction to the Assistive Product Specifications as they are also relevant to the purpose of use.	
151.	Pill Organizers	A medication organizer comprises a container with compartments to store medicines for each day of the week. There are usually sub-compartments for doses to be taken at different times in one day. Medication organizers are available in different shapes and sizes. They are usually made of transparent plastic for easy identification of medicines, with different colors or printed marks used to distinguish time. Multiple medicines can be managed.

S.No	Nomenclature	Specifications		
1.	Shoe Covering	Case material: stainless steel/ABS plastic		
	machine	• Stainless steel handlebar for extra stability		
		Powder-coated metallic colored handlebars		
		• Refills: holds up to 200 shoe covers or more		
		Power source: 220VAC		
2.	Ergometer Cycle	• Display: 10 inch or better		
		Resistance: 0-1400-Watt constant		
		Electronic variation of effort		
		Electronic system of resistance speed independent     Speed: 2,120 Para		
		• Speed: 3-130 Rpm		
		<ul><li>Effort increasing: 1 Wat</li><li>Chain traction</li></ul>		
		• Computer-controlled eddy current brake with torque measurement speed independent or dependent by RPM		
		• Saddle height continuous adjustment for patients between 120 cm and 210 cm tall		
		• Max weight 180 kg or better		
		USB port		
		• RS232 port		
		• Provision of connectivity with compatible telemetry system		
		Accessories		
		• Chest belt for cardio rate recording		
		• 360° adjustable handlebar		
		• 180° swiveling console		
3.	Treadmill	• Display: 5 inch or better		
		• Forward / reverse speed		
		• Forward speed 0.1 / 25.0 km/h		
		• Reverse speed 0.1 / 5.0 km/h		
		• Speed Increment 0.1 km/h		
		Inclination Max 30%		
		Inclination Min 0%		
		• Inclination increment 0.5 / 1%		
		Working load capacity 220 kg or better		
		• Noise level: < 30 DB or less		
		• Emergency stop button		
4.	2 Ton air	• Heat and Cold		
	conditioners (Cabinet	Runs on Low Voltage		
	Type)	• Auto Restart		
		Heat and Cool Function		
		Stabilizer Not Required		
		Installation Kit 100% Copper		
		Zero Ozone Depletion Potential		
		Refrigerant Gas R410A		
		Blue Fins Condenser		
		Twin Rotary DC Inverter Compressor		
		High Density Filter		

		• Long Installation Dina			
		<ul><li>Long Installation Pipe</li><li>Long Distance Air Throw</li></ul>			
		<ul> <li>With complete installation</li> </ul>

		• RGB 2 IN: x1
		• SERIAL IN: 1
		• SERIAL OUT: 1
		• REMOTE IN/OUT: 2/1
		RJ45 For Control/Monitoring: 1
		• Other Accessories:
		• 1 x Ceiling mount and projector plate and stand (Adjustable)
		• 2 x HDMI cables (High quality shielded) extra length 45 feet (Noise Free Video)
		• 1 x Power cable 45 feet (Flexible 3 core (Pakistan Cable) or equivalent)
		• 1 x Projection screen with stand or wall mount (As per requirement)
		• Operationalization of Multimedia Projector System's all components as well as
		end to end installation is included.

Category F

S.No	Nomenclature	Specifications
1.	Generator 20 KVA	Genset Rating: (Model, Make and country of origin must be mentioned)
		• Prime rating: 20KVA/32KW
		• Output Voltage (Single phase/Three Phase) : 220-240/400-440
		• Frequency: 50Hz
		• Power Factor: 0.8 or better
		Generator neutral shall be solidly earthed.
		Engine Specifications: (Model, Make and country of origin must be mentioned)
		• Fuel: Diesel
		Governor Type: Mechanical
		• Fuel Tank Capacity: 40L or better
		Alternator: (Model, Make and country of origin must be mentioned)
		• Type: 4 poles brushless
		Insulation: Class H
		• Voltage Regulation No Load to Full Load: ±1% or better.
		• Winding Pitch: 2/3
		Protections:
		Alternator Protection:
		1. Overload and Short Circuit Protection.
		2. Generator Phase Sequence Protection.
		3. Over/Under Voltage Protection.
		4. Over/Under Frequency Protection.
		5. Over current Protection.
		Engine Protection:
		1. Low Lube oil Pressure
		2. High/Low Coolant Temperature
		3. Engine over & under Speed
		4. Emergency Stop
		5. Low Fuel Level
		<u>Display:</u>
		• Voltage, Current, KW, Power factor, Frequency.
		Engine Oil Pressure
		• Engine RPM
		Total Running Hours
		Coolant Temperature (Digital)
		• Fuel level indication
		Palate Earthing
		The following items must be included with diesel generator.
		1. ATS panel (Local with imported components).
		2. 10-meter Power cable will be provided with generator.
		3. Providing, installation and testing of the unit and earthling network for generator
		set.
		4. Construction of foundation pad.
		5. Weather and sound proof canopy (Local).
		6. Separate price for Power cable (per mete), must be quoted. 7. The supplier will be responsible for complete installation/functionalization of the
		7. The supplier will be responsible for complete installation/ functionalization of the generator
2.	Generator 40 KVA	generator.
۷.	Generator 40 K VA	<u>Genset Rating:</u> (Model, Make and country of origin must be mentioned)
		• Prime rating: 40KVA/32KW
		• Output Voltage (Single phase/Three Phase) : 220-240/400-440

	• Frequency: 50Hz
	• Power Factor: 0.8 or better
	• RPM: 1500 or Better
	• Generator neutral shall be solidly earthed.
	Engine Specification: (Model, Make and country of origin must be mentioned)
	• Fuel: Diesel
	• Engine Rating in HP : 48 HP or better
	• No of Cylinders: 4 Inline
	• Compression ratio: 18:1 or better
	• Displacement: 2.86L or better
	Governor Type: Mechanical
	• Fuel Tank Capacity: 90 L or better
	• Lubricant Oil Sump Capacity: 7.5L or better
	• Ambient Temperature at Rated Load: 50°C

	<ul> <li>Voltage Regulation No Load to Full Load: ±1% or better.</li> <li>Winding Pitch: 2/3</li> </ul>
	• Winding Pitch: 2/3 Protections:
	Alternator Protection:     Overlag d and Short Circuit Distantian
	1. Overload and Short Circuit Protection.
	<ol> <li>Generator Phase Sequence Protection.</li> <li>Over/Under Voltage Protection.</li> </ol>
	<ol> <li>Over/Under Frequency Protection.</li> </ol>
	5. Over current Protection.
	Engine Protection:
	1. Low Lube oil Pressure
	2. High/Low Coolant Temperature
	3. Engine over & under Speed
	4. Emergency Stop
	5. Low Fuel Level
	<u>Display:</u>
	• Voltage, Current, KW, Power factor, Frequency.
	• Engine Oil Pressure
	• Engine RPM
	Total Running Hours
	• Coolant Temperature (Digital)
	• Fuel level indication
	• Palate Earthing
	The following items must be included with diesel generator.
	1. ATS panel (Local with imported components).
	2. 10-meter Power cable will be provided with generator.
	3. Providing, installation and testing of the unit and earthling network for generator
	set.
	4. Construction of foundation pad.
	5. Weather and sound proof canopy (Local/Imported).
	6. Separate price for Power cable (per mete), must be quoted.
	7. The supplier will be responsible for complete installation/ functionalization of the
	generator.
3. Generator 50 KVA	Genset Rating: (Model, Make and country of origin must be mentioned)

ГТ	
	• Prime rating: 50KVA/40KW
	• Output Voltage (Single phase/Three Phase) : 220-240/400-440
	• Frequency: 50Hz
	• Power Factor: 0.8 or better
	• RPM: 1500 or Better
<u> </u>	ngine Specification: (Model, Make and country of origin must be mentioned)
	• Fuel: Diesel
	• Engine Rating in HP : 60 HP or better
	• No of Cylinders: 4 Inline
	Compression ratio: 18:1 or better
	• Displacement: 3.3L or better
	Governor Type: Mechanical
	• Fuel Tank Capacity: 150L or better
	Lubricant Oil Sump Capacity: 8L or better
	• Ambient Temperature at Rated Load: 50°C
	• Radiator Capacity (Ltr): 15 L or better
Α	Iternator: (Model, Make and country of origin must be mentioned)
	• Type: 4 poles brushless
	<ul> <li>Insulation: Class H</li> </ul>
	<ul> <li>Voltage Regulation No Load to Full Load: ±1% or better.</li> </ul>
	<ul> <li>Winding Pitch: 2/3</li> </ul>
P	rotections:
	<u>Alternator Protection:</u>
	1. Overload and Short Circuit Protection.
	<ol> <li>Overload and short Circuit Protection.</li> <li>Generator Phase Sequence Protection.</li> </ol>
	<ol> <li>Over/Under Voltage Protection.</li> </ol>
	<ol> <li>Over/Under Frequency Protection.</li> </ol>
	5. Over current Protection.
	Engine Protection:
	1. Low Lube oil Pressure
	2. High/Low Coolant Temperature
	3. Engine over & under Speed
	4. Emergency Stop
	5. Low Fuel Level
	isplay:
	• Voltage, Current, KW, Power factor, Frequency, KWh
	• Engine Oil Pressure
	Coolant Temperature (Digital)
	• Fuel level indication
	• Engine RPM
	Total Running Hours
	Palate Earthing
	The following items must be included with diesel generator.
	1. ATS panel (Local with imported components).
	<ol> <li>2. 10-meter Power cable will be provided with generator.</li> </ol>
	<ol> <li>Providing, installation and testing of the unit and earthling network for generator</li> </ol>
	set.
	4. Construction of foundation pad.
	5. Weather and sound proof canopy (Local/Imported).
	6. Separate price for Power cable (per meter ), must be quoted.
	7. The supplier will be responsible for complete installation/ functionalization of the
	generator.
	~

4.	Generator 100KVA	Genset Rating: (Model, Make and country of origin must be mentioned)
		Prime rating: 100KVA/80KW
		• Output Voltage (Single phase/Three Phase) : 220-240/400-440
		• Frequency: 50Hz
		• Power Factor: 0.8 or better
		• RPM: 1500 or Better
		Engine Specification: (Model, Make and country of origin must be mentioned)
		• Fuel: Diesel
		• Engine Rating in HP : 115 HP or better
		<ul> <li>No of Cylinders: 4 Inline or better</li> </ul>
		Compression ratio: 18:1 or better
		<ul> <li>Displacement: 4.4L or better</li> </ul>
		<ul> <li>Governor Type: Electronic</li> </ul>
		<ul> <li>Fuel Tank Capacity: 250L or better</li> </ul>
		<ul> <li>Lubricant Oil Sump Capacity: 8L or better</li> </ul>
		<ul> <li>Ambient Temperature at Rated Load: 50°C</li> </ul>
		• Radiator Capacity (Ltr): 17 L or better <u>Alternator: (Model, Make and country of origin must be mentioned)</u>
		• Type: 4 poles brushless
		• Insulation: Class H
		• Voltage Regulation No Load to Full Load: $\pm 1\%$ or better.
		• Winding Pitch: 2/3
		Protections:
		Alternator Protection:
		1. Overload and Short Circuit Protection.
		2. Generator Phase Sequence Protection.
		<ol> <li>Over/Under Voltage Protection.</li> <li>Over/Under Frequency Protection.</li> </ol>
		5. Over current Protection.
		Engine Protection:
		1. Low Lube oil Pressure
		2. High/Low Coolant Temperature
		3. Engine over & under Speed
		4. Emergency Stop
		5. Low Fuel Level
		Display:
		• Voltage, Current, KW, Power factor, Frequency.
		• Engine Oil Pressure
		Coolant Temperature (Digital)
		• Fuel level indication
		• Engine RPM
		Total Running Hours
		Palate Earthing
		The following items must be included with diesel generator.
		1. ATS panel (Local with imported components).
		<ol> <li>2. 10-meter Power cable will be provided with generator.</li> </ol>
		3. Providing, installation and testing of the unit and earthling network for generator
		set.
		4. Construction of foundation pad.
		5. Weather and sound proof canopy (Local/Imported).
		6. Separate price for Power cable (per meter), must be quoted.
		7. The supplier will be responsible for complete installation/ functionalization of the

		generator.
5.	Generator 200KVA	Genset Rating: (Model, Make and country of origin must be mentioned)
		• Prime rating: 200KVA/160KW
		• Output Voltage (Single phase/Three Phase) : 220-240/400-440
		• Frequency: 50Hz
		• Power Factor: 0.8 or better
		• RPM: 1500 or Better
		<b>Engine Specification:</b> (Model, Make and country of origin must be mentioned)
		• Fuel: Diesel
		<ul> <li>Engine Rating in HP : 240 HP or better</li> </ul>
		<ul> <li>No of Cylinders: 6 Inline or better</li> </ul>
		<ul> <li>Compression ratio: 16.0:1 or better</li> </ul>
		<ul> <li>Displacement: 7.0L or better</li> </ul>
		<ul> <li>Governor Type: Electronic</li> </ul>
		<ul> <li>Fuel Tank Capacity: 280L or better</li> </ul>
		<ul> <li>Lubricant Oil Sump Capacity: 16L or better</li> </ul>
		<ul> <li>Ambient Temperature at Rated Load: 50°C</li> </ul>
		<ul> <li>Radiator Capacity (L): 25 L or better</li> </ul>
		<u>Alternator:</u> (Model, Make and country of origin must be mentioned)
		<ul> <li>Type: 4 poles brushless</li> <li>Insulation: Class H</li> </ul>
		<ul> <li>Voltage Regulation No Load to Full Load: ±1% or better.</li> <li>Winding Bitcht 2/2</li> </ul>
		• Winding Pitch: 2/3 Protections:
		Alternator Protection:
		• Overload and Short Circuit Protection.
		Generator Phase Sequence Protection.
		• Over/Under Voltage Protection.
		• Over/Under Frequency Protection.
		Over current Protection.  Engine Protection:
		Engine Protection:
		1. Low Lube oil Pressure
		2. High/Low Coolant Temperature
		<ol> <li>Engine over &amp; under Speed</li> <li>Emergency Stop</li> </ol>

--	--	--------------

C N		
S. No	Nomenclature	Specifications
1.	Lifters	<ul> <li>Usage/Application Industrial</li> <li>Power Source Hand Operated</li> <li>Lifting Capacity 2.5 ton</li> <li>Loading Capacity 2.5 ton</li> <li>Product Type Hydraulic Trolley</li> <li>Max Lifting Height 200 mm</li> <li>Wheel Material Nylon</li> </ul>
2.	R.O water purification plant for dialysis Machine	<ul> <li>RO Water Purification System to operate 10-12 Dialysis Machines through store tank, with imported parts locally manufactured.</li> <li>The system should comprise of pretreatment modules such as Pre RO micron filter for Bacterial protection Sand filter, activated carbon filter, water softener, 5-micron particulate filter, before the reverse osmosis unit and post R.O UV light Disinfection and Bacterial Filters.</li> <li>The entire unit should have adequate monitoring permeate water conductivity, feed water pressure and permeate and rejection flow rate.</li> <li>The water distribution loop, booster pump and storage water tank should be rust free. Storage water tank should have capacity of at least 500 liters.</li> <li>Feed Pump Type centrifugal, horizontal, Material of construction Stainless Steel. input power 220VAC, 50Hz, single phase</li> <li>The filtered water will be pumped by means of a high-pressure pump through the R O Module consists of 2 nos. of SS Pressure tubes &amp;2 nos. of membranes Size of Membrane 41 Dia x 401 Long. Around 50 % of the feed water will be available as permeate or product water and balance 50 % will be reject stream which will be the effluent from RO plant.</li> <li>High Pressure Pump Type Vertical Multistage, Material of construction Stainless Steel input power 220VAC, 50Hz, single phase</li> <li>Should not have noise level more than 65 db.</li> <li>Should have TDS meter to monitor feed water conductivity and R.O water conductivity.</li> <li>It should be sensor to stop the feed pump when storage tank full, restarts it when</li> </ul>
3.	60KVA three phase Automatic voltage regulator	<ul> <li>RO water level goes down in the tank.</li> <li>Digital micro control type servo motor drive 60KVA three phase automatic voltage regulator.</li> <li>Input Line Voltage Range: 260VAC to 470 VAC, 4 Wire</li> <li>Output Line Voltage Range: 4 wire system (220 to 230 VAC neutral to phase) (380 VAC to 440VAC phase to phase ±3%)</li> <li>Winding 99% copper</li> <li>Power factor 0.9 or better</li> <li>No wave form distortion</li> <li>Response time not greater than 10 ms no overshooting or hunting during automaticoperation.</li> <li>Air cooling type</li> <li>Ambient temperature: -10 to 40°C or better</li> <li>AVR should have Overload/High/Low input voltage alarm</li> <li>AVR should have overload, Spike and surge protection.</li> </ul>

## Category G

		• Input phase to phase
		Input phase to phase
		Output phase to neutral
		Output phase to phase     Load Current in all the phases
		Load Current in all the phases
		• Frequency
		• Overall system should have protection casing and wheels (lockable) for
		movement.
		• The supplier will be responsible for complete installation/ functionalization of
4	20 1/1/4 : 1	the unit.
4.	30 KVA single	• Digital micro control type servo motor drive 30KVA single phase automatic
	phase Automatic	voltage regulator.
	voltage regulator	• Input Line Voltage Range: 130VAC to 270VAC
		Output Line Voltage Range: 220VAC to 230VAC
		• Winding 99% copper
		• No wave form distortion
		• Air cooling type
		• Ambient temperature: -10 to 40°C or better
		• Response time not greater than 10 ms no overshooting or hunting during
		automatic operation.
		• AVR should have overload, Spike and surge protection.
		• The AVR should have to display the input voltage, output voltage and load
		current.
		• The supplier will be responsible for complete installation/ functionalization of
		the unit.
5.	5 KVA UPS	Topology: Double conversion online
		• Nominal output voltage: Configurable for 220 : 230 or 240 nominal output
		voltage
		• Efficiency at full load: Up to 92% with at least 40 minutes backup
		• Output frequency(sync to mains):50/60 Hz +/- 3 Hz user adjustable
		• Output power capacity: 4500W or better
		• Output connections: (8) IEC 320 C13; (2) IEC 320 C19
		Nominal input voltage:230 V
		• Input frequency:45 – 65 Hz (auto sensing)
		• Input connections: Hardwire 3-wire(1PH + N + G)
		• Bypass: Automatic and Manual (Built-in)
		<ul> <li>Battery type: Maintenance-free sealed lead-acid battery with suspended</li> </ul>
		electrolyte: leak proof
		• Operating Temp: $0 - 50^{\circ}$ C
		(Output derated linearly to 75% of UPS capacity @>400C)
		<ul> <li>Replacement battery: RBC44</li> </ul>
		<ul> <li>Interface port(s): RJ-45 10/100 Base-T, RJ-45 Serial, Smart Slot</li> </ul>
		<ul> <li>Emergency power off(EPO): Yes</li> </ul>
		<ul> <li>Control panel: LEDs</li> </ul>
6.	5KVA Solar Off Grid	<ul> <li>5000 Watts (5 KVA) 48 Volts DC, 220 Volt AC Single Phase Ouput, MPPT 80</li> </ul>
0.		• 5000 watts (5 KVA) 48 volts DC, 220 volt AC Single Phase Ouput, MPP1 80 Ampere Charge Controller with Hybrid charging, and electronic protections
	Hybrid Inverter	complete in all respect.
		<ul> <li>One 48 Volt, 100 AH Lithium-Ion Batteries</li> </ul>
		5000-Watt Solar Panel (Mono-Crystalline) PV Module with 25 Years Power     Output Warranty
		Output Warranty, Solar Banal Mounting Structure, made of Hot Dinpad Galuanized Steel Structure
		• Solar Panel Mounting Structure ,made of Hot Dipped Galvanized Steel Structure
		(Angle Iron).
		• 16mm (sq) flexible cable 99.9% copper

		• Transportation / Installation Charges to be barred by the firm.
7.	10 KVA Solar Off	<ul> <li>10000 Watts (10 KVA) hybrid inverter with Dual MPPT.</li> </ul>
	Grid Hybrid Inverter	<ul> <li>The inverter should have load sharing or parallel operation function.</li> </ul>
	Ond myond myond	<ul> <li>Solar panel of 10000 Watts mono crystalline technology with 25 years power</li> </ul>
		output warranty.
		• Lithium-ion battery 100Ah, 48V 2 Qty
		<ul> <li>Mounting structure for 10000 Watts solar panel galvanized Structure.</li> </ul>
		• Supplier will be responsible for complete installation, distribution of power and
		commissioning of the solar system.
		• The supplier will be responsible for complete cabling as per required load.
8.	20 KVA Solar Off	• 2x10000 Watts (20 KVA) off Grid inverter with Dual MPPT.
	Grid Hybrid Inverter	• Output Voltage (Single phase/Three Phase) : 220-240/400-440
	5	• Frequency: 50Hz
		• The inverter should have load sharing or parallel operation function.
		• Solar panel of 20000 Watts mono crystalline technology with 25 years power
		output warranty.
		• Lithium-ion battery 100Ah, 48V 4 Qty
		<ul> <li>Mounting structure for 20000 Watts solar panel galvanized Structure.</li> </ul>
		• Supplier will be responsible for complete installation, distribution of power and
		commissioning of the solar system.
		• The supplier will be responsible for complete cabling as per required load.
9.	Lead Lining for	• Lead sheet of having thickness 1.5mm or better
	Radiology Room	• Exterior: Lead sheet should be covered with weather / waterproof sheet.
		• Interior: Lead sheets to be fixed on strong material / seasoned wood.
		• Lead sheet related / associated work i.e., Electricity etc. if needed to be carried
		out by the bidder.
		<ul> <li>Lead glass provision and fixing will be responsibility of the bidder if needed.</li> <li>The firm should be registered with PNRA (Mandatory)</li> </ul>
		<ul> <li>Fixing all the things according to PNRA rules and guidelines should be</li> </ul>
		considered.
		<ul> <li>Per square feet price should be quoted for finished item.</li> </ul>
10.	Medical Gas Pipe line	Manual Manifold For Oxygen
	system	• Manual Manifold with imported regulator shall be provided for smooth operation
		of the system.
		• CAPACITY (2 x 10) completes with main valve and handing valve over each
		cylinder plus high-pressure standard pig Tail connections plus high-quality
		imported Regulator and pressure monitoring gauge.
		• Brand New tested Oxygen Cylinder 240 Cft transport safety cap shall be supplied
		with the cylinder with standard Color code.
		Oxygen Gas Outlet
		• Gas outlet, complete in Box/casing with BS Standard color-coding.
		<ul> <li>Alarm System</li> <li>Supply and installation of Alarm System for oxygen gas with both Visual as well</li> </ul>
		as Audible alerts are available in system for oxygen gas with both visual as wen
		of Oxygen Gas. Hold & press for Mute / Silence.
		Oxygen Flow Meter
		• Oxygen flow meter with humidifier and probes Oxygen Flow meter complete set
		from 1 to 15 lpm or better with autoclavable and unbreakable humidifier bottle.
		Copper Piping and Fitting
		• Supply and installation of seamless medical graded copper pipe deoxidized and
		degreased along with required fitting etc., various sizes /diameter as per
		requirements. Gauge 18 sizes will vary from 12mm, 15mm, 22mm, 28mm, 35mm,

<ul> <li>42 mm &amp; 54 mm includes supply of all Fittings accessories, clamps &amp; Supports as per requirements.</li> <li>Values of different sizes from 12mm, 15mm, 22mm, 28mm,35mm, 42 mm &amp; 54 mm</li> <li>Price of each size should be quoted in per foot separately</li> </ul>
Note: Bidder should quote price separately for above each item.

# TECHNICAL EVALUATION CRITERIA FOR SELECTION AND RATE CONTRACTING OF MEDICAL EQUIPMENT, MEDICAL FURNITURE, INSTRUMENT AND OTHER HOSPITAL SUPPLIES FOR THE FY 2023-24

Technical Evaluation Criteria for Category- A Equipment for FY 2023-24	
Description of Variables	

S. No.	Description of Variables	Allocated Marks
Α	Product / Manufacturer Evaluation Parameters	
1	Compliance Sheet must be attached with the technical quotation.	No Marks
1.1	Ref. No of item in SBD Schedule of Requirement	
1.2	Name of equipment	
2	Conformance to Specification	
2.1	Fully compliance with the required specifications as per Statement of Requirement. Minor deviations may be accommodated up to 5, subject to the condition that main function and performance in any aspect would not be affected. More than 5 minor deviations will be considered as major deviation and the bidder will be considered as non-responsive for the quoted item. (One mark for each deviation will be deducted).	25
3	Product International Certification	Mandatory 2(27)
3.1	<ol> <li>Certificate of US Food and Drug Administration (USFDA) for the quoted model.</li> <li>Registration if the quoted product belongs to class I.</li> <li>USFDA 510K if the quoted product belongs to class II.</li> <li>Pre-Market approval (PMA) if the quoted product belongs to class III.</li> </ol>	
3.2	Certificate of European community (93/42/EEC Medical devices, 98/79/EC In vitro diagnostic medical devices (Full Quality Assurance or Product Quality Assurance) or Regulation (EU) 2017/745 on medical devices, Regulation (EU) 2017/746 on in vitro diagnostic medical devices for the quoted product/manufacturer. The certificate must be issued from the European Commission Notify Bodies. Except for certain of Class I and Class IIa Medical Devices that don't require the involvement of a Notified Body (NB).	Two certificates are mandatory having no marks, while producing other one
3.3	Certificate of Ministry of health labor and welfare Japan (MHLW). Translated English Version.	certificate will get 2 marks.
4	Manufacturer Performance	
4.1	Valid ISO 13485 Medical Devices Quality Management Systems certificate of manufacturing plant from International Accreditation Forum (IAF) Accredited Bodies or equivalent.	3 (30)
4.2	Valid ISO 45001 Occupational Health & Safety Certificate of manufacturing plant from International Accreditation Forum (IAF) Accredited Bodies or equivalent.	3 (33)
4.3	Weightage for local Pakistani original manufacturer.	2 (35)
5	After Sale Product Local Performance	

5.1	One mark for each after sale satisfactory performance certificate (verifiable) of the firm / bidder in last six years on letter head, signed and stamped letter for the quoted model or previous provided or upgraded model model of equipment from the public sector medical institution of Pakistan. Performance certificate shall be coupled with supply order / purchase order from public sector medical institution.	5 (40)
5.2	One mark for each after sale satisfactory performance certificate (verifiable) of the firm / bidder in last six years on letter head for the quoted model or previous provided model or upgraded model of equipment from the teaching level private sector medical institution of Pakistan. The hospital must be recognized from Pakistan Medical and Dental Council (PMDC) / research institute. The satisfactory performance certificate of non-recognized institution from PMDC will not be considered. Performance certificate shall be coupled with supply order / purchase order from teaching level private sector medical institution.	4 (44)
6	Warranty	
6.1	Warranty Period of three years both with spare parts and services & Next two-year services only without spare parts from the date of Installation / Commissioning.	Mandatory
Α	Total score of the Product / Manufacturer Evaluation Parameters	44
В	Firm / bidder Evaluation Parameters (The marks will be awarded after the premises ins	pection and
	verification of Human Resource, Workshop facility, Financial Strength and Registration	s)
1	Personnel/Human Resource	
1.1	Diploma of Associate Engineer (DAE) in electrical / electronic / biomedical / mechatronics / mechanical / industrial. DAE certificate must be submitted. (0.5 mark for each certificate)	1
1.2	Graduate Engineer with PEC Registration in electrical / electronics, biomedical / mechatronics / mechanical / industrial. PEC registration card of the engineer must be submitted. (2 marks for each Engineer)	6 (7)
1.3	BSc (hons) Electronics /MSc Electronics / B-Tech (hons) in electrical / electronic / biomedical / mechatronics / mechanical / industrial. Degree of BSc / MSc / B-Tech (hons) must be submitted. (1 mark)	1 (8)
1.4	Factory trained engineer on the quoted Products. (To be verified from the visa and passport). (1 mark for each)	1 (9)
2	Workshop facility Testing/ Calibration tools of Equipment	
2.1	Availability of workshop in Khyber Pakhtunkhwa to be verified with Ownership / Rent	Mandatory
	Agreement with Owner / Rent Agreement with Company Name.	·
2.2	List of related tools available at workshop. Details shall be submitted with technical bid.	3 (12)
2.3	List of Testing and Calibration tools for the quoted items available at workshop. Details shall be submitted with technical bid.	3 (15)
	Detail of Spare parts availability at workshop for the quoted items. Details shall be	
2.4	submitted with technical bid.	3 (18)
3	Firm / bidder Financial Strength	
3.1	Annual Sales tax returns for last two years (1 mark for each year).	2 (20)
3.2	Annual Income tax returns for last two years (1 mark for each year).	2 (22)
3.3	Last two years Audited Balance Sheet Duly attested by Chartered Accountant (1 mark for each year). Marks will be allocated on the basis revenue annual turnover, 100 M or above will be awarded 2 marks in last 2 years. Rs.50 to Rs.99.9 M will be awarded 1 mark in last 2 years. Less than Rs.50M will be awarded 0 mark.	2 (24)
4	Firm / bidder Registration	
4.1	Firm / bidder registration at relevant forum (SECP/ or Registrar of Firm / bidder/ FBR).	Mandatory

4.2	Firm / bidder registered with DRAP (Drug Regularity Authority of Pakistan) or PEC	Mandatory
	(Pakistan Engineering Council).	
4.3	Valid ISO 9001 Quality Management Certificate of the firm / bidder from PNAC	2 (26)
	accredited bodies.	
В	Total Score of the Firm / bidder Evaluation Parameters	26
A+B	Total Score (A + B)	(44+26) = 70

### Technical Evaluation Criteria for Category-B Equipment for FY 2023-24

S. No.	Description of Variables	Allocated Marks
Α	Product / Manufacturer Evaluation Parameters	
1	Compliance Sheet must be attached with the technical quotation.	No Marks
1.1	Ref. No of item in SBD Schedule of Requirement	
1.2	Name of equipment	
2	Conformance to Specification	
2.1	Fully compliance with the required specifications as per Statement of Requirement. Minor deviations may be accommodated up to 5, subject to the condition that main function and performance in any aspect would not be affected. More than 5 minor deviations will be considered as major deviation and the bidder will be considered as non-responsive for the quoted item. (One mark for each deviation will be deducted).	25
3	Product International Certification	Mandatory 4 (29)
3.1 3.2 3.3	<ul> <li>Certificate of US Food and Drug Administration (USFDA) for the quoted model.</li> <li>1. Registration if the quoted product belongs to class I.</li> <li>2. USFDA 510K if the quoted product belongs to class II.</li> <li>3. Pre-Market approval (PMA) if the quoted product belongs to class III.</li> <li>Certificate of European community (93/42/EEC Medical devices, 98/79/EC In vitro diagnostic medical devices (Full Quality Assurance or Product Quality Assurance) or Regulation (EU) 2017/745 on medical devices, Regulation (EU) 2017/746 on in vitro diagnostic medical devices and 2014/68/EU Pressure equipment for the quoted product/manufacturer. The certificate must be issued from the European Commission Notify Bodies.</li> <li>Except for certain of Class I and Class IIa Medical Devices that don't require the involvement of a Notified Body (NB).</li> <li>Certificate of Ministry of health labor and welfare Japan (MHLW).</li> <li>English Translated Version.</li> </ul>	One certificate is mandatory having no marks, while producing other two certificates will get 2 marks each.
<b>4</b> 4.1	Manufacturer Performance           Valid ISO 13485 Medical Devices Quality Management Systems certificate of           manufacturing plant from International Accreditation Forum (IAF) Accredited Bodies or           equivalent	3 (32)

4.2		
	Valid ISO 45001 Occupational Health & Safety Certificate of manufacturing plant from International Accreditation Forum (IAF) Accredited Bodies or equivilent	3 (35)
4.3	Weightage for local Pakistani original manufacturer.	2 (37)
5	After Sale Product Local Performance	
5.1	One mark for each after sale satisfactory performance certificate (verifiable) of the firm / bidder in last six years on letter head, signed and stamped letter for the quoted model or previous provided model or upgraded model of equipment from the public sector medical institution of Pakistan. Performance certificate shall be coupled with supply order / purchase order from public sector medical institution.	5 (42)
5.2	One mark for each after sale satisfactory performance certificate (verifiable) of the firm / bidder in last six years on letter head for the quoted model or previous provided model or upgraded model of equipment from the teaching level private sector medical institution of Pakistan. The hospital must be recognized from Pakistan Medical and Dental Council (PMDC) / research institute. The satisfactory performance certificate of non-recognized institution from PMDC will not be considered. Performance certificate shall be coupled with supply order / purchase order from teaching level private sector medical institution.	4 (46)
6	Warranty	
6.1	Warranty Period of three years both with spare parts and services & Next two-year services only without spare parts from the date of Installation / Commissioning.	Mandatory

2.3	clearance on sample test by the Inspection Committee.	20
	Satisfactory Sample	
	Sample rejected by inspection committee or low-quality sample provided, the firm /	
2.4	bidder will be considered as non-responsive for the quoted item and no marks will be	0
	awarded.	
3	Manufacturer Performance	
	Valid ISO 9001 Quality Management System certificate from PNAC accredited bodies	
3.1	for local manufacturer or from International Accreditation Forum (IAF) or equivalent	2 (42)
	Accredited Bodies for imported products.	
	Valid ISO 14001 Environmental certificate from PNAC accredited bodies for local	
3.2	manufacturer or from International Accreditation Forum (IAF) or equivalent Accredited	2 (44)
	Bodies for imported products.	
	Valid ISO 45001 Occupational Health & Safety Certificate from PNAC accredited bodies	
3.3	for local manufacturer or from International Accreditation Forum (IAF) or equivilent	2 (46)
	Accredited Bodies for imported products.	
4	Inspection of Local Manufacturer	
4.1	CO <sub>2</sub> welding, Powder coating room etc.	2 (48)
4.2	Power and Backup service (Transformer and backup)	2 (50)
4.3	Raw material store, Inventory store	2 (52)
4.4	HR and skilled labor (10 or more) with registration with EOBI	2 (54)
4.5	Manufacturing Plant Space / Area (As per manufacturing capacity)	2 (56)

5	For imported Items	
5.1	Good manufacturing practice (cGMP) certificate	2 (48)
5.2	Valid CE certificate	2 (50)
5.3	Vaid USFDA registration or relevant certificate	3 (53)
5.4	Valid JIS / PMDA / MHLW certificate	3 (56)
6	After Sale Past Performance	
6.1	One mark for each after sale satisfactory performance certificate (verifiable) of the firm / bidder on letter head, signed and stamped from the public sector medical institution / hospital for the quoted item. Performance certificate shall be coupled with supply order / purchase order from public sector medical institution.	5 (61)
6.2	One mark for each after sale satisfactory performance certificate (verifiable) of the firm / bidder on letter head for the quoted item from the teaching level private sector medical institution of Pakistan. The hospital must be recognized from Pakistan Medical and Dental Council (PMDC) / research institute. Performance certificate shall be coupled with supply order / purchase order from teaching level private sector medical institution.	3 (64)
7	Warranty	
7.1	One year warranty for instruments, beds & other hospital supplies with replacement / repair of product.	Mandatory
Α	Total score of the Product Evaluation	64
В	Firm / bidder Evaluation Parameters	
1	The bidder will have to give valid proof of being manufacturer / importer.	Mandatory
2	Firm / bidder Financial Strength	
2.1	Annual Sales tax returns for last two years (1 mark for each year).	2
2.2	Annual Income tax returns for last two years (1 mark for each year).	2 (4)
2.3	Last two years Audited Balance Sheet Duly attested by Chartered Accountant. (1 mark for each year).	2 (6)
4	Office / Workshop facility	
4.1	Availability of office/workshop in Khyber Pakhtunkhwa to be verified with Ownership / Rent Agreement with Owner/ Rent Agreement with Company Name.	Mandatory
	react ingreement with o when representent with company runte.

### Technical Evaluation Criteria for Category- F Items for FY 2023-24

S. No.	Description of Variables Total Ma	
Α	Product Evaluation Parameters	
1	Product General Information	
1.1	Ref. No of item in SBD Schedule of Requirement	
1.2	Name of equipment	
2	Conformance to Specification	

	Fully compliance with the required specifications as per Statement of Requirement. Minor	
	deviations may be accommodated up to 4, subject to the condition that main function and	
	performance in any aspect would not be affected. More than 4 minor deviations will be	
	considered as major deviation and the bidder will be considered as non-responsive for the	
2.1	quoted item. (One mark for each deviation will be deducted with due justification by	30
	scrutiny committee).	
2.2	Full load test report from manufacturer for the quoted model.	
3	Product Certification / Manufacturer Performance	
3.1	Authorization certificate from the manufacturer if the bidder is not a manufacturer.	Mandatory
3.2	Valid ISO 14001 Environmental Certificate of the manufacturer.	2 (34)
3.3	Valid ISO 9001 Quality management Certificate of the manufacturer.	2 (36)
3.4	CE certificate of the quoted model.	2 (38)
4	After Sale Product Local Performance	
	One mark for each satisfactory performance certificate (verifiable) of the firm / bidder on	
4.1	letter head, signed and stamped from the public sector organization for quoted capacity	5 (43)
4.1	generator with copies of supply orders/contract agreements etc. Supply Order / Purchase	5 (45)
	Order. Delivery challan will not be considered as satisfactory performance certificate.	
	One mark for each satisfactory performance certificate (verifiable) of the firm / bidder on	
4.2	letter head of private organization for the quoted capacity generator with copies of supply	2(16)
4.2	orders/contract. Supply Order / Purchase Order. Delivery challan will not be considered as	3 (46)
	satisfactory performance certificate.	
5	Warranty	
5.1	Comprehensive Warranty of 36 months (irrespective of running hours) with parts and	Mandatory
	services from date of commissioning.

### Section V. Technical Specifications (Continued)

Financial Evaluation and Scoring System for Bids

### (Maximum Allocable Marks Score = 30 marks)

The financial bids of technically qualified bidders will be opened publicly at the time to be announced by the Procuring Agency and the financial bids found technically non responsive shall be returned un-opened to the respective Bidders.

Total Allocable marks for Technical Proposal = 70

Total Allocable marks in Financial Proposal= 30

Total Combined Allocable Score for individual bids = Marks obtained in Technical Evaluation + Marks obtained in Financial Evaluation = 100

### **Scoring Methodology:**

Contract will be awarded to the best evaluated fair and responsive bidder whose product ranks highest in the Combined Evaluation scoring calculated through the Marks awarded to Technical Proposal and Financial Proposal as stated in the Bid Data Sheet of these Bid Solicitation Documents.

The Evaluation Methodology is a combination of non-price factors (in Technical Criteria) and price factor (in Financial Criteria); and each having points as elaborated in the evaluation preforms provided in these BSDs.

**Procedure for the Marks Scoring**: Marks will be awarded or otherwise for various technical parameters to each quoted product based on the prescribed Technical and Financial criteria. The total combined marks will determine the highest-ranking product in each product category for contract award.

# The formula to calculate the marks for the price by the bidders other than lowest bidder is given below:

Financial Evaluation Score of individual quoted Product: = [Lowest quoted Price of the item ÷ Next higher proposed Price of the competing item] x Total allocable financial score

### Solved Example of Financial Scoring:

If the lowest quoted price of an item is Rs. 86/-, the same lowest bidder will obtain score as below:

=  $[86 \div 86] \times 30 = 30$  marks, being the lowest bidder for the quoted item.

If the next higher quoted price of the same item is Rs. 105/-, the marks obtained will be: =  $[86 \div 105] \times 30 = 24.57$  Marks

If the next higher quoted price of the same item is Rs. 130/-, the marks obtained will be: =  $[86 \div 130] \times 30 = 19.84$  Marks and so on.

#### **RATE CONTRACT AGREEMENT(Template)**

#### (For successful bidders on Judicial Stamp Paper of minimum Rs. 1000)

THIS RATE CONTRACT AGREEMENT is made and agreed today on day of [day], [Month], 2023-24 between the Government of Khyber Pakhtunkhwa Health Department through Director General Health Services (hereinafter referred to as the Procuring Agency or the first party, which expression shall, where the context admits, be deemed to include the assignee/s of the provincial Government of Khyber Pakhtunkhwa); and Messrs. [Name of Bidder] through Mr. Designation \_\_\_\_\_\_\_\_ CNIC No. \_\_\_\_\_\_\_\_\_ (hereinafter referred to as the Supplier / Bidder or the secondparty or he/his, which expression, unless repugnant to the context, means and includes their legalheir/s, successors-in-interest, assignee/s and legal representative/s) that: WHEREAS the Procuring Agency has made a bidding competition for selection and rate contracting for supply of (Name of equipment, Country of origin along with model at <u>Rs</u>.) machinery & equipment, instruments and other hospital supplies (hereinafter referred to as goods) for actual purchases of the selected and rate contracted goods to be made by the offices / officers of the Health Department, Government of Khyber Pakhtunkhwa (hereinafter called the Purchasing Agency or Purchasing Agencies where the context so admits); and

WHEREAS the Supplier declares that he is not a broker, middle-man, distributor but himself a Manufacturer and / or direct Importer of goods / or Authorized dealer of manufacturer and Importer for which he has won the bidding competition for supply of goods to the Procuring Agency throughout the province of Khyber Pakhtunkhwa (hereinafter referred to as the Province) to the Purchasing Agencies; and WHEREAS both the parties have agreed that the Purchasing Agencies in the Province shall purchase all or some or none of the goods, as of details given in the Schedule -1 of this ContractAgreement, from the Supplier at the sole discretion of the individual Purchasing Agencies; and

WHEREAS the Supplier shall supply all the goods ordered by the Purchasing Agency to the latter in the quantity as mentioned in the supply order to be issued by the Purchasing Agency within the timeframe as mentioned in bidding Documents i.e., within 90 days from the date of issuance of supply order by the Purchasing Agency for items to be imported items while 60 days for locally manufactured items; Now, therefore, both the parties mutually agree to enter into this contract agreement as under:

- 1. The Supplier agrees to take full responsibility of the validity and implications, that may arise in future, of declaration submitted by him in the form of affidavit on judicial stamp paper along with the financial bids; and also that in case of any kind of breach of the said declaration, the Supplier shall be liable to be proceeded against by the Procuring Agency in accordance with the clauses of this rate contract agreement as well as relevant laws, rules and regulations of the Government of Khyber Pakhtunkhwa, as amended from time to time, to govern the situation/s.
- 2. The Supplier shall supply the ordered goods to the Purchasing Agency exactly at the address of the official premises situated within the district of the official jurisdiction of the latter as given in the supply order issued to the former.
- 3. The Supplier shall be solely responsible for transportation, loading and / or unloading and staking of the supplied items till and at the time of delivery to the destination indicated by the Purchasing Agency including any damage or untoward incidence, maintenance of required temperature and protection from light and other environmental conditions as well as other hazards that may possibly or potentially affect the safety, quality and efficacy of the

supplied items.

- 4. The Supplier shall NOT claim or charge transportation, loading / unloading, labor or anyother Charges related to or in the name of logistics, accidents, insurance, freight, etc.
- 5. The Procuring Agency shall arrange to obtain sample/s from each supplier before Finalization of award with the successful bidder in each category.
- 6. The Supplier will arrange demo for the physical inspection to the Procuring Agency and shall bear the associated cost.
- 7. The Supplier will make necessary arrangements including on job training to the end user before release of final payment or damage liability period is over.
- 8. The Supplier will provide Service Manual, Circuit diagram and error logbook and operational Manual for the supplied goods. The successful bidders shall provide complete technical manual and operation manual to the in charge of central workshop Peshawar all regional workshops.
- 9. In case of non-supply or delayed supply of items the Supplier shall be proceeded againstunder the relevant law of the land i.e., Procurement regime and associated country laws.
- 10. The Purchasing Agency shall recommend to the Procuring Agency for taking legal / lawful action against the Supplier regarding non-supply, short supply, substituted supply, delayed supply or any other unlawful action / shortcoming, on the part of Supplier duringthe execution of this contract agreement. The Procuring Agency shall take lawful / legalaction against the Supplier in accordance with the clauses of this contract agreement as well as relevant laws, rules and regulations of the Government of Khyber Pakhtunkhwa, as amended from time to time, to govern suchlike situation/s, which may include, but not limited to, blacklisting, forfeiture of earnest money and performance guarantee, etc.
- 11. The Supplier agrees to the following conditions related to packing, packaging and labeling of the goods to be supplied to Purchasing Agencies under this contract agreement:
- 12. The Procuring Agency or its representative shall have the right to inspect the manufacturing facility, premises, warehouse, godowns, laboratories etc. at any time during the financial year 2023-24 and/or till the execution of supply orders given under this contract agreement by Purchasing Agencies Khyber Pakhtunkhwa.
- RATE VALIDITY: The Supplier agrees that the approved price of all individual items quoted in the financial bids shall remain valid till and up to 30<sup>the</sup> June 2024.
- 14. PERFORMANCE GUARANTEE: Upon receipt of supply order from the Purchasing Agency, the Supplier shall submit Performance Guarantee to the former, amounting to ten per cent (10%) of the total value of each individual supply order, which shall be returned to the Supplier upon request after the successful finalization of the process of procurement by the Purchasing Agencies till warranty period.
- 15. WARRANTY: The supplier shall provide warranty on prescribed form in Bidding Documents to the Purchasing Agency for each item supplied in response to supplyorders.
- 16. PAYMENT SCHEDULE: Bill for payment in triplicate along with all other relevant andrequired documents shall be submitted by the Supplier, to the Procuring Agency immediately after complete supply of stock. The Supplier shall be bound to pay all sortsof government taxes, duties and stamp duties, imposed earlier or during the financial year by the Government of Pakistan or by the Provincial Government of Khyber Pakhtunkhwa on any supplied / purchased item.
- 17. FORCE MAJEURE:

- a. In case of the situation related to Force Majeure, the Supplier may inform the ProcuringAgency and the Purchasing Agency in writing about the situation immediately without delay along with solid proof through the fastest, lawful and available means of communication, but not through the electronic mail, and request the Procuring Agency for the grant of extension in the supply Period.
- b. The Procuring Agency, in case of being fully satisfied with the genuineness of situation arising from Force Majeure for the Supplier, may extend the period of supply of good up to a maximum of not more than thirty days without penalty. However, the ProcuringAgency and / or Purchasing Agency shall, in no case, be responsible or held responsible for any complications in making payments to Supplier by the Purchasing Agency that may arise from the closure of financial year and lapse / surrender of public funds vis-à- vis the normal financial management procedures in public sector.
- 18. PENALTIES:
- The Supplier shall complete the supply of the ordered goods under this agreement within the stipulated period as laid a. down in the SBDs. In case of delay in supplies reaching to the Purchasing Agency, except in situation/s covered under clause 17 above, the following penalties shall be imposed by the Purchasing Agency upon the Supplier: For delay in supply from one day up to fifteen days, a lump sum penalty amounting to three percent (03%) of the total bid price of the total number of item/s supplied late shall be levied through deducting the total amount of penalty from the total pre-tax payable billedamount by the Purchasing Agency. For delay in supply from sixteen days up to thirty days, a lump sum total penalty amounting to seven per cent (07%) of the total bid price of the total number of item/s supplied late shall be levied through deducting the total amount of penalty from the total pre-tax payable billed amount by the Purchasing Agency. Upon delay in supply more than thirty days, the supply contract shall stand cancelled and the ten percent performance guarantee shall stand forfeited and Procuring Agency shall have the right, duty and authority to impose any or all of the below mentioned penalties; that is Forfeiting the earnest money and performance guarantee of the Supplier related to this contract agreement; and Immediately debarring the Supplier from future participation and business for at least next three (03) calendar years with the Procurement Cell or any other health institution, project and / or Program directly or indirectly run or implemented by or through the provincial Health Department orautonomous Medical Teaching Institutions or district governments in Khyber Pakhtunkhwa; and Initiating the process for and recommending for blacklisting of the Supplier under the rules with the Agencies; and Proceeding for de-registration of the winning bidder under the relevant laws as well as further judicial proceedings, if the situation so warrants in the opinion of Procuring Agency.
- b. In case of delay of more than thirty days extended period as in clause 17 above, the contract shall stand cancelled and the performance guarantee of ten per cent shall stand forfeited
- 19. INDEMNITY: Notwithstanding any rights, duties and / or remedial measures and / or managerial actions taken and / or to be taken and / or any powers exercised and /or to be exercised by the Procuring Agency and / or Purchasing Agency and / or Purchasing Officer/s with regard to the execution of this contract agreement, the Supplier agrees to indemnify them for any loss or damage incurred or inflicted upon by them in individual or official capacity upon the Supplier whether through any of their actions and / or practices and / or otherwise. The Supplier further agrees to pay compensation to the Government of Khyber Pakhtunkhwa of an amount equivalent to ten times the sum of any commission, gratification, bribe or kickback and / or finder's fee given by the Supplier for the purpose of

obtaining and /or inducing the Procurement of any contract, right, interest, privilege or other obligation/s or benefit in whatsoever form, from the Procuring Agency or any of the Purchasing Agencies.

20. RESOLUTION OF DISPUTES: The Purchasing Agency and the Supplier shall make every effort to resolve amicably by direct negotiation any disagreement or dispute arising between them under or in connection with the contract / supplies. Despite such negotiation if the Purchasing Agency& Supplier have been unable to resolve amicably a contract dispute, either party may refer the case to Secretary Health Khyber Pakhtunkhwa for decision through a Dispute Resolution Committee under the chairmanship of Secretary Health Khyber Pakhtunkhwa with Director General Health Services, Khyber Pakhtunkhwa and Additional Secretary Health (Development) Khyber Pakhtunkhwa as members. The decision of the Dispute Resolution Committee shall be final and binding upon both the parties.
